The Evolution of Southern Culture Numan V. Bartley, 1988 The American South has long been a subject of endless scholarly fascination. Historians and social scientists have endeavored to decipher the enigma of the region and to identify the formative factors that have molded the southern experience. They have searched for a central theme that would explain southern behavior and have debated the extent to which the region was distinctive from the rest of the nation. More recently, historical scholarship has shown a growing interest in the evolution of southern culture and the forces that shaped it. The southern enigma is yet to be fully deciphered, but *The Evolution of Southern Culture* addresses questions crucial to an understanding of the region's history. The book brings together original searching essays by nine of the nation's most distinguished scholars: Immanuel Wallerstein, Eugene D. Genovese, Elizabeth Fox-Genovese, Eric Foner, Nell Irvin Painter, George M. Fredrickson, Joel Williamson, Bertram Wyatt Brown.

Many Southern scholars are now giving the subject special attention and there is throughout the entire South a desire to know something of the section's literature. Inventing Southern Literature Michael Kreyling, 2009-11-12 Winner of the 1997 Eudora Welty Prize. I take an outward route, arguing that the Agrarian project was and must be seen as a willed campaign on the part of one elite to establish and control the South in a period of intense cultural maneuvering. The principal organizers of *I'll Take My Stand* knew full well there were other Souths than the one they touted; they deliberately presented a fabricated South as the one and only real thing. In *Inventing Southern Literature*, Michael Kreyling casts a penetrating ray upon the traditional canon of southern literature and questions the modes by which it was created. He finds that it was indeed an invention rather than a creation. In the 1930s the foundations were laid by the Fugitive Agrarian group, a band of poet-critics that wished not only to design but also to control the southern cultural entity in a conservative political context. From their heyday to the present, Kreyling investigates the historical conditions under which literary and cultural critics have invented the South and how they have chosen its representations. Through his study of these choices, Kreyling argues that interested groups have shaped meanings that preserve a South as the South. As the Fugitive Agrarians molded the region according to their definition in *I'll Take My Stand*, they professed to have developed a critical method that disavowed any cultural or political intent or content, a claim that Kreyling disproves. He shows that their torch was taken by Richard Weaver on the Right and Louis D. Rubin Jr. on

the Center Left and that both critics tried to preserve the Fugitive Agrarian credo despite the severe stresses imposed during the era of desegregation As the southern literary paradigm has been attacked and defended certain issues have remained in the forefront Kreyling takes on three reconciling the imperatives of race with the traditional definitions of the South testing the ways white women writers of the South have negotiated space within or outside the paradigm and analyzing the critics use and abuse of William Faulkner the major figure of southern literature as they have relied on his achievement to anchor the total project called Southern Literature *The Companion to Southern Literature* Joseph M.
