**New Prophet or Spiritual Villain?** Denny JA,2020-11-01 If you wish to be alive many times with different personalities and various experiences watch and appreciate a significant number of films Undergo through the imagination and ponder their numerous stories as if you were living in those stories Watching good films make me encounter different events as if I dived and became part of the films I interact with various roles in the films feel the story of the depth or falsehood of love the struggle the friendship the success or the failure the betrayal and the tragedy presented in the films Every week I watch about 3 10 films it depends on my other activities My friends who know my fixation with films say that being a political or business consultant is just my side job And my main job is watching films It is not the satisfaction of watching the latest movies that move me But it is the film that made me feel like I was making a spiritual journey into the atmospheres and events in the films My mind is truly enriched While watching the movie I laughed got angry was overwhelmed choked and shed the tears I came across Richard Nixon s words If you want to explore politics don t read political science books but read religion philosophy and literature Based on my personal experience Nixon s quote needs to be revised and expanded If you want to explore the human spirit and the character watch a good film Contemplate and live it as if you were engaged in the events taking place in the film

Understanding Bollywood Ulka Anjaria,2021-03-04 This book offers an introduction to popular Hindi cinema a genre that has a massive fan base but is often misunderstood by critics and provides insight on topics of political and social significance Arguing that Bollywood films are not realist representations of society or expressions of conservative ideology but mediated texts that need to be read for their formulaic and melodramatic qualities and for their pleasurable features like bright costumes catchy music and sophisticated choreography the book interprets Bollywood films as complex considerations on the state of the nation that push the boundaries of normative gender and sexuality The book provides a careful account of Bollywood s constitutive components its moral structure its different forms of love its use of song and dance its visual style and its embrace of cinephilia Arguing that these five elements form the core of Bollywood cinema the book investigates a

range of films from 1947 to the present in order to show how films use and innovate formulaic structures to tell a wide range of stories that reflect changing times The book ends with some considerations on recent changes in Bollywood cinema suggesting that despite globalization the future of Bollywood remains promising By presenting Bollywood cinema through an interdisciplinary lens the book reaches beyond film studies departments and will be useful for those teaching and studying
