Scouting On the Road to the Wolf's Lair Theodore S. Hamerow, 1997 In the beginning they rallied behind Hitler in the national interest of Germany in the end they sacrificed their lives to assassinate him A history of German resistance to Hitler in high places this book offers a glimpse into one of the most intractable mysteries Why did high ranking army officers civil servants and religious leaders support Hitler Why did they ultimately turn against him What transformed these unlikely men most of them elitist militaristic and fiercely nationalistic into martyrs to a universal ideal The resisters in *On the Road to the Wolf's Lair* are not the singular souls doomed to failure by the massive Nazi machinery but those who emerged from the Third Reich itself those people whose cultural administrative and military positions allowed them ultimately to form a systematic organized opposition to the Nazi regime These were people with a vested interest in the Third Reich and their slow and painful awakening to its evils makes a dramatic story marked as much by temporizing and compromise vacillation and reluctance a resistance to conscience as by the intrigue and heroics of political resistance that finally emerged Hamerow follows these men as one by one they find themselves overwhelmed by guilt and contrition over their support of a murderous regime He shows how their awakened moral reckonings and higher interests overrode lifetime habits and disciplines on the road to the wolf's lair The result is an unsparing history of the German resistance to Hitler one where the players emerge for the first time as real people with complex motives and evolving characters Almost a history of the possibility of an emerging collective moral conscience within a destructive environment the book adds to our understanding of the fall of the Third Reich and of the task of history itself *The American Journal of the Medical Sciences*, 1908 **Build Me an Ark** Brenda Peterson, 2012-04-02 Peterson writes of nature with an intimacy that tugs at the reader's deep memory Orion This is the story of a life and spirit guided by animals Brenda Peterson was raised in the High Sierras on a national forest lookout station and wildlife had a daily defining influence on her life Peterson explores her deep connection with animals from watching grizzlies in Montana's Rockies to keeping Siberian huskies as pets in New York City to her work for the restoration of wild wolves Her lively storytelling bridges the worlds of human and animal as she fascinates us with intimate stories of her studies of wild dolphins whales and orcas Peterson reveals how animal bonds have enriched her life and led her toward a wider epiphany As a species we cannot live without other animals A wealth of fascinating anecdotes and insights an engaging memoir Publishers Weekly **Wolves, Courts, and Public Policy** Edward A. Fitzgerald, 2015-02-10 This book examines the reintroduction and recovery of the wolf in the Northern Rocky Mountains The wolf was driven to brink of extinction through conscious government policy The Endangered Species Act of 1973 provided the means for wolf's return which began in the Carter administration and continues in the Obama administration The battle over the wolf is part of a larger struggle over the management of public lands generating public law litigation Interest groups brought suit in federal courts challenging the Department of Interior's implementation of policy The federal courts were required to interpret the statutory mandates and review Interior's decisions to insure statutory compliance The analysis of this public law litigation demonstrates that the

federal courts correctly interpreted the statutory mandates and properly supported and checked Interior's decisions This book focuses on the controversial role of the courts in the resolution of public policy conflicts Judicial skeptics argue that the courts should not get involved in complex public policy disputes as Judges lack the expertise and information to make informed decisions Judicial proponents by contrast argue that judicial involvement is necessary so Federal courts can oversee federal agencies which are under conflicting pressure from interest groups the President Congress and their own internal dynamics This book supports the conclusions of judicial proponents and points out that the federal courts have been instrumental in the return and recovery of the wolf to the Northern Rocky Mountains *Annual Report of the Fruit Experiment Stations of Ontario* ,1895 **Sessional Papers - Legislature of the Province of Ontario** Ontario.
