Superpower at Sea Finn Laursen,1983 *Resolved that the United States Federal Government Should Establish an Ocean Policy Substantially Increasing Protection of Marine Natural Resources* Julie Jennings,2004 **Small Powers at Sea** Finn Laursen,2021-09-27 Small Powers at Sea presents an analysis of the marine policies of Denmark Norway and Sweden from the First UN Conference on the Law of the Sea in 1958 until the conclusion of the Third UN Conference on the Law of the Sea in 1982 The main substantive chapters cover security aspects continental shelf policies fisheries shipping and marine environment as well as deep seabed mining The study is comparative and conducted from a political science perspective discussing how to explain the rather divergent Scandinavian marine policies A state centric rational actor model can explain much of the variance but other factors including cognitive ones and the role of domestic politics must be included to obtain a fuller understanding of Scandinavian policies over time and across issue areas **Marine Affairs Bibliography** Christian L. Wiktor,L.A. Foster,2024-12-02 *Superpower at Sea* Finn Laursen,1983 Superpower Rivalry in the Indian Ocean Selig S. Harrison,K. Subrahmanyam,1989-05-04 Note for Jacket see Marketing File so 10 26 The vast politically turbulent region encompassing the Indian Ocean the Persian Gulf forty two littoral states and one third of the world s population is one of the most potentially explosive theaters of superpower rivalry In this study three American and three Indian authors reflecting different perspectives and areas of expertise examine the principal factors that have led to the escalation of superpower tensions in the region the war in Afghanistan and its spillover into the Afghanistan Pakistani borderlands the Indo Pakistani nuclear arms race ethnic tensions in Sri Lanka the Iran Iraq war Islamic fundamentalism and the rapidly growing military presence of the superpowers in the area Considering how India s emergence as a military power is influencing superpower and indigenous tensions in the region the contributors compare Indian American and Soviet interests and offer solutions for current Indian American disagreements **United States Congressional Serial Set, Serial No. 14862, Senate Documents Nos. 12-13** , *Quarterly Review of Military Literature* ,1984 Military Review ,1984 Continental Plans for European Union 1939-1945 Walter Lipgens,Wilfried Loth,2019-11-05 No detailed description available for Continental Plans for European Union 1939 1945 *Professional Journal of the United States Army* ,1984 **Maritime Power and the Law of the Sea:** James Kraska,2011-01-19 In Maritime Power and the Law of the Sea Expeditionary Operations in World Politics Commander James Kraska analyzes the evolving rules governing freedom of the seas and their impact on expeditionary operations in the littoral near shore coastal zone Coastal state practice and international law are developing in ways that restrict naval access to the littorals and associated coastal communities and inshore regions that have become the fulcrum of world geopolitics Consequently the ability of naval forces to project expeditionary power throughout semi enclosed seas exclusive economic zones EEZs and along the important sea shore interface is diminishing and as a result limiting strategic access and freedom of action where it is most needed Commander

Kraska describes how control of the global commons coupled with new approaches to sea power and expeditionary force projection has given the United States and its allies the ability to assert overwhelming sea power to nearly any area of the globe. But as the law of the sea gravitates away from a classic liberal order of the oceans, naval forces are finding it more challenging to accomplish the spectrum of maritime missions in the coastal littorals, including forward presence, power projection, deterrence, humanitarian assistance, and sea control. The developing legal order of the oceans fuses diplomacy, strategy, and international law to directly challenge unimpeded access to coastal areas with profound implications for American grand strategy and world politics.

The Indian Ocean and the Superpowers Rasul Bux Rais, 1987-01-01. This study focuses on the political and strategic implications of the presence in the Indian Ocean of the United States and the Soviet Union. The author examines the geopolitics of the region in historical perspective and describes the evolution of U.S. and Soviet strategy in the Indian Ocean. The central theme of the book is that the naval deployments of the superpowers should be seen in the context of each power's economic and security interests rather than in the context of military rivalry. The book provides an incisive and comprehensive account of U.S. and Soviet strategies in the Indian Ocean by establishing and integrating the links between the economic, political, and strategic dynamics of the situation.

Review of Current Military Literature, 1984. *Comparative Regional Integration* Finn Laursen, 2018-02-06. This title was first published in 2003.
