But to deny the mechanism of the finite creation is to deny fact and to disregard reality.

G. Ventureyra, 2018-11-29 Have you ever thought about how self consciousness self awareness originated in the universe Understanding consciousness is one of the toughest nuts to crack In recent years scientists and philosophers have attempted to provide an answer to this mystery The reason for this is simply because it cannot be confined to solely a materialistic interpretation of the world Some scientific materialists have suggested that consciousness is merely an illusion in order to insulate their worldviews Yet consciousness is the most fundamental thing we know even more so than the external world since we require it to perceive or think about anything Without it reasoning would be impossible Dr Scott Ventureyra in this ground breaking book explores the idea of the Christian God and Creation in order to tackle this most difficult question He demonstrates that theology has something significant to offer in reflection of how consciousness originated in the universe He also makes a modest claim that the Christian conception of God and

Creation provide a plausible account for the origin of self consciousness He integrates philosophy theology and science in an innovative way to embark on this exploration     **The Religion of Spiritualism, Its Phenomena and Philosophy** Samuel Watson,1881     Encyclopaedia Britannica; Or A Dictionary of Arts, Sciences, and Miscellaneous Literature ,1823     *The Encyclopaedia Britannica, Or Dictionary of Arts, Sciences, and General Literature* ,1842     **“The” Encyclopaedia Britannica** ,1882
