Case Studies and the Dissemination of Knowledge Joy Damousi, Birgit Lang, Katie Sutton, 2015-02-11 The case study has proved of enduring interest to all Western societies particularly in relation to questions of subjectivity and the sexed self This volume interrogates how case studies have been used by doctors lawyers psychoanalysts and writers to communicate their findings both within the specialist circles of their academic disciplines and beyond to wider publics At the same time it questions how case studies have been taken up by a range of audiences to refute and dispute academic knowledge As such this book engages with case studies as sites of interdisciplinary negotiation transnational exchange and influence exploring the effects of forces such as war migration and internationalization *Case Studies and the Dissemination of Knowledge* challenges the limits of disciplinary based research in the humanities The cases examined serve as a means of passage between disciplines genres and publics from law to psychoanalysis and from auto biography to modernist fiction Its chapters scrutinize the case study in order to sharpen understanding of the genre s dynamic role in the construction and dissemination of knowledge within and across disciplinary temporal and national boundaries In doing so they position the case at the center of cultural and social understandings of the emergence of modern subjectivities *SPIN* , 1994-01 From the concert stage to the dressing room from the recording studio to the digital realm *SPIN* surveys the modern musical landscape and the culture around it with authoritative reporting provocative interviews and a discerning critical ear With dynamic photography bold graphic design and informed irreverence the pages of *SPIN* pulsate with the energy of today s most innovative sounds Whether covering what s new or what s next *SPIN* is your monthly VIP pass to all that rocks
