The Story of Music Howard Goodall, 2021-11-15 Why did prehistoric people start making music What does every postwar pop song have in common A masterful tour of music through the ages Booklist starred review Music is an intrinsic part of everyday life and yet the history of its development from single notes to multi layered orchestration can seem bewilderingly specialized and complex In his dynamic tour through 40 000 years of music from prehistoric instruments to modern day pop Howard Goodall does away with stuffy biographies unhelpful labels and tired terminology Instead he leads us through the story of music as it happened idea by idea so that each musical innovation harmony notation sung theater the orchestra dance music recording broadcasting strikes us with its original force He focuses on what changed when and why picking out the discoveries that revolutionized man made sound and bringing to life musical visionaries from the little known P rotin to the colossus of Wagner Along the way he also gives refreshingly clear descriptions of what music is and how it works what scales are all about why some chords sound discordant and what all post war pop songs have in common The story of music is the story of our urge to invent connect rebel and entertain Howard Goodall s beautifully clear and compelling account is both a hymn to human endeavor and a groundbreaking map of our musical journey
