US Saudi Arabia Diplomatic and Political Cooperation Handbook *Assessing the War on Terror* Charles Webel, Mark Tomass, 2017-02-17 This volume is a collection of articles that critically examine the efficacy ethics and impact of the War on Terror as it has evolved since 9 11 During the decade and a half of the Global War on Terror GWOT numerous books have considered the political psychosocial and economic impacts of terrorism However there has been little systematic effort to examine the effectiveness of the GWOT in achieving its goals Furthermore there is virtually nothing that presents a comparative analysis of the GWOT by the people most directly affected by it citizens and scholars from conflict zones in the Middle East There is therefore great need for a book that analyzes the strategies tactics and outcomes of the GWOT and that also presents facts and ideas that are missing or underrepresented in the dominant public narratives The contributions in this volume were chosen to specifically address this need In doing so it uniquely provides not only Western perspectives of the GWOT but also importantly includes perspectives from the Middle East and those most directly affected by it including contributions from scholars and policy makers Overall the contributions demonstrate how views differ based on geographical location and how views have changed during the course of the still evolving War on Terror The book will be of much interest to students and scholars of terrorism and counter terrorism foreign policy Middle Eastern politics security studies and IR as well as policy makers

The Greater Middle East and the Cold War Roby C. Barrett, 2007-05-25 At the height of the Cold War the US sought to maintain power and influence in the Greater Middle East the region from Morocco to India in the context of a growing threat from Russia and the decline of British imperialism This original and important study illuminates this tense period in international relations offering many new insights into the global situation of the 1950s and 1960s Roby Barrett casts fresh light on US foreign policy under Eisenhower and Kennedy illuminating the struggles of two American administrations to deal with massive social economic and political change in an area sharply divided by regional and Cold

War rivalries With a dramatic backdrop of revolutionary Arab nationalism Zionism indigenous Communism teetering colonial empires unstable traditional monarchies oil territorial disputes and the threat of Soviet domination of the region this book vividly highlights the fundamental similarities between the goals and application of foreign policy in the Eisenhower and Kennedy administrations as well as the impact of British influence on the process Drawing on extensive research in archives and document collections from Kansas to Canberra as well as numerous interviews with key policy makers and observers from both the Eisenhower and Kennedy administrations Roby Barrett explores the application of the Cold War containment policy through economic development and security assistance Within the broader context of the global Cold War struggle the Greater Middle East also held the potential as the flashpoint for nuclear war and Barrett analyses fully the implications of this for international relations In the process this book draws some unexpected conclusions arguing that Eisenhower s policies were ultimately more successful than Kennedy s and offers an important and revisionist contribution to our understanding of the Cold War and the Middle East

**The Politics of Truth Management in Saudi Arabia** Afshin Shahi, 2013-12-04 Exploring the management of truth in the Kingdom of Saudi Arabia this book aims to investigate the ways in which the official truth is constructed and institutionalised in the country The Politics of Truth Management in Saudi Arabia argues that there are two interrelated notions which articulate the ways in which truth is conceptualised in Islam One at macro level constitutes the trans historical foundational principles of the religion a set of engrained beliefs which establish the finality and oneness of Islam in relation to other competing narratives The other at a micro level takes place internally to find truth within the truth Unlike Islamic truth at the macro level which is entrenched the Islamic truth at the micro level refers to the various attempts by different agencies to claim to have found the truth within the truth Wahhabism which is the product of an eighteenth century revivalist movement is portrayed as the most authentic reading of Islam It is seen as the *raison d'être* for the prevailing political mechanism in the country and is introduced as an example of truth management at the micro level Arguing that truth is not born in a power vacuum and often its construction and institutionalisation signify domination in one way or another this book will be of interest to students of Religion Politics and Saudi Politics more specifically
