## **The Hollywood Tycoons:**

**The Movie Moguls** Philip French, 1971 In the early 1890s the cinema was a peepshow novelty in penny arcades Thirty years later it was America's fourth largest industry with its production center in Hollywood This vast new business was dominated by eight major corporations which not only made the movies but distributed and exhibited them in their own chains of movie theaters across the nation and around the globe And these films helped shape the tastes and behavior of several generations the world over For the most part movie companies were created by European immigrants who arrived penniless in the United States during the last two decades of the nineteenth century men such as Louis B Mayer Samuel Goldwyn Adolph Zukor William Fox the Warner Brothers **The Movie Moguls** looks at the backgrounds characters and careers of these extraordinary men From dust jacket **The Hollywood Tycoons.** (1. Budd Schulberg, 2011-05-25 What Makes Sammy Run Everyone of us knows someone who runs He is one of the symp toms of our times from the little man who shoves you out of the way on the street to the go getter who shoves you out of a job in the office to the Fuehrer who shoves you out of the world And all of us have stopped to wonder at some time or another what it is that makes these people tick What makes them run This is the question Schulberg has asked himself and the answer is the first novel written with the indignation that only a young writer with talent and ideals could concentrate into a manuscript It is the story of Sammy Glick the man with a positive genius for being a heel who runs through New York s East Side through newspaper ranks and finally through Hollywood leaving in his wake the wrecked careers of his associates for this is his tragedy and his chief characteristic his congenital incapacity for friendship An older and more experienced novelist might have tempered his story and in so doing destroyed one of its outstanding qualities Compromise would mar the portrait of Sammy Glick Schulberg has etched it in pure vitriol and dissected his victim with a precision that is almost frightening When a fragment of this book appeared as a short story in a national magazine Schulberg was surprised at the number of letters he received from people convinced they knew Sammy Glick s real name But speculation as to his real identity would be utterly fruitless for Sammy is a composite picture of a loud and spectacular minority bitterly resented by the many decent and sincere artists who are trying honestly to realize the measureless potentialities of motion pictures To this group belongs Schulberg himself who has not only worked as a screen writer since his graduation from Dartmouth College in 1936 but has spent his life literally in the heart of the motion picture colony In the course of finding out what makes Sammy run an operation in which the reader is spared none of the grue some details Schulberg has poured out everything he has felt about that place The result is a book which the publishers not only believe to be the most honest ever written about Hollywood but a penetrating study of one kind of twentieth century success that is peculiar to no single race of people or walk of life

**Movies and Money** David Puttnam, 2011-08-03 From David Puttnam producer of such modern film classics as Chariots of Fire The Killing Fields Midnight Express and The Mission and the only European to have run a major Hollywood studio an insightful and provocative history that explains the personalities and events which shaped film s transformation from a technological curiosity into one of the world s most powerful cultural and economic forces From the early rivalry between its inventors to the power brokering and political influence of today s mega stars from Zukor and Laemmle to Ovitz and Eisner from the serendipitous discovery of Los Angeles flagstaff no good wired Cecil B De Mille want authority to rent barn for 75 a

month in place called hollywood to the exploitation and depredation of Europe s film culture in the name of the marketplace Puttnam captures the urgency and wonder that swept through a young industry and set it spinning on an axis of money and power *Movies and Money* chronicles the unprecedented collision between art and commerce and incisively analyzes its implications in today s global arena Puttnam s engaging history is also an impassioned polemic From the moment Thomas Edison stole the first crude attempt at a movie camera from the French scientist tienne Jules Marey Hollywood and Europe have existed the author claims in a state of undeclared hostility hostility that has occasionally erupted into open battle for control of the century s most powerful artistic medium And this battle he contends will ultimately determine the nature of Europe s cultural identity He also argues forcefully for the intelligent application of the language and techniques of cinema to education urging filmmakers to make films that challenge and inspire as well as entertain Ten years after his abrupt departure from Columbia Puttnam re enters the debate about cinema with characteristic audacity with the irreverence of an iconoclast and the canniness of a seasoned player *Movies and Money* is a book that will change our understanding of the history and future of film

*The Colonel* Alanna Nash, 2014-06-01. Almost the only indisputable fact about Colonel Tom Parker is that he was the manager of the greatest performer in popular music, Elvis Presley. His real name wasn't Tom Parker; indeed, he wasn't an American at all, but a Dutch immigrant called Andreas van Kujik. And he certainly wasn't a proper military colonel; he purchased his title from a man in Louisiana. But while the Colonel has long been acknowledged as something of a charlatan, this book is the first to reveal the extraordinary extent of the secrets he concealed and the consequences for the career and ultimately the life of the star he managed. As Alanna Nash's prodigious research has discovered, the Colonel left Holland most probably because at the age of twenty he bludgeoned a woman to death. Entering the US illegally, he then enlisted in the army as Tom Parker. But with supreme irony, for someone later styling himself as Colonel Parker, his military career ended in desertion and discharge after a psychiatrist had certified him as a psychopath. He then became a fairground barker working sideshows with a zeal for small-scale huckstering and the casual scam that never left him. And by the height of Elvis's success, Parker had become a pathological gambler who at the same time as he was taking amazingly a full 50% of Presley's earnings, frittered away all his wealth in the casinos of Las Vegas. As Nash shows, therefore, the often baffling trajectory of Elvis Presley's career makes perfect sense once the secret imperatives of the Colonel's life are known. Parker never booked Presley for a tour of Europe because of the dark secret that ensured he himself could never return there. Even at his most famous, Elvis was still being booked to play out of the way towns in North Carolina because the former fairground barker who shamelessly negotiated as such even with top record company and film executives knew them from his days on the circus circuit. And Elvis was trapped, playing years of arduous seasons in Las Vegas, two shows nightly, seven days a week, until boredom and despair brought on the excessive drug use that killed him. Because for Parker, he was an open cheat whose huge earnings prevented his manager's losses at the gambling tables. Being called in, Alanna Nash knew Parker towards the end of his life and has now uncovered the whole story, improbable, shocking, and never less than compelling, of how this larger-than-life man made and then unmade popular music's first and greatest superstar.
