Roozen,James R. Nieman,2005-05-02 Since colonial days religious

work in American has happened through denominations At least since the start of the twentieth century these religious bodies consisted of a fairly tight intra denominationally connected system of congregations regional judicatories and national offices This system was the product of more than two centuries of consolidation among Americanbs historic immigrant and indigenous churches The vast majority of these structures are still in place retain some semblance of internal coherence have considerable social and religious significance and will be with us for the foreseeable future Nevertheless the stresses upon them today clearly indicate that they are entering an unsettled period of transition The purpose of this book is to examine the national structures of eight diverse Protestant denominations as a part of that shift The frame of this study is the relationship between the theological and organizational nature of national denominational structures as they adapt to the changing situation of the twenty first century **Confessing the Triune God** Daniel Castelo,2014-07-21 At the heart of Christian

witness is the confession of the triune God Confessing the Triune God seeks to extend a conversation on Christianity s first article by way of locating Trinitarianism in the life of the worshipping faithful It does so through an ongoing dialectic between broad and particular confessional lines Its breadth is constituted by an ongoing assessment of ecumenical consensus and scholarly debates related to Trinitarianism its repeated framing stems from and returns to the Wesleyan and Methodist family of traditions In this way Christian commitments regarding the Trinity can be depicted for their wide appeal as well as their particular logic within a specific worshipping community The work seeks to guide readers through a process of growing awareness of how the dogma of the Trinity is central to all that Christians say do and hope to be **A Living Tradition** Dr.
