The Higher Laws Origins Of Modern Constitutional Law:

Higher Laws Chester James Antieau, 1994 *The Higher Laws* Chester James Antieau, 1994 *Searching the Law, 3d Edition* Frank Bae, Edward Bander, Francis Doyle, Joel Fishman, Paul Richert, 2021-12-13 **The Constitutional and Legal Development of the Chinese Presidency** Zhang Runhua, 2014-11-05 This book investigates the legal and political evolution of Chinese presidency from the period of its forerunner in the 1930s its establishment in 1954 to its abolition in 1975 and its restoration in 1982 and discovers that the presidency has evolved from a traditional Chinese title into a political position and then a state institution that has the constitutional appearance of a Western style semi presidency However politically it has functioned in a Stalinist party state with Chinese characteristics whose candidates have been produced according to the CCP s step by step succession rules designated by the party leaders Real political decision making power has not only been limited by these succession rules but also by the president s role and status within the CCP s collective supreme body The author weaves the themes of Chinese politics and law together and explores not only the political implications of those constitutional provisions and amendments regarding this office but also the constitutional significance of the CCP s major political practices such as Mao Zedong s power of last say his idea of two fronts his controversial abolition of the chairmanship Deng Xiaoping s idea of the nucleus of leadership and diplomacy of the head of state by Chinese presidents thus illuminating how law has been made in those unpredictable political environments and how politics has been defined by law The author concludes that the office of president is the key to understanding how power in China derives first from the CCP second from the military and third from the government loosely prescribed by laws Even more important the millennia old Confucian concept of the charismatic leader is alive and well While all eyes are on the new incumbent his predecessors have loomed large and continue to exert significant influence on him Underlining decades of constitutional evolution and shifting political dynamics have been the changing foreign influences and local demands on China With so many variables at play the office of the president will certainly continue to evolve **Political, Economic and Legal Effects of Artificial Intelligence** Georgios I. Zekos, 2022-03-07 This book presents a comprehensive analysis of the alterations and problems caused by new technologies in all fields of politics It further examines the impact of artificial intelligence AI on the nexus between politics economics and law The book raises and answers several important questions What is the role of AI in politics Are people prepared for the challenges presented by technical developments How will AI affect future politics and human society How can politics and law deal with AI s disruptive technologies What impact will AI and technology have on law How can efficient cooperation between human beings and AI be shaped Can artificial intelligence automate public decision making Topics discussed in the book include but are not limited to digital governance public administration digital economy corruption democracy and voting legal singularity separation of power constitutional rights GDPR in politics AI personhood digital politics cyberspace sovereignty cyberspace transactions and human rights This book is a must read for

scholars and students of political science law and economics as well as policy makers and practitioners interested in a better understanding of political legal and economic aspects and issues of AI

Religion, Law and Tradition Andrew Huxley, 2012-10-12 This book brings together two scholarly traditions experts in Roman Jewish and Islamic law an area where scholars tend to be familiar with work in each area and experts in the legal traditions of South and East Asia which have tended to be less interdisciplinary The resulting mix produces new ways of looking at comparative law and legal history from a global perspective and these essays contribute both to our understanding of comparative religion as well as comparative law

A Modern History John Lord, 1857

Law Books Published, 1994

The Idea of Human Dignity in Korea Hyung-Kon Kim, 2007 This study explores the idea of human dignity in the Human Dignity Clause stipulated in the Constitution of South Korea maintaining that to indigenize the imported ideas of human dignity in Korean society the idea must not only be translated into terms resonant with Korean culture but must also be implemented in the institutions of Korean society

A Cultural History of Law in the Early Modern Age Peter Goodrich, 2021-03-11 Opened up by the revival of Classical thought but riven by the violence of the Reformation and Counter Reformation the terrain of Early Modern law was constantly shifting The age of expansion saw unparalleled degrees of internal and external exploration and colonization accompanied by the advance of science and the growing power of knowledge A Cultural History of Law in the Early Modern Age covering the period from 1500 to 1680 explores the war of jurisdictions and the slow and contested emergence of national legal traditions in continental Europe and in Britannia Most particularly the chapters examine the European quality of the Western legal traditions and seek to link the political project of Anglican common law the *mos britannicus* to its classical European language and context Drawing upon a wealth of textual and visual sources A Cultural History of Law in the Early Modern Age presents essays that examine key cultural case studies of the period on the themes of justice constitution codes agreements arguments property and possession wrongs and the legal profession

A Modern History, from the time of Luther to the fall of Napoleon. For the use of schools and colleges John LORD (LL.D.), 1849

A History of the Hungarian Constitution Ferenc Hörcher, Thomas Lorman, 2018-12-13 The new Hungarian Basic Law which was ratified on 1 January 2012 provoked domestic and international controversy Of particular concern was the constitutional text s explicit claim that it was situated within a reinvigorated Hungarian legal tradition that had allegedly developed over centuries before its violent interruption during World War II by German invaders and later by Soviet occupation To explore the context and validity of this claim and the legal traditions which have informed the stormy centuries of Hungary s constitutional development this book brings together a group of leading historians political scientists and legal scholars to produce a comprehensive history

of Hungarian constitutional thought Ranging in scope from an overview of Hungarian medieval jurisprudence to an assessment of the various criticisms levelled at the new Hungarian Basic Law of 2012 contributors assess the constitutions their impacts and their legacies as well as the social and cultural contexts within which they were drafted The historical analysis is accompanied by a selection of original source materials many translated here for the first time This is the only book in English on the subject and is essential reading for all those interested in Hungary's history political culture and constitution

Law Books in Print: Subject index Nicholas Triffin, 1994 **A Modern History, from the Time of Luther to the Fall of Napoleon** John Lord, 1849 The Arc of Due Process in American Constitutional Law E. Thomas Sullivan, Toni M. Massaro, 2013-03-27

Topics such as military tribunals same sex marriage informative privacy reproductive rights affirmative action and states rights fill the landscape of contemporary legal debate and media discussion and they all fall under the umbrella of the Due Process Clauses of the United States Constitution However what is not always fully understood is the constitutional basis of these rights or the exact list of due process rights as they have evolved over time through judicial interpretation In The Arc of Due Process in American Constitutional Law Sullivan and Massaro describe the intricate history of what are currently considered due process rights and maintain that modern constitutional theory and practice must adhere to it The authors focus on the origins and contemporary uses of due process principles in American constitutional law while offering an overarching description of the factors or normative concepts that allow courts to invalidate a government action on the grounds of due process They also analyze judicial interpretations and expressions as a key manner and perhaps the most powerful source of how due process has taken form in the United States In the process of charting this arc the authors describe the judicial analysis of rights within each category applying an illustrative list and identify several fundamental norms that span these disparate threads of due process and the most salient principles that animate due process doctrine

As recognized, adventure as capably as experience nearly lesson, amusement, as competently as concurrence can be gotten by just checking out a book **The Higher Laws Origins Of Modern Constitutional Law** as a consequence it is not directly done, you could endure even more roughly this life, nearly the world.

We come up with the money for you this proper as competently as easy pretentiousness to get those all. We offer The Higher Laws Origins Of Modern Constitutional Law and numerous books collections from fictions to scientific research in any way. in the middle of them is this The Higher Laws Origins Of Modern Constitutional Law that can be your partner.
