Baldwin,2015-07-11 Excerpt from Physic and Physicians The Annual Address Delivered Before the Alabama State Medical Association at the Capitol December 10 1849 Gentlemen of the Association and Fellow Citizens Standing here for the first time in my life a public speaker I need not tell you the hour is one peculiarly embarrassing to me Philosophers have numbered novelty among the highest pleasures of the imagination It may be so to the disinterested speaker but to me the singularity of my present position is exceedingly painful from the ardent desire I feel to give interest and impressiveness to this occasion Leaving however any remarks personal to myself I pass immediately to the theme which I have selected for a brief discussion About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Disease and Distinctiveness in the American South** Todd L. Savitt,James Harvey Young,1991 This book looks at disease entities yellow fever hookworm pellagra especially associated with the American South and wrestles with the relation of diseases to an issue of perennial concern to southern historians that of southern distinctiveness **Tinsley Harrison, M.D.** James Pittman,2014-11-26 Tinsley Harrison doctor teacher researcher medical school leader is one of the most important medical figures of the 20th century He edited the first five editions of Harrison s Principles of Internal Medicine regarded as a quintessential medical text and perhaps the best selling medical textbook of all time He traveled the world in his capacity as a teaching doctor made significant contributions to scholarship and served as the dean medical chairman at four medical schools He is a titan of the field an enormous presence central to the narrative of American medicine Author Dr James Pittman knew Harrison well studying and teaching with him from the 1950s until Harrison s death Pittman spent six years interviewing Harrison near the end of Harrison s life and these lengthy interviews as well as interviews with his colleagues family and friends form the bulk of the scholarship of this compulsively readable book Pittman brings his own medical knowledge to the fore as well as his

personal friendship with the subject in this beautifully written character study of one of science's great but not well known men Harrison lived a long exciting life and in these pages readers will get a glimpse of the historical forces that shaped and in turn were shaped by this legendary doctor

History of Medicine Alexander Wilder, 1901 **Doctoring the South** Steven M. Stowe, 2011-01-20 Offering a new perspective on medical progress in the nineteenth century Steven M Stowe provides an in depth study of the midcentury culture of everyday medicine in the South Reading deeply in the personal letters daybooks diaries bedside notes and published writings of doctors Stowe illuminates an entire world of sickness and remedy suffering and hope and the deep ties between medicine and regional culture In a distinct American region where climate race and slavery and assumptions about southernness profoundly shaped illness and healing in the lives of ordinary people Stowe argues that southern doctors inhabited a world of skills medicines and ideas about sickness that allowed them to play moral as well as practical roles in their communities Looking closely at medical education bedside encounters and medicine's larger social aims he describes a country orthodoxy of local social medical practice that highly valued the art of medicine While not modern in the sense of laboratory science a century later this country orthodoxy was in its own way modern Stowe argues providing a style of caregiving deeply rooted in individual experience moral values and a consciousness of place and time
