Janousek, 2001-12-12 Continue s the work of Nancy A Guenther s first two editions of United States Supreme Court decisions an index to excerpts reprints and discussions Introduction Morality Imposed Stephen E. Gottlieb, 2000-09 We like to think of judges and justices as making decisions based on the facts and the law But to what extent do jurists decide cases in accordance with their own preexisting philosophy of law and what specific ideological assumptions account for their decisions Stephen E Gottlieb adopts a unique perspective on the decision making of Supreme Court justices blending and re characterizing traditional accounts of political philosophy in a way that plausibly explains many of the justices voting patterns A seminal study of the Rehnquist Court Morality Imposed illustrates how in contrast to previous courts which took their mandate to be a move toward a freer and or happier society the current court evidences little concern for this goal focusing instead on thinly veiled moral judgments Delineating a fault line between liberal and conservative justices on the Rehnquist Court Gottlieb suggests that conservative justices have rejected the basic principles that informed post New Deal individual rights jurisprudence and have substituted their own conceptions of moral character for these fundamental principles Morality Imposed adds substantially to our understanding of the Supreme Court its most recent cases and the evolution of judicial philosophy in the U S *60 Years of the New York Convention* Katia Fach Gomez, 2019-03-22 Worldwide interest in the recognition and enforcement of arbitral awards has never been higher and the New York Convention of 1958 currently adhered to by 159 States including the major trading nations remains the most successful treaty in this area of commercial law This incomparable book marking the Convention s 60th anniversary provides a fully updated analysis of the Convention s application from international comparative and national perspectives Drawing on a global conference held in Seville in April 2018 that was actively supported by UNCITRAL the book s 27 chapters by highly qualified international practitioners and academics from different jurisdictions address the subject with critical eyes well aware of current developments and future challenges in the field of arbitration Among the issues and topics covered are the following Multi tiered dispute resolution clauses Applicability of the UN Convention on the Use of Electronic Communications in International Contracts Complexities of enforcing orders determined by software Enforcement of annulled awards European Union law and the New York Convention Enforcing awards against States and State entities Sovereign immunity as a ground to refuse compliance with investor State awards Enforcement against non signatories Public policy exception Arbitrating and enforcing foreign awards in specific countries and regions including China sub Saharan Africa and the ASEAN countries Ample reference is made throughout to leading cases and practice Familiarity with the intricacies of the New York Convention as the most universally acknowledged framework in which cross border economic exchanges can
