The Human Experience Of Time The Development Of Its Philosophic Meaning:

The Human Experience of Time Charles M. Sherover, 2001 First published in 1975 and still without equal *The Human Experience of Time* provides a thorough review of the concept of time in the Western philosophic tradition Encompassing a wide range of writings from the Book of Genesis and the classical thinkers to the work of such twentieth century philosophers as Collingwood and McKeon all with introductory essays by the editor this classic anthology offers a synoptic view of the changing philosophic notions of time *The Human Experience of Time* Charles M. Sherover, 1975-01-01

Millay at 100 Diane P. Freedman, 1995 In this newest addition to Sandra M Gilbert's *Ad Feminam Women and Literature* series Diane P Freedman brings together twelve essays by critics of poetry and women's writing for a critical reappraisal of the prolific work of Edna St Vincent Millay Though finding its occasion in the life of Millay the centennial of the writer's birth this volume refocuses attention on Millay's art by asking questions central to our present concerns What in the varied body of Millay's work speaks to us most forcefully today Which critical perspectives most illuminate her texts How might those approaches be challenged extended or reoriented In seeking the answers to such questions the volume's contributors illuminate the means by which Millay's early success has been slighted and misunderstood and examine issues of personality personae critical stature and formal experimentation in Millay's various genres lyric poetry the sonnet verse drama fiction and the personal letter In 1920 following the publication of *A Few Figs from Thistles* Millay was the It girl of American poetry But by the late 1930s her popularity waned as her critical reputation declined under the reign of high modernism and its critics In fact Millay like others of her generation had rejected modernist elitism in favor of public engagement using her powerful public voice to plead for an end to the Sacco Vanzetti trials as well as for U S entry into World War II Condemned for both her politicizing and her political poetry she was the first to admit that she and her poetry suffered in the service of public causes Grouped into four parts these essays focus on Millay's relation to modernism her revisionary perspectives on love her treatment of time and of the female body and her use of masquerade and impersonation in life and in art Throughout the essayists pose such questions as Where is Millay's place in the literary histories of modern writing and in our hearts How are we to value interpret and characterize the various forms and genres in which she wrote What is the cultural work Millay achieves and reflects How does she help us redefine modernism What do Millay's great gifts enable us to see about genre the social construction of gender the definition of modernism and the role of the poet Millay's considerable productivity the range and virtues of her forms and her experimentation clearly argue for a wide ranging reappraisal of her work *Queer and Deleuzian Temporalities* Rachel Loewen Walker, 2021-11-18 Rachel Loewen Walker's original study of Deleuze's theory of temporality advances a concept of the living present as a critical juncture through which novel meanings and activism take flight in relation to new feminist materialisms queer theory Indigenous studies and studies of climate Drawing on literature philosophy popular culture and community research Loewen Walker unsettles the fierce linearity of our stories particularly

as they uphold fixed systems of gender sexuality and identity Treading new ground for Deleuzian studies this book focuses on the non linearity of the living present to show that everything is within rather than outside of time Through this critical re evaluation which takes in climate change queer and trans politics and Indigenous sovereignty Queer and Deleuzian Temporalities thickens the present moment By opening up multiple pasts and multiple futures we are invited to act with a deepened level of accountability to all possible timelines

The Philosophical Roots of Loneliness and Intimacy Ben Lazare Mijuskovic,2021-12-13 Ben Lazare Mijuskovic has spent 40 years researching theories of consciousness in relation to human loneliness using an interdisciplinary and history of ideas approach In this book Mijuskovic combines Kant s theory of reflexive self consciousness with Husserl s transcendent principle of intentionality to describe the distinctive philosophical psychological and sociological roots of loneliness and intimacy He argues that loneliness is innate unavoidable and constituted by the structure of self consciousness itself

Un-Willing: An Inquiry into the Rise of Will s Power and an Attempt to Undo It Eva Brann,2014-10-07 Since ancient times philosophers have written about the will But the will is more than a philosophic and scholarly topic In our everyday speech what do we mean when we speak of the will Will words turn up everywhere in the English language We make wills We exert our willpower We are willful at times but merely willing at others Above all will is there a hundred times a day when we use the auxiliary verb will to express our intentions or expectations for the future or simply to indicate the future tense Yet it takes only a moment s reflection to see that there s a tremendous range of meaning here and so something to think about Moreover all of us have wondered now and then probably both as children and as adults whether we are really free and whether being free means being able to do what we want or being free of wants and desires or something else entirely That is we ve all wrestled with the issue of free will in our informal non scholarly ways Finally we ve probably all asked ourselves whether people who talk about will and willpower are all talking about the same thing or even talking sense These are all among the issues that Eva Brann puts at the center of Un Willing She takes the whole range of questions about the will that are implicit in our everyday lives and everyday thinking articulates them shows us how they have been dealt with within the philosophic tradition and contemporary scientific thought and then wrestles with them herself Eva Brann has a true aptitude for felicitous expression and one can feel through her prose the presence of a great and patient teacher

The Timescapes of John Fowles Harald William Fawkner,1984 This critical study explicates the complex and elusive fiction of John Fowles in terms of the tensions between time and timelessness The author introduces insights gained from recent scientific and interdisciplinary studies of

the apprehension of temporality and constructs a model for the hierarchy of levels of time in fiction **Philosophy, Humor, and the Human Condition** Lydia Amir, 2019-12-19 This book presents an original worldview Homo risibilis wherein self referential humor is proposed as the path leading from a tragic view of life to a liberating embrace of human ridicule Humor is presented as a conceptual tool for holding together contradictions and managing the unresolvable conflict of the human condition till Homo risibilis resolves the inherent tension without epistemological cost This original approach to the human condition allows us to effectively address life s ambiguities without losing sight of its tragic overtones and brings along far ranging personal and social benefits By defining the problem that other philosophies and many religions attempt to solve in terms we can all relate to Homo risibilis enables an understanding of the Other that surpasses mere tolerance Its egalitarian vision roots an ethic of compassion without requiring metaphysical or religious assumptions and liberates the individual for action on others behalf It offers a new model of rationality which effectively handles and eventually resolves the tension between oneself others and the world at large Amir s view of the human condition transcends the field of philosophy of humor An original worldview that fits the requirements of traditional philosophy Homo risibilis is especially apt to answer contemporary concerns It embodies the minimal consensus we need in order to live together and the active role philosophy should responsibly play in a global world Here developed for the first time in a complete way the Homo risibilis worldview is not only liberating in nature but also illuminates the shortcomings of other philosophies in their attempts to secure harmony in a disharmonious world for a disharmonious human being *Policymaking for a Good Society* F. Gregory Hayden, 2006-03-20 Society ecological systems and technological combinations are sets of ongoing processes that are organized as integrated systems and networks Consequently real world problems whether labeled social economic environmental or technical are a result of the ongoing processes that organize and coordinate integrated parts to make undesirable deliveries to each other Furthermore the processes are guided by numerous policies and concomitant rules regulations requirements and enforced behavioral patterns Therefore there is no reason to expect processes to change or problems to be solved without policy changes The processes are ongoing so changes in undesirable deliveries are dependent on changes in policies One premise of this book is that too often policy analysis is conducted with knowledge bases and tools that are not appropriate for the task of analyzing and understanding complex socioecological and sociotechnical systems leading to wasted resources policy failure and frustration The conjunction of the complexity of problem contexts and inappropriate policymaking that follows from insufficient analysis has left citizens frustrated and bewildered Citizens want problems solved yet they have lost faith in the ability of policymakers to implement solutions necessary to achieve a good society Another premise is that it is not necessary to continue down that destructive path In response the purpose of this book briefly stated is to explain how to model analyze and make policy for the social fabric in which society s problems are enmeshed **Philosophy and Temporality from Kant to Critical Theory** Espen Hammer, 2011-03-31 This book is a

critical analysis of how key philosophers in the European tradition have responded to the emergence of a modern conception of temporality Espen Hammer suggests that it is a feature of Western modernity that time has been forcibly separated from the natural cycles and processes with which it used to be associated In a discussion that ranges over Kant Hegel Schopenhauer Nietzsche Heidegger and Adorno he examines the forms of dissatisfaction which result from this together with narrative modes of configuring time the relationship between agency and temporality and possible challenges to the modern world s linear and homogenous experience of time His study is a rich exploration of an enduring philosophical theme the role of temporality in shaping and reshaping modern human affairs **Norms of Rhetorical Culture** Thomas B.

Farrell,1993-01-01 Rhetoric is widely regarded as a kind of antithesis to reason Here Farrell restores rhetoric as an art of practical reason and enlightened civic participation grounding it in its classical tradition particularly in the rhetoric of Aristotle **The Study of Time IV** J. Maness,2004-06-23 Maness asks us to tie up our sneakers for we are going to have some fun as we hike into the Grand Canyon of Love Love is the treasure of life It is Love all the way Nothing else really matters outside of Love Best of all our Love will only get better in heaven The treasured ability to have loving relationships is Gods gift to us in our Imago Deithe image of God we all share Likewise what we know of Love this side of heaven is but a dusty image of what God experiences I want to get personally involved says Maness Can we have a free will relationship with anyone even God if all of what we do and think is settled I dont think so Love is greater than that and I shall prove that and that is indeed a Grand Canyon Manes brings some of the brain splitting complexities of this to light with good humor introduces dynamic foreknowledge and challenges Classical Theisms avoidance of Love And he

Time's Visible Surface Mike Gubser, 2006 Expands our understanding of Alois Riegl beyond his role as an art historian to a pivotal figure in cultural theory at large while placing his interest in history and time within the intellectual world of fin de siècle Vienna Alois Riegl's art history has influenced thinkers as diverse as Erwin Panofsky Georg Lukacs Walter Benjamin Paul Feyerabend Gilles Deleuze and Félix Guattari One of the founders of the modern discipline of art history Riegl is best known for his theories of representation Yet his inquiries into the role of temporality in artistic production including his argument that art conveys a culture's consciousness of time show him to be a more wide ranging and influential commentator on historiographical issues than has been previously acknowledged In *Time's Visible Surface* Michael Gubser presents Riegl's work as a sustained examination of the categories of temporality and history in art Supported by a rich exploration of Riegl's writings Gubser argues that Riegl viewed artworks as registering historical time visibly in artistic forms Gubser's discussion of Riegl's academic milieu also challenges the widespread belief that Austrian modernism adopted a self consciously ahistorical worldview By analyzing the works of Riegl's professors and colleagues at the University of Vienna Gubser shows that Riegl's interest in temporality from his early articles on calendar art through later volumes on the Roman art industry and Dutch portraiture fit into a broad discourse on time history and empiricism that engaged Viennese thinkers such as the philosopher Franz Brentano the historian Theodor von Sickel and the art historian Franz Wickhoff By expanding our understanding of Riegl and his intellectual context *Time's Visible Surface* demonstrates that Riegl is a pivotal figure in cultural theory and that fin de siècle Vienna holds continued relevance for today's cultural and philosophical debates

Theories of Consciousness and the Problem of Evil in the History of Ideas Ben Lazare Mijuskovic, 2023-04-08 In this book Ben Lazare Mijuskovic uses both an interdisciplinary and History of Ideas approach to discuss four forms of intertwined theories of human consciousness and reflexive self consciousness Plato Augustine Descartes Leibniz Kant and Hegel Schopenhauer's subconscious irrational Will Brentano and Husserl's transcendent intentionality and Freud's dynamic ego Mijuskovic explores these theories within the context of psychological issues where the discussion is undergirded by the conflict between loneliness and intimacy He also explores them in the context of ethics where the dynamic is between the values of good and evil The book historically traces these issues in both a personal as well

as a political framework
