The History Of The Cholera In Exeter In 183:

The History of the Cholera in Exeter in 1832 Thomas Shapter, 1849 Shapter's history of Exeter's 1832 cholera epidemic part of the worldwide cholera pandemic of 1829-51 includes his Map of Exeter in 1832 shewing the localities where the deaths caused by pestilential cholera occurred in the years 1832 1833 1834 one of the first examples of an epidemic spot map Shapter's text and map presented a topography of disease in which the incidence of cholera over three years was considered within the city of Exeter Shapter recorded both mortality and morbidity across the outbreak in a chart of epidemic occurrence He then used official mortality reports that included decedents street addresses to locate cholera mortality in a map of the city A mortality ratio based on parish population was recorded in the map legend This amounted to a spatial description of mortality data mapped clusters of cholera appearing to occur more frequently in parishes along the low lying riverbanks of the city than at higher altitude away from the river where air was purer Koch Disease Maps Epidemics on the Ground p 156 Shapter's map which did not mark wells or pump locations appeared to confirm his theory that cholera was a miasmatic disease caused by bad air John Snow whose *On the Pathology and Mode of Communication of the Cholera* appeared the same year as Shapter's work interpreted Shapter's data differently using it to help demonstrate the link between disease outbreaks and contaminated water sources Antiquarian bookseller's description 2017 **Shoddy** Hanna Rose Shell, 2020-09-03 A remarkable story that moves from nineteenth century England to today's global ecological concerns around fast fashion Times Literary Supplement Starting in the early 1800s shoddy was the name given to a new material made from reclaimed wool and to one of the earliest forms of industrial recycling Old rags and leftover fabric clippings were ground to bits by a machine known as the devil and then reused Usually undisclosed shoddy also known as reworked wool became suit jackets army blankets mattress stuffing and much more Shoddy is the afterlife of rags And Shoddy the book reveals hidden worlds of textile intrigue Hanna Rose Shell takes us on a journey from Haiti to the shoddy towns of West Yorkshire in England to the United States back in time to the British cholera epidemics and the American Civil War and into agricultural fields textile labs and rag shredding factories The narrative is both literary and historical drawing on an extraordinary range of sources from court cases to military uniforms mattress labels to medical textbooks political cartoons to high art and bringing richly drawn characters and unexpected objects to life Along the way shoddy becomes equally an evocative object and a portal into another world Shell exposes an interwoven tale of industrial espionage political infighting scientific inquiry ethnic prejudices and war profiteering and shows how over the past century the shredding devil has moved from wool to synthetics such as nylon stockings and Kevlar The use of the term virgin wool emerged as an effort by the wool industry to counter shoddy's appeal to make shoddy seem well shoddy Over time the word would become a synonym for inferior and describe a host of personal ethical commercial and societal failings And yet there was always within shoddy the alluring concept of regeneration of what we today think of as conscious clothing eco fashion or sustainable

textiles In a brilliantly quixotic scholarly rich fabulously illustrated trek Shell guides readers through the history of the reprocessing of used clothing and textiles reflecting on human ornament fears of contagion think of the associations of shoddy versus virgin wool and the evolution of a vast industry Harvard Magazine The fascinating story of how a respectable textile product became synonymous with all things inferior a fun ride Washington Independent Review of Books *A Short History of the Worshipful Company of Weavers, Fullers and Shearmen of the City and County of Exeter* Beatrix F.
