The Honorable Elders Revisited Erdman Ballagh Palmore, Daisaku Maeda, 1985 **Refuge of the Honored** Yasuhito Kinoshita, Christie W. Kiefer, 2023-09-01 Faced with the decline of the traditional family and the explosive growth of the over 65 population the Japanese are looking for new ways to care for their elders This timely study documents the birth of a major social phenomenon in Japan the planned retirement community In the mid 1980s Yasuhito Kinoshita spent a year living in Japan s first such community Fuji no Sato His collaboration with Christie W Kiefer a cultural gerontologist is the first detailed study of a retirement community in a non Western culture Fuji no Sato is a social community with no visible traditions Kinoshita and Kiefer show that its residents preference for long established relationships creates the need for the invention of relationships that have no precedent in Japanese society This book reveals much about Japanese culture and about the graying of society that plagues the newly industrialized countries of Asia Its lessons about sensitivity to the elderly s values and the need for clear communication have important applications in other cultures as well Faced with the decline of the traditional family and the explosive growth of the over 65 population the Japanese are looking for new ways to care for their elders This timely study documents the birth of a major social phenomenon in Japan the planned re *Aging in East and West* Dr. Vern L. Bengtson, PhD, Kyong-Dong Kim, PhD, George Myers, PhD, Ki-Soo Eun, PhD, 2000-09-20 Widely recognized experts present the first comparative analysis of recent developments among six Eastern and Western nations concerning population aging and its consequences Chapters focus on demographic trends sociocultural contexts and policy implications Nations selected as case studies include the People s Republic of China the Republic of Korea Japan Germany the United Kingdom and the United States The editors and contributors call attention to the varied trajectories and effects of population aging in culturally diverse societies that are often at different stages or on different paths of economic development Such analyses bring into sharper focus those conditions that are unique or similar and emphasize the ways in which cultural stereotypes of aging and the elderly complicate our understanding of the effects of world wide population aging **On the Margins of Japanese Society** Carolyn S. Stevens, 2003-09-02 The popular perception of Japanese society is that it possesses a homogeneity and cultural conformity unlike anything to be found in the West In fact Japan has its own underclass living outside the mainstream in economic circumstances that are radically different to the more usual perception of a wealthy and successful society Carolyn S Stevens has produced a new study that intimately explores the lives of Japan s social outcasts as well as those volunteers who seek to help them and as a consequence become socially marginalized themselves *The Handbook of Life-Span Development, Volume 2*, 2010-12-14 In the past fifty years scholars of human development have been moving from studying change in humans within sharply defined periods to seeing many more of these phenomenon as more profitably studied over time and in relation to other processes The Handbook of Life Span Development Volume 2 Social and Emotional Development presents the study of human development conducted by the best scholars in the 21st century Social

workers counselors and public health workers will receive coverage of the social and emotional aspects of human change across the lifespan

The East Asian Welfare Model Roger Goodman, Huck-Ju Kwon, Gordon White, 2006-12-05 For many politicians and observers in the West East Asia has provided a broad range of positive images of the state's intervention in society Neoliberals grew excited by popular welfare systems that cost little in expenditure and bureaucracy Social democrats thought they had found a model for social cohesion and equality In fact the reality in East Asia is rather different from these stereotypes In this book six specialists of six different societies in East Asia Japan South Korea Taiwan China Singapore and Hong Kong examine the role of the state in their welfare systems There are detailed case studies on pensions health insurance housing and personal social services They provide an up to date detailed account of how these systems have developed as well as an examination of the question of whether these welfare regimes are the natural outgrowth of cultural traditions or the result of economic and political conditions This broad ranging and detailed study will be welcomed by both students and policy makers as the first proper academic study in English to have such a wide coverage of this topic Its clarity and authority should come as a welcome alternative to the more common misconceptions about Asian society
