*The Higher Powers Of Mind And Spirit* Ralph Waldo Trine, 2012 The natural normal life is by a law divine under the guidance of the Spirit The higher insights and powers of the soul always potential within become of value only as they are realized and used To follow the higher leadings of the soul which is so constituted that it is the inlet and as a consequence the outlet of Divine Spirit Creative Energy the real source of all wisdom and power to project its leadings into every phase of material activity and endeavor constitutes the ideal life Such it might be said is the key note to this new volume by Mr Trine In the four chapters beginning Jesus the Supreme Exponent of the Higher Forces and Powers there is presented a new life of the Master The author's other books have had a far reaching influence in bringing about a mental and spiritual awakening in many lives In this new volume this same purpose is carried still further and he portrays the new spiritual awakening that is showing itself in every phase of life today that is bringing about radical changes in thought in moral values and standards

*The Higher Powers of Mind and Spirit* Ralph Waldo Trine, 2015-03-29 The natural normal life is by a law divine under the guidance of the spirit It is only when we fail to seek and to follow this guidance or when we deliberately take ourselves from under its influence that uncertainties arise legitimate longings go unfulfilled and that violated laws bring their penalties It is well that we remember always that violated law carries with it its own penalty The Supreme Intelligence God if you please does not punish He works through the channel of great immutable systems of law It is ours to find these laws That is what mind intelligence is for Knowing them we can then obey them and reap the beneficent results that are always a part of their fulfillment knowingly or unknowingly intentionally or unintentionally we can fail to observe them we can violate them and suffer the results or even be broken by them Life is not so complex if we do not so continually persist in making it so Supreme Intelligence creative Power works only through law Science and religion are but different approaches to our understanding of the law When both are real they supplement one another and their findings are identical In *The Higher Powers of Mind and Spirit* New Thought expert Ralph Waldo Trine speaks of those moments in the lives of all of us when we catch glimpses of a life our life that is infinitely beyond the life we are now living This volume is packed with profound insights and practical tips designed to help readers break past the self imposed limits holding them back and live a richer more satisfying life
