Johnston, 1986 The eagerly awaited sequel to Carry The Wind this is the second volume of Terry Johnston's award winning saga of mountain men Josiah Paddock and Titus Bass who here meet new challenges and new loves in the western wilderness of the 1830s Great God A'Mighty! The Dixie Hummingbirds Jerry Zolten, 2003-02-06 From the Jim Crow world of 1920s Greenville South Carolina to Greenwich Village's Caf Society in the 40s to their 1974 Grammy winning collaboration on Loves Me Like a Rock the Dixie Hummingbirds have been one of gospel's most durable and inspiring groups Now Jerry Zolten tells the Hummingbirds' fascinating story and with it the story of a changing music industry and a changing nation When James Davis and his high school friends starting singing together in a rural South Carolina church they could not have foreseen the road that was about to unfold before them They began a ten year jaunt of wildcatting traveling from town to town working local radio stations schools and churches struggling to make a name for themselves By 1939 the a cappella singers were recording their four part harmony spirituals on the prestigious

Decca label By 1942 they had moved north to Philadelphia and then New York where backed by Lester Young's band they regularly brought the house down at the city's first integrated nightclub Caf Society From there the group rode a wave of popularity that would propel them to nation wide tours major record contracts collaborations with Stevie Wonder and Paul Simon and a career still vibrant today as they approach their seventy fifth anniversary Drawing generously on interviews with Hank Ballard Otis Williams and other artists who worked with the Hummingbirds as well as with members James Davis Ira Tucker Howard Carroll and many others The Dixie Hummingbirds brings vividly to life the growth of a gospel group and of gospel music itself

Zen and the Art of Mixing Mixerman, 2010-10 Technical Reference In his first book The Daily Adventures of Mixerman the author detailed the frustrating and often hilarious goings on during the process of recording a major label band Musicians engineers and producers laughed and cried at the crazy goings on they'd never imagined or recognized all too well Now Mixerman turns his razor sharp gaze to the art of mixing and gives followers and the uninitiated reason to hope if not for logic and civility in the recording studio then at least for a good sounding record With a firm commitment to art over technology and to maintaining a grasp of each Mixerman outlines his own approach to recording success based on his years mixing records in all genres of music for all kinds of artists often under trying circumstances As he states in his introduction to the new volume Even if you're not a professional mixer even if you're a musician trying to mix your own work or a studio owner in a smaller market you have your own set of pressures to deal with while you're mixing Regardless of what those pressures are it's important to identify and recognize them if for no other reason than so you can learn to completely ignore them But how That's where the Zen comes in
