The Unity of Isaiah Oswald T. Allis,2000-12-13 Professor Allis maintains the fully predictive character of biblical prophecy and deprecates with special reference to selected prophecies from Isaiah and other Old Testament books prevalent tendencies to tone down that predictive character whether by explaining instances of fulfilled prophecy in terms of intelligent anticipation or regarding them as vaticinia ex eventu thus rejecting the date and setting which their context claims But as Dr Allis points out the account which the Old Testament itself gives of prophecy emphasizes the prominence of the predictive element as may be seen in a number of passages in Deuteronomy principally xviii 9 22 cf also xiii 1 ff The Philosophy of Church Life Richard Tudor,1887 **Religion, Supernaturalism, the Paranormal and Pseudoscience** Homayun

The Godless Delusion Jim Harries,2017-07-07 What if the whole God delusion approach is a neo colonial imposition at the linguistic and philosophical level Could it lead to unmitigated disasters in intercultural communication and development work This paradigm challenging book points to the necessity in light of contemporary impasse in intercultural understanding of God s involvement in the encounter between the West and the majority world especially Africa Failure to account for God the cradle of imagination operative in human hearts and minds has resulted in a black hole that deeply troubles intercultural

engagement between the West and others While drawing on his personal long term field experience in Africa the author cites contemporary scholarly Western literature on philosophy anthropology religion and beyond Ironically the West which values dualism instead of seeking to share it with majority world people wrongly presupposes its universality A proactive compliance to the countering of racism and to the demotion of impacts of human imagination on understanding contribute to this Effective education must be from known to unknown this text emphasizes Enabling African people to build understanding on their own epistemological foundations might be more important than exporting of pre packaged languages and educational systems from the West
