Sur La Philosophie Africaine:

Sur la philosophie africaine, 1980 **20 questions sur la philosophie africaine** Issiaka-Prosper L. Laleye, 2010-04-01

Docteur en philosophie l'auteur apporte depuis près de 40 ans une contribution remarquable à l'activité philosophique africaine. Méthodiquement construit, ce livre constitue un véritable vade-mecum pour enseignants et étudiants. Il constitue une excellente initiation à l'étude de la philosophie africaine, notamment pour les classes de terminale, mais aussi les premiers cycles des universités.

Sur la philosophie africaine J. Hountondji, 2013-07-26

Many contemporary African writers remain trapped in the quest for a worldview philosophy supposing a single African dèmesne to explain the entire continent, referring to a mythical past. Paulin Hountondji shows how these strange conceptual constructions have played a positive role in the resistance led by intellectuals of colonial rule; they responded to the negation of the oppression that it comprised, but it was an ambiguous answer, especially because it was built on the principles derived from the works of European ethnologists. Particularly the Pre-Tempels Independence opened a new historical period; these philosophical elaborations changed direction once an expression of anti-colonial resistance; they are nowadays an ideology that justifies and reinforces the dominance of the contemporary state. The intellectuals who create them are today only the griots of the regimes in place. Analysing without complacency the work of Nkrumah of the Cameroonian Towa and of the Rwandan Kagame, amongst others, Hountondji exposes and denounces this antagonism. To him, the critical project proposed in this book seems a necessary step on the way to the liberation of theoretical creativity, the peoples of Africa, and their full participation in the universal intellectual debate.

Paulin Hountondji Bado Ndoye, 2023-01-11

Paulin Hountondji, né en 1942 à Abidjan, est l'un des philosophes africains les plus influents de ces cinquante dernières années. Sa vive critique de ce qui se présente comme philosophie africaine chez le prêtre Placide Tempels et les auteurs qui adoptent la démarche ethnophilosophique du missionnaire belge s'inspire de la pensée du philosophe allemand Edmund Husserl. Selon lui, la pensée philosophique doit prendre son point de départ non pas dans les représentations, mais dans les problèmes auxquels elle finit alors la démarche pour les formuler. La pensée de Hountondji s'inspire ainsi du Husserl qui rompt avec l'idéalisme de ses premiers critiques inscrit la philosophie dans le monde de la vie et des cultures humaines. Ainsi, est-on conduit à poser la question de l'universel et à redéployer le sens dans une perspective qui ne privilégie plus les cultures occidentales et l'humanité européenne. Sur cette question, ce livre montre comment Hountondji a anticipé une bonne partie des débats contemporains en ayant aussi, tout un des premiers, avoir clairement nonc le projet philosophique d'une refondation des savoirs endogènes africains.
