The Hedge Schools Of Ireland:

The Hedge Schools of Ireland P. J. Dowling, 1968 This work gives an account of the secret schools set up by conquered people determined to maintain their traditional scholarship *The Hedge Schools of Ireland* Patrick Joseph Dowling, 1968

The Irish Hedge School and Its Books, 1695-1831 Antonia McManus, 2002 McManus Education Trinity College Dublin examines the informal and often illegal schools where poor Irish mostly rural learned to read and were introduced to tenets of Irish nationalism She also critically appraises a selection of the chapbooks Burton books before 1824 used in them including the criminal biographies the works of entertainment and the perennially popular chivalric romance *The Seven Champions of Christendom* Distributed in the US by ISBS Annotation copyrighted by Book News Inc Portland OR *The Hedge Schools of Ireland* Patrick John Dowling, Patrick Joseph Dowling, 1935 **The Hedge Schools of Ireland: adaptation of defiance** S M. Mckay, 1979 **The Hedge Schools of Ireland, Etc** Patrick John DOWLING, 1935

Between Literature and History Barbara Hughes, 2010 This text explores the diaries and memoirs of Mary Leadbeater and Dorothea Herbert both of whom lived in Ireland Working on the premise that their identities are literary constructions the author investigates the cultural and existential impulses that motivate their creation **A Source Book for Irish English** Raymond Hickey, 2002-01-01 Accompanying CD ROM contains all the bibliographical items in this book along with self installing software necessary to process the databases and the annotations on a personal computer p 535 [American Indians, the Irish, and Government Schooling](#) Michael C. Coleman, 2007-01-01 For centuries American Indians and the Irish experienced assaults by powerful expanding states along with massive land loss and population collapse In the early nineteenth century the U S government acting through the Bureau of Indian Affairs BIA began a systematic campaign to assimilate Indians **The End of Hidden Ireland** Robert Scally, 1995-03-02 Many thousands of Irish peasants fled from the country in the terrible famine winter of 1847 48 following the road to the ports and the Liverpool ferries to make the dangerous passage across the Atlantic The human toll of Black 47 the worst year of the famine is notorious but the lives of the emigrants themselves have remained largely hidden untold because of their previous obscurity and deep poverty In *The End of Hidden Ireland* Scally brings their lives to light Focusing on the townland of Ballykilcline in Roscommon Scally offers a richly detailed portrait of Irish rural life on the eve of the catastrophe From their internal lives and values to their violent conflict with the English Crown from rent strikes to the potato blight he takes the emigrants on each stage of their journey out of Ireland to New York Along the way he offers rare insights into the character and mentality of the immigrants as they arrived in America in their millions during the famine years Hailed as a distinguished work of social history this book also is a tale of adventure and human survival one that does justice to a tragic generation with sympathy but without sentiment

Ireland and the Fiction of Improvement Helen O'Connell, 2006-09-21 This is the first study of Irish improvement fiction a neglected genre of nineteenth century literary social and political history *Ireland and the Fiction of Improvement*

shows how the fiction of Mary Leadbeater Charles Bardin Martin Doyle and William Carleton attempted to lure Irish peasants and landowners away from popular genres such as fantasy romance and radical political tracts as well as high literary and philosophical forms of enquiry These writers attempted to cultivate a taste for the didactic tract an assertively realist mode of representation Accordingly improvement fiction laboured to demonstrate the value of hard work frugality and sobriety in a rigorously realistic idiom representing the contentment that inheres in a plain social order free of excess and embellishment Improvement discourse defined itself in opposition to the perceived extremism of revolutionary politics and literary writing seeking but failing to exemplify how both political discontent and unhappiness could be offset by a strict practicality and prosaic realism This book demonstrates how improvement reveals itself to be a literary discourse enmeshed in the very rhetorical abyss it sought to escape In addition the proudly liberal rhetoric of improvement is shown to be at one with the imperial discourse it worked to displace Helen O Connell argues that improvement discourse is embedded in the literary and cultural mainstream of modern Ireland and has hindered the development of intellectual and political debate throughout this period These issues are examined in chapters exploring the career of William Carleton peasant orality educational provision in the post Union period the Irish language secret society violence Young Ireland nationalism and the Irish Revival

Literacy and Orality in Eighteenth-Century Irish Song Julie Henigan, 2015-10-06 Focusing on several distinct genres of eighteenth century Irish song Henigan demonstrates in each case that the interaction between the elite and vernacular the written and oral is pervasive and characteristic of the Irish song tradition to the present day The Spaces of Irish Drama

H. Lojek, 2011-10-03 Lojek provides extensive analysis of space in plays by living Irish playwrights applying practical understandings of staging and the insights of geographers and spatial theorists to drama in an era increasingly aware of space

The Schooling of Girls in Britain and Ireland, 1800- 1900 Jane McDermid, 2013-03-07 This book compares the formal education of the majority of girls in Britain and Ireland in the nineteenth century Previous books about Britain invariably focus on England and such British studies tend not to include Ireland despite its incorporation into the Union in 1801 The Schooling of Girls in Britain and Ireland 1800 1900 presents a comparative synthesis of the schooling of working and middle class girls in the Victorian period with the emphasis on the interaction of gender social class religion and nationality across the UK It reveals similarities as well as differences between both the social classes and the constituent parts of the Union including strikingly similar concerns about whether working class girls could fulfill their domestic responsibilities What they had in common with middle class girls was that they were to be educated for the good of others This study shows how middle class women used educational reform to carve a public role for themselves on the basis of a domesticated life for their lower class sisters confirming that Victorian feminism was both empowering and constraining by reinforcing conventional gender stereotypes

The Educational Systems of Great Britain and Ireland Sir Graham Balfour,1898

A History of Ireland for Parochial Schools Anna Marie Nolan,1905 Ireland in 1868, the Battle-field for English Party Strife Gerald Fitzgibbon,1868 **The Oxford History of British and Irish Catholicism, Volume III** James Edward Kelly,Liam Chambers,John David McCafferty,2023 The third volume of The Oxford History of British and Irish Catholicism examines the period from the defeat of the Jacobite army at the battle of Culloden in 1746 to the enactment of Catholic emancipation in 1829 The first part of the volume offers a chronological overview tracing the decline of Jacobitism the easing of penal legislation which targeted Catholics the complex impact of the French Revolution the debates about the place of Catholics in the post Union state and following the mass mobilisation of Irish Catholics the passage of emancipation The second part of the volume shows that this political history can only be properly understood with reference to the broader transformations that occurred in the later eighteenth and early nineteenth centuries The period witnessed the expansion of Catholic infrastructure pastoral structures chapel building elementary education and finances and changes in Catholic practice for example in liturgy and devotion The growing infrastructure and more public profession of Catholicism occurred in a society where anti Catholicism remained a force but the volume also addresses the accommodations and interactions with non Catholics that attended daily life Crucially the transformations of this period were international as well as national The volume examines the British and Irish convents colleges friaries and monasteries on the continent especially during the events of the 1790s when many institutions closed and successor or new ones emerged at home The international dimensions

of British and Irish Catholicism extended beyond Europe too as the British Empire expanded globally and attention is given to the involvement of British and Irish Catholics in imperial expansion This volume addresses the literary intellectual and cultural expressions of Catholicism in Britain and Ireland Catholics produced a rich literature in English Irish Scots Gaelic and Welsh although the volume shows the disparities in provision They also engaged with and participated in the Catholic Enlightenment particularly as they grappled with the challenges of accommodation to a Protestant constitution This also had consequences for the public expression of Catholicism and the volume concludes by exploring the shifting expression of belief through music and material culture
