The Theory and Practice of Christian Psychology in Europe Nicolene L. Joubert, 2022-12-01 A view of human nature generally undergirds approaches to mental health and flourishing Spirituality is accepted by most cultures as an integral part of human nature and cannot be ignored when attempting to take care of our suffering and promoting flourishing The onset of the COVID 19 pandemic in December 2019 caused worldwide shock and ripped at the very fabric of society Everybody was affected by the threat of the illness and loss of lives The disastrous economic impact is still felt in many parts of the world In this book a combination of Christian faith and scientific knowledge is presented as an answer to the question of human suffering Individual and collective suffering are addressed by various articles and therapeutic models The book further serves to deepen understanding of the value of spiritual knowledge and insight in therapy for both Christian and non Christian therapists in respect of both theory and practice The content covers a wide range of topics including collective suffering individual suffering due to abuse elements of Christian psychotherapy the role of conscience and faith in healing spiritual maturity and a Christian view of identity in a digital age **Supporting the Weak** Samuel Pfeifer, 1994

Sells, Amy Trout, Heather C. Sells, 2024-03-19 There is an institution uniquely positioned to help to global mental health crisis the church In this encouraging roadmap psychologists James Sells and Amy Trout and journalist Heather Sells call clinicians students and educators to combine the science of the mental health discipline with the service of Christian ministry **Negotiating a Presence-Centred Christian Counselling** Simon Shui-Man Kwan, 2016-04-26 How Christian is Christian counselling In what ways should one's counselling practice be conducted in order to fulfil one's role as a Christian counsellor Is there a counselling practice that truly penetrates into the secular approaches while remaining faithful to the Christian traditions of healing What are the theological roots of secular counselling How may secular counselling both reinforce and challenge the Christian faith In answering these questions this book engages readers to navigate between two frames of reference one Eastern secular social scientific and modern the other Western Christian theological and traditional At levels of both theory and practice this book undertakes to integrate synthesize hybridize revise dichotomize and antagonize the two It proposes a revised presence-centred counselling approach which may serve as a perspective that helps us to see things in more depth as we shuttle back and forth between the two frames This book thus negotiates a revised presence-centred form of counselling that is theologically grounded socially scientifically informed and cross culturally sensitive As the author's counselling practice proceeds mainly in societies where Chinese is the majority the cross cultural examinations and proposals offered in this book have been bred in a space where Chinese culture meets the Christian Protestantism in particular West This book is an outgrowth of the author's experience teaching Christian counselling courses for 17 years and his 30 year clinical practice experience in places where East meets West namely Hong Kong and South China Guangdong Province **A Peaceable Psychology** Alvin Dueck, Kevin Reimer, 2009-11-01 In the past century psychology has been practiced in the manner of medical science working from the assumption that therapy can transcend particular ethnic and religious traditions Seeking to move the conversation forward this book argues for a theologically culturally and politically sensitive psychotherapy whereby the Christian psychologist treats the patient

according to the particulars of the patient's political situation and ethnic and religious tradition while acknowledging the role of his or her own Christian story in therapeutic dialogue. The authors point to the life of Jesus as the foundation on which to build a therapeutic ethic appropriating the story of his life to bring healing. *The Oxford Companion to Christian Thought* Adrian Hastings, Alistair Mason, Hugh S. Pyper, 2000-12-21 Embracing the viewpoints of Catholic Protestant or Orthodox thinkers of conservatives liberals radicals and agnostics Christianity today is anything but monolithic or univocal. In *The Oxford Companion to Christian Thought* general editor Adrian Hastings has tried to capture a sense of the great diversity of opinion that swirls about under the heading of Christian thought. Indeed the 260 contributors who hail from twenty countries represent as wide a range of perspectives as possible. Here is a comprehensive and authoritative though not dogmatic overview of the full spectrum of Christian thinking. Within its 600 alphabetically arranged entries readers will find lengthy survey articles on the history of Christian thought on national and regional traditions and on various denominations from Anglican to Unitarian. There is ample coverage of Eastern thought as well examining the Christian tradition in China Japan India and Africa. The contributors examine major theological topics such as resurrection the Eucharist and grace as well as controversial issues such as homosexuality and abortion. In addition short entries illuminate symbols such as water and wine and there are many profiles of leading theologians of non-Christians who have deeply influenced Christian thinking including Aristotle and Plato and of literary figures such as Dante Milton and Tolstoy. Most articles end with a list of suggested readings and the book features a large number of cross references. *The Oxford Companion to Christian Thought* is an indispensable guide to one of the central strands of Western culture.
