Jansen Estrup, 2001-05-30 Humanity we are taught has always looked to the heavens for inspiration solace even salvation Why What did our ancestors see there How was it

understood And how will we in this enlightened high tech age benefit by discovering the motives and miscalculations of ancient teachings Jansen Estrups Tales of a Clear Dark Night is a stunning inquiry into the essence of archaeological mythic and cosmological lore and their relationship to the pandemic of violence at large in todays societies Working the night watch with unusual savvy he balances toughness with compassion while deftly illustrating the murderous intrigues which are uncovered An original and controversial thinker Estrup concludes that all oppression is rooted in nothing less than the stories we tell each other and our children Asking questions until he has answers the author masterfully weaves together the threads of past and present into a gripping read Physical Sciences Amy Bain,Janet Richer,Janet Weckman,2001-05-15

tools and techniques for developing trading systems and by illustrating them using real markets The difference between these two Volumes and the rest of the literature is its rigor It describes trading as a form of gambling that when properly executed is quite logical and is well known to professional gamblers and analytical traders But even those elites might be surprised at the extent to which quantitative methods have been justified and applied including a life cycle theory of trading systems Apart from a few sections that develop background material Volume 2 creates from scratch a trading system for Eurodollar futures using principles of the Strategic Analysis of Markets Method SAMM a principled step by step approach to developing profitable trading systems It has an entire Chapter on mechanical methods for testing and improvement of trading systems which transcends the rather unstructured and unsatisfactory backtesting literature It presents a breakout trend following system developed using factor models It also presents a specific pairs trading system and discusses its life cycle from an early highly profitable period to its eventual demise Recent developments in momentum trading and suggestions on improvements are also discussed
