Yates, 2017-12-28 This new fourth edition of the Historical Dictionary of Gabon brings up to date the political affairs of the country since the accession to power of Ali Bongo eldest son of Omar Bongo the former president for life who died in 2009 after the publication of the third edition Themes of continuity and change are present throughout the entries not only as the Bongo family continues its half century of dynastic rule there are a dozen Bongos in this new edition but as the rare primeval tropical rainforests continue to dominate the landscape yet are menaced by destructive logging and palm oil plantations and as this former French colony after independence continues to collaborate with the French African sphere of influence yet seeks new partners from America and Asia China Singapore and as the country s numerous ethnic

groups perpetuate a multicultural mosaic that is nevertheless threatened by globalization of communications and cultural convergence This fourth edition of Historical Dictionary of Gabon contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Gabon

International Handbook of Mathematics Education Alan Bishop,M.A. (Ken) Clements,Christine Keitel-Kreidt,Jeremy Kilpatrick,Colette Laborde,2012-12-06 ALAN J BISHOP Monash University Clayton Victoria Australia RATIONALE Mathematics Education is becoming a well documented field with many books journals and international conferences focusing on a variety of aspects relating to theory research and practice That documentation also reflects the fact that the field has expanded enormously in the last twenty years At the 8th International Congress on Mathematics Education ICME in Seville Spain for example there were 26 specialist Working Groups and 26 special ist Topic Groups as well as a host of other group activities In 1950 the Commission Internationale pour l Etude et l Amelioration de l Enseignement des Mathematiques CIEAEM was formed and twenty years ago another active group the International Group for the Psychology of Mathematics Education PME began at the third ICME at Karlsruhe in 1976 Since then several other specialist groups have been formed and are also active through regular conferences and publications as documented in Edward Jacobsen s Chapter 34 in this volume

Ethnomathematics Arthur B. Powell,Marilyn Frankenstein,1997-04-17 This collection brings together classic previously published articles and new research to present the emerging field of ethnomathematics from a critical perspective challenging particular ways in which Eurocentrism permeates mathematics education The contributors identify several of the field s broad themes reconsidering what counts as mathematical knowledge considering interactions between culture and mathematical knowledge and uncovering hidden and distorted histories of mathematical knowledge The book offers a diversity of ethnomathematics perspectives that develop both theoretical and practical issues from various disciplines including mathematics mathematics education history anthropology cognitive psychology feminist studies and African studies written by authors from Brazil England Australia Mozambique Palestine Belgium and the United States

The Crest of the Peacock George Gheverghese Joseph,2011 The contents of this book cover the history of mathematics the beginnings of written mathematics Egyptian and Mesopotamian mathematics special topics in Chinese mathematics and much more

Africa and Mathematics Dirk Huylebrouck,2019-03-30 This volume on ethnomathematics in Central Africa fills a gap in the current literature focusing on a region rarely explored by other publications It highlights the discovery of the Ishango rod which was found to be the oldest mathematical tool in humanity s history thereby shifting the origin of mathematics to the heart of Africa and explores the different scientific hypotheses that emerged as a result While it contains some high level mathematics the non mathematical reader can easily skip these portions and enjoy the book s survey of African history culture and art
