**Supporting Citizens' Initiatives** Richard Holloway,1998 Comprises a collection of articles which examine the role currently played by non governmental organizations in Bangladesh Civil Society in Bangladesh Farhat Tasnim,2021-02-13 This book is the first of its kind to offer an understanding analysis and prediction of the state of civil society in Bangladesh in relation to development and democracy It is a research attempt to reveal the paradox found in developing countries like Bangladesh where there are numerous and active civil society organizations CSOs that have had almost no influence in consolidating democracy This book however also qualifies the normative assumption on the positive relationship between civil society and democracy asserted by the mainstream neo Tocquevillean School that has a profound influence on donor policies Readers are introduced to civil society in Bangladesh from a broad perspective Rather than confining the analysis to NGOs chapters explore the origin nature and function of both modern and conventional CSOs which helps to provide a more authentic understanding of the genuine state of civil society in relation to other actors in the political system Combining survey data analyses and empirical observations with carefully chosen case studies the book reveals that CSOs participate very actively in social services This research also reveals that these highly active CSOs in the field of social development lack the necessary attributes for ensuring participation proper interest articulation and monitoring of the state Through systematic analysis the book shows that political structures and for Bangladesh particularly political parties along with vertical social relationships such as clientelism patronage nepotism and corruption have contributed to a non vigilant civil society in Bangladesh although it often is spoken of in different terms This book is highly recommended for researchers students and development practitioners interested in South Asia as well as in understanding the potentials and limitations of civil society in relation to development and democracy Farhat Tasnim s book is a comprehensive treatment of civil society in Bangladesh It will serve as a useful resource for future researchers in this field for a long time to come Harry Blair Yale University USA Farhat Tasnim provides in this book a new perspective on one of the essential cases of civil society study Bangladesh Her penetrating analysis of the relationship of civil society organizations and democracy in Bangladesh should attract a wide readership This is an important book not only for students of Bangladesh but for scholars and practitioners interested in the relationship of civil society organizations and democracy Robert J Pekkanen University of Washington USA

violence The country faces the major challenges of fostering a culture of democracy human rights and the rule of law as the politics of mutual distrust have re emerged with renewed strength into a dysfunctional political landscape This volume examines the failure of liberal democracy to take root and asks despite the presence of a vibrant civil society why is Bangladesh still struggling to institutionalize democracy Providing much needed analytical context to explore the theoretical and empirical dimensions of the role of civil society in the democracy and development of Bangladesh the volume brings together well established international authors to explore key ideas and debates from a wide range of disciplines Through this the contributors raise intriguing questions about the prospects for liberal democracy and social development in a Muslim majority country

Historical Dictionary of Bangladesh Syedur Rahman,2010-04-27 Bangladesh literally the land of the Bengalis is the most recent addition in 1971 to the independent nations of South Asia It had previously been known as East Pakistan and prior to that it was part of British India It has been inhabited by people of different races and religions and ruled over by different leaders who imposed different regimes It is overpopulated and underdeveloped but there is much more to it than that Bangladesh has a long and oftentimes proud tradition it has produced writers and artists of genius and it is an important outpost of Islam And with a population of some 130 million it is one of the larger countries in the world The fourth edition of the Historical Dictionary of Bangladesh greatly expands on the previous edition through a chronology an introductory essay a bibliography and over 700 cross referenced dictionary entries on important people places events and institutions as well as significant political economic social and cultural aspects *Civil Society in Asia* Wayne Hudson,2024-11-01 In East and Southeast Asia the creation of civil society is a crucial yet most difficult issue Europeans have had the luxury of centuries in a slow moving world characterised by weak governments in which the foundation institutions norms and values of civil society could ferment and develop Asia however faces this task when a nation s currency can devalue in seconds destabilising its government and when states have far more effective means of surveillance suppression and terror This book examines these issues and shows that a better understanding of civil society in the Asian context is central to promoting contemporary political social and economic reform in Asia It will appeal to students and teachers of politics law and sociology because it provides new perspectives on how to understand civil society drawing on Asian examples as well as indications for rethinking what civil society means in Asia Individual chapters combine theoretical and empirical issues in a way which fills a major gap

in the literature Henceforth works about civil society will need to take more account of the Asian evidence and Asianists will need to have a clear idea of what civil society in Asia means      **Civil Society by Design** Kendall Stiles,2002-06-30 Drawing on years of research and direct experience in Bangladesh Stiles pulls together theoretical strands from economics sociology and anthropology to help explain an emerging social structure in the Third World These structures which he calls intermestic development circles bring together international donor agencies with various domestic community and private organizations In Bangladesh not for profit agencies are dramatically transforming their operation and organizational cultures while in turn Western NGOs are themselves changing in subtle ways Scholars of development will find Stiles s intriguing account of the reciprocating effects of extensive interaction cooperation and tensions between international donors and domestic recipients informative and provocative Moving through three discernable phases each one explainable by resort to different theories these development circles grow from mere trading arrangements to a coherent social structure separate from the rest of civil society in Bangladesh While in the process of the not for profits receiving assistance become wealthier and more effective they lose much of their local identity and become part of a transnational network At the same time donors must recast themselves in order to work effectively with these agencies which often creates tension between local and home offices The book closes with some recommendations that might attenuate some of the more troubling effects of this transformation

*Bangladesh* David Lewis, 2011-12-07 Since its hard won independence from Pakistan Bangladesh has been ravaged by economic and environmental disasters Only recently has the country begun to emerge as a fragile but functioning parliamentary democracy The story of Bangladesh told through the pages of this concise and readable book is a truly remarkable one By delving into its past and through an analysis of the economic political and social changes that have taken place over the last twenty years the book explains how Bangladesh is becoming of increasing interest to the international community as a portal into some of the key issues of our age In this way the book offers an important corrective to the view of Bangladesh as a failed state
