Committee on Banking and Currency, 1931 *Bushville* Jerry Kelly, 2001-06-15 From Bushville The game is a fine construct Its trace through anyone s life can range from a youthful diversion to a full blown career a tender small fingered grasp to a deep muscular understanding It provides a focus and a way to express the physical self in a physical world I ve played every moment of every game in my life as an amateur in the best sense of that word doing something I love just for the love of it The roots of that soulful effort run as deep as my earliest memories measuring them And possibly yours likewise To play baseball is to become part of the game One need not be a megabuck star to live baseball as a participant to figure into its geometry and its drama The friendly exertions of amateur play lie at the heart of the sport comprising the wellspring of its professional levels Here viewed as a pastime through the eyes of a lifelong amateur player baseball unfolds as an experience of motion and time and senses the work of muscle the textures of wood and leather the warmth of sun the scents of a grassy field In the timeless continuity of the game can be glimpsed part of baseball s singular appeal the lively tension between the momentary and the eternal what is over and what is never over The interwoven essays making up Bushville are a poignant reflection upon the pursuit of what is essentially a ball but what is crucially human as well *Tax Reform* United States. of Debt Atif Mian, Amir Sufi, 2015-05-20 A concise and powerful account of how the great recession happened and what should be done to avoid another one well argued and consistently informative Wall Street Journal The Great American Recession of 2007 2009 resulted in the loss of eight million jobs and the loss of four million homes to foreclosures Is it a coincidence that the United States witnessed a dramatic rise in household debt in the years before the recession that the total amount of debt for American households doubled between 2000 and 2007 to 14 trillion Definitely not Armed with clear and powerful evidence Atif Mian and Amir Sufi reveal in House of Debt how the Great Recession and Great Depression as well as less dramatic periods of economic malaise were caused by a large run up in household debt followed by a significantly large drop in household spending Though the banking crisis captured the public s attention Mian and Sufi argue strongly with actual data that current policy is too heavily biased toward protecting banks and creditors Increasing the flow of credit they show is disastrously counterproductive when the fundamental problem is too much debt As their research shows excessive household debt leads to foreclosures causing individuals to spend less and save more Less spending means less demand for goods followed by declines in production and huge job losses How do we end such a cycle With a direct attack on debt say Mian and Sufi We can be rid of painful bubble and bust episodes only if the financial system moves away from its reliance on inflexible debt contracts As an example they propose new mortgage contracts that are built on the principle of risk sharing a concept that would have prevented the housing bubble from emerging in the first place Thoroughly grounded in compelling economic evidence House of Debt offers convincing answers to some of the most important questions facing today s economy Why do severe recessions happen Could we have prevented the Great Recession and its consequences And what actions are needed to prevent such crises going forward **Winning Ugly** Brad Gilbert, Steve Jamison, 2013-05-28 The
