The Diesel That Did It Wallace W. Abbey, 2022-11-22 The Diesel That Did It tells the story of the legendary diesel electric locomotive the FT As war loomed in 1939 American railroads were on the precipice of railroad transformation In an obscure factory in La Grange Illinois a group of gifted engineers and designers were planning a revolution that would shake railroading to its foundations and eventually put the steam locomotive out of business Their creation the FT was a diesel electric semi streamlined freight engine The FT would establish a new standard for reliability flexibility and cost but its arrival unsettled many railroad employees and gave fresh ammunition to their labor unions who believed that it threatened a century old culture Wallace W Abbey s The Diesel That Did It is the story of a revolution He explores how EMC and its successor Electro Motive Division of General Motors conceived the FT and how it ultimately emerged as the dominant locomotive power plant for 20 years However for Abbey the history of the Santa Fe Railway and the FT go hand in hand The Diesel That Did It also offers a penetrating look at how the great American railroad at the height of its Super Chief glamor threw its conservative mechanical traditions aside to bet big on the diesel Showcasing more than 140 exquisite photographs by Abbey and other noted photographers The Diesel That Did It is a captivating story not to be missed by railroaders and railfans

**The History of Kansas City, Together with a Sketch of the Commercial Resources of the Country with which it is Surrounded** William H. Miller, 2024-04-30 Reprint of the original first published in 1881     Railroads and Depots of Orange County Rob Richardson, 2010

Railroads have been a part of Orange County for over 130 years. The great names of American railroading, Atchafalaya, Topeka and Santa Fe, Southern Pacific and Union Pacific, were firmly planted here by the early 1920s and linked with the largest interurban rail system in the United States, the famed Pacific Electric Railway. Thousands of people passed through Orange County's depots during the 1940s as they came to serve at the many military bases located here during World War II. The names have since changed and yet the county's rail scene remains as dynamic as ever with Amtrak, Metrolink and amusement park railroads joining the Burlington Northern, Santa Fe and Union Pacific. Railroad depots, new and old, are located across Orange County and continue on both as vital parts of history and the future of transportation for America's fifth most populated county.
