Premium Collection. Illustrated*

Adam Smith, David Ricardo, Karl Marx, Alfred Marshall, John Maynard Keynes, 2021-11-10 Economics is a social science concerned with the production distribution and consumption of goods and services It studies how individuals businesses governments and nations make choices about how to allocate resources Economics can generally be broken down into macroeconomics which concentrates on the behavior of the economy as a whole and microeconomics which focuses on individual people and businesses The founding of modern Western economics generally credited to the publication of Scottish philosopher Adam Smith's 1776 book *An Inquiry Into the Nature and Causes of the Wealth of Nations* In this book the classic works of the founders of economic theory are selected *The Wealth of Nations* by Adam Smith *On the Principles of Political Economy and Taxation* by David Ricardo *Capital* by Karl Marx *Principles of Economics* by Alfred Marshall *The General Theory of Employment Interest and Money* by John Maynard Keynes *Themes in Value and Distribution* Krishna Bharadwaj, 2017-01-20 The essays in this volume first published in 1989 seek to re-examine an important area of economic theory value and distribution In a sustained and analytical critique two principle methodological approaches are compared and distinguished the Classical or surplus based theories and the demand and supply based equilibrium DSE theories Although the essays are primarily concerned with value and distribution the critique necessarily extends to the theory of output and employment and in general to the theory of trade and accumulation The book will be an invaluable reader for students of economic thought capital theory and Marxian political economy **ECONOMICS FOR CHILDREN**

Ranganayakamma, From childhood children need games songs stories and many more things Though the stories are full of fantasies and superstitions the children must also receive scientific facts along with these Science is a knowledge which elucidates the real matters with proofs regarding the nature that we exist in and the society that we live in Children are innocent They learn and trust in what is told to them by the elders at home and at school The elders will convey to their children what they have learnt from their elders They teach the children only what they were taught Children or adults they will start to think only when they receive scientific knowledge One need not learn all the aspects of science related to Nature Every person need not thoroughly learn the medical sciences It would suffice if they are familiar with the routine hygiene principles to practice on a daily basis When ailments descend on people the clinicians will take care of the diseases Every person need not have the medical knowledge as much as clinicians do This also applies to the other natural sciences However this is not the case with the science that teaches us regarding the society that we live in We are human beings not

animals The animals are born and are dead the same way as they were born They do not need any kind of science or knowledge The human being however must know about human relations The Economic Science explains relations among humans and their ways of living This is the science that portrays the lives of yesterday today and tomorrow Every person must be aware of this knowledge *Grundrisse* Karl Marx, 2005-11-24 Written during the winter of 1857-8 the *Grundrisse* was considered by Marx to be the first scientific elaboration of communist theory A collection of seven notebooks on capital and money it both develops the arguments outlined in the Communist Manifesto 1848 and explores the themes and theses that were to dominate his great later work *Capital* Here for the first time Marx set out his own version of Hegel's dialectics and developed his mature views on labour surplus value and profit offering many fresh insights into alienation automation and the dangers of capitalist society Yet while the theories in *Grundrisse* make it a vital precursor to *Capital* it also provides invaluable descriptions of Marx's wider ranging philosophy making it a unique insight into his beliefs and hopes for the foundation of a communist state *In Marx's Laboratory*, 2013-09-13 In *Marx's Laboratory* Critical Interpretations of the *Grundrisse* provides a critical analysis of the *Grundrisse* as a crucial stage in the development of Marx's critique of political economy Stressing both the achievements and limitations of this much debated text and drawing upon recent philological advances this volume attempts to re-read Marx's 1857-58 manuscripts against the background of *Capital* as a laboratory in which Marx first began to clarify central elements of his mature problematic With chapters by an international range of authors from different traditions of interpretation including the International Symposium on Marxian Theory this volume provides an in-depth analysis of key themes and concepts in the *Grundrisse* such as method dialectics and abstraction abstract labour value money and capital technology the general intellect and revolutionary subjectivity surplus value competition crisis and society gender ecology and pre-capitalist forms Contributors include Chris Arthur Luca Basso Riccardo Bellofiore George Caffentzis Martha Campbell Juan Igo Carrera Howard Engelskirchen Roberto Fineschi Michael Heinrich Fred Moseley Patrick Murray Geert Reuten Tony Smith Guido Starosta Massimiliano Tomba Jan Toporowski Peter D Thomas Joel Wainwright and Amy Wendling [Marxism and the Global Financial Crisis](#) Hillel Ticktin, 2013-09-13 The book discusses the nature of Marxist theory of crisis and applies it to the global financial crisis which began in 2007 Is the contemporary crisis simply the usual periodic upturn and downturn or is there something more fundamental Is there a structural crisis of capitalism from which there is no immediate solution Is capitalism managed and does it have a strategy Is the financial crisis representative of a failure in capitalism itself to subject banks and other financial institutions to the overall economy The book discusses Marx's view on crises as well as ideas on money and finance It considers the different modern Marxist ideas on the causes of crises falling rate of profit disproportionality and underconsumption It goes into detail as to the nature of the present crisis its course and causes in a spirited and independent manner Apart from the United States it considers the situation in the two countries in which protests erupted Iran and Greece They are taken as examples of the effect of the crisis

on the country the society and the economy as well as its politics This book was originally published as a special issue of Critique

The Culmination of Capital M. Campbell,G. Reuten,2001-12-14 In this collection four philosophers and four economists consider the Third Volume of Marx s Capital The essays take up each of the major themes of Volume III competition for formation and development of the general rate of profit the credit system and finance capital rent the Trinity formula and the concept of class and consider them in the light of the two previous volumes The authors share a focus on the concept of social form in Marx s work and on the method of his argument The collection is intended both for specialists in Marxian theory and for students of the history of economic thought and of methodology

Capital Volume 1 Karl Marx,2018-07-21 Money is the alienated essence of man s labor and life and this alien essence dominates him as he worships it Capital Vol 1 A Critical Analysis of Capitalist Production This version of Capital Volume 1 Marx s highest achievement in economics is based on the English edition of 1887 It is presented here in a large easy to read format with large margins perfect for note taking Karl Marx Born May 5 1818 in Trier Germany Died March 14 1883 in London England a stateless person

Das Kapital: Critique of Political Economy (Part III) Karl Marx,2024-05-09 Published in 1894 by Friedrich Engels from Karl Marx s remaining manuscripts Das Kapital Critique of Political Economy Part III Das Kapital Kritik der politischen konomie Buch III subtitled The Process of Capitalist Production as a Whole completes the structural arc begun in the earlier volumes by turning to the forms of appearance that capital takes at the surface of society profit interest rent and the financial sphere Whereas Volume I treated the secret of surplus value and Volume II the formal circulation of capital this volume exposes how these foundational dynamics are concealed beneath categories that appear spontaneous and self justifying Marx works through these economic forms not as accidental distortions but as necessary illusions generated by the system itself in the process of reproducing its internal logic on a social scale Here the system of capital takes on its most mystified and seemingly autonomous shape as profit appears severed from labor and capital seems to generate value of its own accord The movement through the trinity formula capital profit land rent labor wages masks the origins of value and cloaks exploitation in the naturalized language of distribution The reader is drawn into a structure of thought that unfolds with a rigorous internal logic one that renders the contradictions of accumulation and crisis not as empirical accidents but as determinate forms of motion In these final formulations Marx s categories move with a certain inevitability animated by their own inner tensions giving the appearance of a system that is both law bound and yet riddled with immanent instability The theoretical clarity of the work belies the spectral quality of its subject a world governed by abstractions that live through concrete human relations yet obscure them entirely This modern Critical Reader s Edition includes an illuminating afterword tracing Marx s intellectual relationships with revolutionary thinkers and philosophers including Hegel Feuerbach Engels and Ricardo containing unique research into his ideological development and economic metaphysical theories a comprehensive timeline of his life and works a glossary of Marxist terminology and a detailed index of all of Marx s writings This professional

translation renders Marx's dense dialectical prose into modern language to preserve the original force and precision of the text. Combined with the scholarly amplifying material, this edition is an indispensable exploration of Marx's classic works and his enduring Hegelian Protestant influence in the political, religious, economic, and philosophical spheres. Service Workers in the Era of Monopoly Capital Fabian van Onzen, 2021-10-11 In *Service Workers in the Era of Monopoly Capital*, Fabian van Onzen uses Marxist theory to analyse the process by which service and retail workers are exploited by the capitalist class. His analysis takes us through the primary concepts of Marxism: surplus value, commodity form, etc., and demonstrates their relevance for understanding the service industry. The book reveals that service and retail workers, shop employees, cleaners, hospitality workers, are integral to the capitalist system and have significant power to transform society if organised properly. Van Onzen argues that the key to ending the exploitation of service workers is through the socialist transformation of society. The book contains an examination of what service work will be like under socialism and provides examples of how former socialist countries changed the nature of service labour. *Service Workers in the Era of Monopoly Capital* is an important addition to Marxist theory, which is still somewhat lacking in detailed accounts of the service and retail industry. **The Capital** Karl Marx, 2023-11-17 Karl Marx's *The Capital* is a groundbreaking work that explores the economic system of capitalism and its impact on society. Written in a dense and scholarly style, the book delves deep into the intricacies of capitalist production, exposing the exploitation of labor and the accumulation of wealth by the bourgeoisie. Marx's analysis is rooted in historical context, drawing on classical political economy and dialectical materialism to argue for the inevitable downfall of capitalism. His critique of the mode of production and capitalist relations of production remains influential in the study of economics and sociology. *The Capital* is a seminal work that continues to shape discussions on class struggle and economic inequality. Karl Marx, a German philosopher and economist, was deeply passionate about social justice and economic equality. His experiences living through the industrial revolution and witnessing the harsh realities of capitalism motivated him to write *The Capital*. Marx's revolutionary ideas laid the foundation for modern socialism and communism. I recommend *The Capital* to readers interested in understanding the economic mechanisms of capitalism and the implications for society.

The Process of Capitalist Production Karl Marx, 2018-11-02 This eBook has been formatted to the highest digital standards and adjusted for readability on all devices. This book is a critical analysis of political economy meant to reveal the contradictions of the capitalist mode of production, how it was the precursor of the socialist mode of production, and of the class struggle rooted in the capitalist social relations of production. Karl Marx (1818-1883) was a famous German philosopher, economist, historian, political theorist, sociologist, journalist, and revolutionary socialist.
