**The House by the Sea** May Sarton, 2014-07-22 The author and poet s graceful elegy about life love work and growing older The most moving and the most thoughtful of her journal memoirs The Plain Dealer Cleveland When May Sarton uprooted her life after fifteen years in the refurbished New Hampshire house with the garden she tended so lovingly she relied solely on instinct And something told her it was time to move on Accompanied by her wild cat Bramble and Tamas a Shetland shepherd puppy the first dog she ever owned Sarton embarked on the next chapter of her life The house she chose by the sea in the Maine village of York is completely isolated except during the summer months Surrounded by nothing but endless ocean woods and vast skies Sarton experiences a rare sense of peace She creates a new garden and fears that in this tranquil state she may never write again But in her solitude with its occasional interruptions for trips away and visits from friends she realizes that creativity is constantly renewing itself This journal offers fascinating insight into a remarkable woman and the work and friendships that form the twin pillars of her life This ebook features an extended biography of May Sarton

**The House Under the Sea** Max Pemberton, 1902 [The Women at Ocean's End](#) Faith Hogan, 2025-06-05 This is an absolute beauty of a book I loved everything about it the richness and depth of the characters the poignant intricately woven story and the beautiful descriptions of the house and island It is a book that will stay with me for a very long time Sally Page From the author of the ebook bestseller *The Bookshop Ladies* comes a brand new novel guaranteed to pull at your heartstrings as three women all with secrets waiting to be uncovered meet on a beautiful island off the Irish Coast Constance Macken in her ninth decade is looking back on a life filled with laughter and loss tragedy and triumph but knows it is time to right the wrongs from her past that have always haunted her Heather Banks arrives on the island to bury her mother Already adrift with her business sold and her divorce finalised this may be the perfect opportunity to change the course of her future Ros Stokes has managed to slip into the perfect job the perfect cottage and friends that feel like family However when the stitches of her life begin to unravel she must find a way to hold onto the things that have become most dear to her and let go of what holds her back Now in a faded art deco house near the ocean s end these women must come together to save the house they love and each other because they might have run from their troubles but only time will tell if they can overcome their past Another brilliant novel by one of my favourite authors prepare to get lost in this beautiful story masterfully told Amanda Prowse Readers LOVE *The Women at Ocean s End* Simply perfection 5 star NetGalley review A beautiful story which grabbed me right away this was like a breath of fresh air 5 star NetGalley review Intriguing and poignant charming and enthralling 5 star NetGalley review Faith Hogan is an auto buy author for me I ve loved everything she s written and this is no exception it may even be her best book yet 5 star NetGalley review A truly touching read for anyone who enjoys deeply

Ardu, M.A. Champ,1990-10-31 Today western nations consume annually only a small percentage of their resources from the sea despite the proclamation of Exclusive Economic Zones EEZ by many In contrast most Pacific Basin Countries obtain more than a quarter of their annual needs from the ocean Determination of greater rewards from the development of marine resources is markedly inhibited by the limited technical abilities available to locate and assess them Knowledge of Exclusive Economic Zone resources is schematic and generalised and a detailed understanding of the geology and processes relating to the economic use of the seafloor is both fragmentary and very basic Technology for mapping the mineral resources of continental shelves and ocean areas except in active offshore hydrocarbon provinces has been largely developed in pursuit of scientific objectives and competence to rapidly appraise economic potential is limited Similarly the capability to characterise and evaluate the other resources of the seas is rudimentary The development of ocean resources will become increasingly urgent as the growth of the world population and the depletion of land reserves combine to enhance demand Also increasing environmental constraints will limit the availability of traditional land based resources nevertheless new offshore development must proceed in a manner whereby the marine environment is not plundered but protected and conserved The challenge to develop ocean resources with responsible environmental stewardship will require greater leadership than the development of the technologies of exploitation Toxic Substances Control Act United States.
