*The Nation's Tortured Body* Brian Keith Axel, 2001 A theoretical account of the formation of Sikh diaspora and Sikh nationalism arguing that the diaspora rather than originating from the nation has a major role in the nation's creation

*Murder and Its Consequences* Leigh B. Bienen, 2010-08-31 Resource added for the Psychology includes Sociology 108091 courses      *Catalog of Audiovisual Media Programs*, 1992      Understanding the Backlash Against Affirmative Action John Fobanjong, 2001 Affirmative action remains one of the most divisive issues in America remaining unsolved since the 1960s civil rights legislation Though many works have attempted to solve the dilemma none have tried to identify the underlying causes of the backlash against the policy In order to understand affirmative action's future one must understand its evolution its opposition and its application both in America and in other nations In a multi disciplinary approach this book examines affirmative action from comparative historical policy and sociological perspectives Also included is a list of Supreme Court rulings on affirmative action      *Crisis in East Timor and U.S. Policy Toward Indonesia* United States. Congress. Senate. Committee on Foreign Relations, 1992      *A History of the Laws of War: Volume 1* Alexander Gillespie, 2011-09-06 This unique new work of reference traces the origins of the modern laws of warfare from the earliest times to the present day Relying on written records from as far back as 2400 BCE and using sources ranging from the Bible to Security Council Resolutions the author pieces together the history of a subject which is almost as old as civilisation itself The author shows that as long as humanity has been waging wars it has also been trying to find ways of legitimising different forms of combatants and regulating the treatment of captives This first book on warfare deals with the broad question of whether the patterns of dealing with combatants and captives have changed over the last 5 000 years and if so how In terms of context the first part of the book is about combatants and those who can lawfully take part in combat In many regards this part of the

first volume is a series of less than ideal pathways This is because in an ideal world there would be no combatants because there would be no fighting Yet as a species we do not live in such a place or even anywhere near it either historically or in contemporary times This being so a second best alternative has been to attempt to control the size of military forces and therefore the bloodshed This is also not the case by which humanity has worked over the previous centuries Rather the clear assumption for thousands of years has been that authorities are allowed to build the size of their armed forces as large as they wish The restraints that have been applied are in terms of the quality and methods by which combatants are taken The considerations pertain to questions of biology such as age and sex geographical considerations such as nationality and the multiple nuances of informal or formal combatants These questions have also overlapped with ones of compulsion and whether citizens within a country can be compelled to fight without their consent Accordingly for the previous 3 000 years the question has not been whether there should be a limit on the number of soldiers but rather who is or is not a lawful combatant It has rarely been a question of numbers It has been and remains one of type The second part of this book is about people typically combatants captured in battle It is about what happens to their status as prisoners about the possibilities of torture assistance if they are wounded and what happens to their remains should they be killed and their bodies fall into enemy hands The theme that ties all of these considerations together is that all of the acts befall those who are to one degree or another captives of their enemies As such they are no longer masters of their own fate As a work of reference this first volume as part of a set of three is unrivalled and will be of immense benefit to scholars and practitioners researching and advising on the laws of warfare It also tells a story which throws fascinating new light on the history of international law and on the history of warfare itself

Climate Litigation and Vulnerabilities Maria Antonia Tigre, Melanie Jean Murcott, Susan Ann Samuel, 2025-06-19 This volume explores climate litigation as a means to tackle the rights and socio ecological intergenerational gender racial and other justice implications of the ever growing vulnerability to climate change whilst critically engaging with the notions of vulnerability and intersectional climate justice With insightful analysis thought provoking case studies and a global perspective the collection illustrates the opportunities and pitfalls of litigation pursued by people from the Global South who face intersecting forms of oppression and marginalisation amidst the climate crisis Contributors discuss litigation strategy novel legal arguments institutional barriers and unique socio ecological and political challenges in the Global South Divided into two parts the book recognises that climate change is an existential threat to humanity more frequently being tackled in courts worldwide The first part exposes the limits of litigation as a mechanism for intersectional climate justice for vulnerable people in the Global South The second part highlights innovations in climate litigation in pursuit of intersectional climate justice The book will be of interest to academics researchers and policymakers in the areas of human rights law environmental law climate law Latin American studies South Asian studies and African studies

**Handbook of Disaster Research** Amita Singh, 2023-09-30 This handbook is a comprehensive source of information analysis and directions in disaster studies. It goes beyond the oft-explored issues of management and science related to the topic and explores policies, governance, law, and decision making combined with the processes of implementation and enforcement all the while integrating the latest science and technology updates related to the topic such as artificial intelligence and early warning systems. It brings together studies which relate to sociology, politics, and institutional economics which work under the impact of resource availability, issues of leadership, and international laws. Disasters are trans-boundary and disaster studies are trans-disciplinary. It is this aspect which would form the fulcrum of contributions and present a new refreshing and innovative design for the handbook. The transformatory pedagogy which started with the Hyogo Framework for action 2005-2015 and The Sendai Framework for Disaster Risk Reduction 2015-2030 outlines seven clear targets and four priorities for action to prevent new and reduce existing disaster risks. The four priority areas around which the book would revolve are i) Understanding disaster risk ii) Strengthening disaster risk governance to manage disaster risk iii) Investing in disaster reduction for resilience and iv) Enhancing disaster preparedness for effective response and to Build Back Better in recovery, rehabilitation, and reconstruction.

*'Honour'* Lynn Welchman, Sara Hossain, 2008-02-29 This volume brings together the practical insights and experiences of individuals and organisations working in diverse regions and contexts to combat crimes of honour. Authors examine strategies of response to such manifestations of violence against women focusing largely on honour killings and interference with the right to choice in marriage and the related use and legal treatment of the defence of honour and provocation in different countries of Europe, the Middle East, Latin America, and South Asia. This timely volume is distinctive in approach and content, highlighting activist and practice-orientated academic perspectives from both the South and the North. The authors give voice to the struggle to locate crimes of honour firmly within the international framework of violence against women and human rights rather than positioning these abuses as specific to particular cultures or communities. The first of its kind, this book serves as a resource in addressing honour crimes and more broadly violence against women and will be of interest to a multi-disciplinary academic audience as well as to lawyers, policy makers, and activists.

**Forthcoming Books** Rose Arny, 1996-06 The Women of CourtWatch Carole Bell Ford, 2010-01-01

Houston was a terrible place to divorce or seek child custody in the 1980s and early 1990s. Family court judges routinely rendered verdicts that damaged the interests of women and children. In some especially shocking cases they even granted custody to fathers who had been accused of molesting their own children. Yet despite persistent allegations of cronyism, incompetence, sexism, racism, bribery, and fraud, the judges wielded such political power and influence that removing them seemed all but impossible. The family court system was clearly broken but there appeared to be no way to fix it. This book recounts the inspiring and courageous story of women activists who came together to oppose Houston's family court judges and whose political action committee CourtWatch played a crucial role in defeating five of the judges in the 1994 judicial

election Carole Bell Ford draws on extensive interviews with Florence Kusnetz the attorney who led the reform effort and other CourtWatch veterans as well as news accounts to provide a full history of the formation struggles and successes of a women s grassroots organization that overcame powerful political interests to improve Houston s family courts More than just a local story however this history of CourtWatch provides a model that can be used by activists in other communities in which legal and social institutions have gone astray It also honors the heroism of Florence Kusnetz whose commitment to the Jewish concept of tikkun olam repairing and improving the world brought her out of a comfortable retirement to fight for justice for women and children

Crimes against History Antoon De Baets,2018-12-13 Crimes against History takes a global approach to the extreme forms of censorship to which history and historians have been subjected through the ages The book opens by considering the varieties of censorship from suppression dismissal and defamation to persecution and murder Part I Kill switch tells the tragic story of how the censorship of history has sometimes turned into deadly crimes against history with chapters looking at topics such as historians and archivists being killed for political reasons attacks by political leaders on historians iconoclastic breaks with the past and fake news Part II Fragile freedom reverses the perspective and examines how the censorship of history has backfired Chapters consider the subversive power of historical analogies and resistance to the censorship of history The book also contains a Provisional memorial for history producers killed for political reasons from ancient times until 2017 It is a double tribute to the history producers who were killed and to those who mustered the courage to resist the blows of censorship
