Daily and Nocturnal Hemodialysis R. M. Lindsay,U. Buoncristiani,R. S. Lockridge,A. Pierratos,G. O. Ting,Claudio Ronco,2004-10 As the frequency of hemodialysis sessions has always been a concern it is not astonishing that interest in quotidian daily hemodialysis appears to be growing worldwide The main reasons for more frequent dialysis are to maximize well being and minimize both intra and interdialytic symptoms as well as to improve the treatment of patients with severe underlying medical problems particularly cardiovascular disease Moreover

studies also indicate overall potential cost savings as compared with current conventional hemodialysis There are two options available namely short daily and long nightly treatments The main difference centers on the ability of the nightly regimen to remove greater amounts of phosphate and beta 2 microglobulin Even so there is no doubt that both treatments are highly preferable to conventional three times weekly dialysis Further issues which are discussed include the requirements necessary to run dialysis programs vascular access requirements and the management of complications and risks such as calcium and phosphorus control This is the first publication devoted solely to daily hemodialysis therapies Concentrating on clinical and technical issues it is an important contribution to the practical development of daily hemodialysis and is highly recommended to nephrologists nurses managers of renal programs and others involved in renal care **Arthur's**

interdisciplinary study of woman as prophet shows that in these troubling times ordinary women especially Christian women need to function as prophets by proclaiming in word and deed the indispensability of lovingly seeking the welfare of others More specifically social science shows that the person centered love prophesied by women prophets is able to meet interpersonal challenges within the home and world while philosophy and theology establish that women are able to excel as

prophets due to the virtuous dispositions inculcated by femininity the choice to be caring a God centered spirituality and a pro life humanitarian personalist feminism that welcomes male collaborators Facilitating the ability of Christian women to prophesy love are Baptismal graces Thomistic virtues and a much needed prophetic Marian ecclesiology based on what John Paul II calls the prophetism of femininity These interdisciplinary findings provide an essential resource for educators and students of humanity the theology of women and evangelization These findings emerge first from an investigation into the cognitive and ontological underpinnings of what John Paul II called the feminine genius A second set of findings emerges from exploring the prophetic dimensions of the feminine genius secular feminism s need to adopt the insights of Christianity and the ability of femininity s prophetism to recast both femininity and feminism as Marian prophecies A third set of findings arises from analyzing the spirituality of women prophets within the Christian tradition by considering the conditions necessary for prophesying explicating requisite Thomistic virtues and delving into the spirituality of Hildegard Catherine of Siena Julian of Norwich and Teresa of Avila A fourth set of findings arises from innovative studies of polarization secularization lust romantic love the conditions whereby mothers with careers can flourish and the ability of nuns to combat racism in a small Midwestern town Overall these interdisciplinary investigations explicate the theology of women and show that women who prophesy love either in the order of grace or nature can help heal lives families and culture
