**The Supernatural in Modern English Fiction** Dorothy Scarborough, 2014-11-04 The subject of the supernatural in modern English fiction has been found difficult to deal with because of its wealth of material While there has been no previous book on the topic and none related to it save Mr C E Whitmore's work on *The Supernatural in Tragedy* the mass of fiction itself introducing ghostly or psychic motifs is simply enormous It is manifestly impossible to discuss or even to mention all of it Even in my bibliography which numbers over three thousand titles I have made no effort to list all the available examples of the type The bibliography which I at first intended to publish in connection with this volume is far too voluminous to be included here so will probably be brought out later by itself It would have been impossible for me to prosecute the research work or to write the book save for the assistance generously given by many persons I am indebted to the various officials of the libraries of Columbia University and of New York City particularly to Miss Isadore Mudge Reference Librarian of Columbia and to the authorities of the New York Society Library for permission to use their priceless out of print novels in the Kennedy Collection My interest in English fiction was increased during my attendance on some courses in the history of the English novel given by Dr A J Carlyle in Oxford University England several years ago I have received helpful bibliographical suggestions from Professor Blanche Colton Williams Dr Dorothy Brewster Professor Nelson Glenn McCrea Professor John Cunliffe and Dean Talcott Williams of Columbia and Professor G L Kittredge of Harvard Professors William P Trent George Philip Krapp and Ernest Hunter Wright very kindly read the book in manuscript and gave valuable advice concerning it Professor Wright going over the material with me in detail But my chief debt of gratitude is to Professor Ashley H Thorndike Head of the Department of English and Comparative Literature in Columbia whose stimulating criticism and kindly encouragement have made the book possible To all of these and others who have aided me I am deeply grateful and I only wish that the published volume were more worthy of their assistance

the history and aesthetics of horror fiction      H. P. Lovecraft's Book of the Supernatural Stephen Jones, 2006-08-01 The reader would do well to remember that it is Lovecraft's shadow which overlies almost all of the important horror fiction Stephen King Written by arguably the most important horror writer of the twentieth century H P Lovecraft's 1927 essay Supernatural Horror in Literature traces the evolution of the genre from the early Gothic novels to the work of contemporary American and British authors Throughout Lovecraft acknowledges those authors and stories that he feels are the very finest the horror field has to offer Washington Irving Edgar Allan Poe Henry James Rudyard Kipling Bram Stoker Robert Louis Stevenson Guy de Maupassant Ambrose Bierce and Arthur Conan Doyle each prefaced by Lovecraft's own opinions and insights in their work This chilling collection also contains Henry James wonderfully atmospheric short novel The Turn of the Screw For every fan of modern horror here is an opportunity to rediscover the origins of the genre with some of most terrifying stories ever imagined      *The Supernatural in Short Fiction of the Americas* Dana Del George, 2001-08-30 The continuing cultural encounters of the Americas between European and indigenous cultures and between scientific materialism and premodern supernaturalism have originated new narrative forms While supernatural short fiction of the Americas belongs to the broad category of the fantastic which is generally approached synchronically reading audiences of the past 200 years have shifted their beliefs about the supernatural several times While nineteenth century readers understood science as real and the supernatural as imaginary modern audiences recognize both as inaccurate a shift which allows authors of supernatural fiction to celebrate premodern indigenous beliefs which were once disdained by a materialist culture This book situates supernatural short fiction of the Americas within the changing cultural and epistemological contexts of the last 200 years and explores how authors have drawn upon a wealth of indigenous traditions The book begins with a discussion of theories of the supernatural and the fantastic It then looks at some of the first encounters of European and Native American supernatural beliefs and points to the common elements of these early traditions The volume next focuses on American literature of the nineteenth century which has a complex fusion of materialist biases and metaphysical fascinations The final portion of the book gives greater attention to Spanish American literature and the blending of the supernatural with attitudes of nostalgia and uncertainty      Horror Literature through History Matt Cardin, 2017-09-21 This two volume set offers comprehensive coverage of horror literature that spans its deep history dominant themes significant works and major authors such as Stephen King Edgar Allan Poe and Anne Rice as well as lesser known horror writers Many of today's horror story fans who appreciate horror through movies television video games graphic novels and other forms probably don't realize that horror literature is not only one of the most popular types of literature but one of the oldest People have always been mesmerized by stories that speak to their deepest fears Horror Literature through History shows 21st century horror fans the literary sources of their favorite entertainment and the rich intrinsic value of horror literature in its own right Through profiles of major authors critical analyses of important works and overview essays focused on horror

during particular periods as well as on related issues such as religion apocalypticism social criticism and gender readers will discover the fascinating early roots and evolution of horror writings as well as the reciprocal influence of horror literature and horror cinema This unique two volume reference set provides wide coverage that is current and compelling to modern readers who are of course also eager consumers of entertainment In the first section overview essays on horror during different historical periods situate works of horror literature within the social cultural historical and intellectual currents of their respective eras creating a seamless narrative of the genre s evolution from ancient times to the present The second section demonstrates how otherwise unrelated works of horror have influenced each other how horror subgenres have evolved and how a broad range of topics within horror such as ghosts vampires religion and gender roles have been handled across time The set also provides alphabetically arranged reference entries on authors works and specialized topics that enable readers to zero in on information and concepts presented in the other sections
