The Random House Library of Painting and Sculpture David Piper,1981      **The History of Art** David Piper,Stuart B. Flexner,1981      **Historical Abstracts** ,1999      **American Studies** Jack Salzman,1986-08-29 This is an annotated bibliography of 20th century books through 1983 and is a reworking of American Studies An Annotated Bibliography of Works on the Civilization of the United States published in 1982 Seeking to provide foreign nationals with a comprehensive and authoritative list of sources of information concerning America it focuses on books that have an important cultural framework and does not include those which are primarily theoretical or methodological It is organized in 11 sections anthropology and folklore art and architecture history literature music political science popular culture psychology religion science technology medicine and sociology Each section contains a preface introducing the reader to basic bibliographic resources in that discipline and paragraph length non evaluative annotations Includes author title and subject indexes ISBN 0 521 32555 2 set 150 00      Modern Jewish Art Ori Soltes,2019-01-07 In Modern Jewish Art Definitions Problems and Opportunities Ori Z Soltes considers both the emerging and evolving discussion on and the expanding array of practitioners of Jewish art in the past two hundred years He notes the developing problem of how to define Judaism in the 19th century as a religion a culture a race a nation a people and thus the complications for placing Jewish art under the extended umbrella of religion and the arts The fluidity with which one must engage the subject is reflected in the broadening conceptual and visual vocabulary the extended range of subject foci and media and the increasingly rich analytical approaches to the subject that have surfaced particularly in the past fifty years Well known and little known artists are included in a far ranging discussion of painting sculpture photography video installations ceremonial objects and works that blur the boundaries between categories      **Journal of Indian Art and Industry** ,1916      Containing Nationalism Michael Hechter,2000-02-24 Nationalism has become the most prevalent source of political conflict and violence in the world Scholarship has provided scant guidance about the prospects of containing the dark side of nationalism its widely publicized excesses of violence such as ethnic cleansing and genocide Departing from the usual practice of considering only a few examples of nationalism drawn from a limited geographical and historical canvas this book is based on fundamental theoretical ideas about the formation and solidarity of groups Containing Nationalism offers a unified explanation of the dynamics of nationalism across the broad sweep of time and space Among other things it explains why nationalism is supported by specific forms of inequality between cultural groups and why it is inclusive at some times and exclusive at others Nationalism is the attempt of culturally distinct peoples to attain political self determination Self determination was generally afforded by traditional states which employed a form of governance based on indirect rule After the late 18th century the rise of the modern state led to a new form of governance characterized by direct rule Containing Nationalism argues that the impetus for the most common type of nationalism arises from the imposition of direct rule in culturally heterogeneous societies Direct rule stimulates national

identity by making cultural distinctions more salient for individuals life chances At the same time it reduces the resources of local elites giving them a motive to mobilize nationalist opposition to central authorities All told these effects heighten the demand for sovereignty The book suggests that political institutions that reintroduce indirect rule offer the leaders of modern countries the best available means of containing nationalist violence within their borders
