The Horsemans Notebook:

The Horseman's Notebook Mary Rose,1977 The Horseman's Notebook Mary Rose,1972 The Horseman Tim Pears,2017-01-12 From the prize winning author of *In the Place of Fallen Leaves* comes a beautiful hypnotic pastoral novel reminiscent of Thomas Hardy about an unexpected friendship between two children set in Devon in 1911. In a forgotten valley on the Devon Somerset border the seasons unfold marked only by the rituals of the farming calendar. Twelve year old Leopold Sercombe skips school to help his father a carter. Skinny and pale Leo dreams of a job on the estate's stud farm. He is breaking a colt for his father when a boy dressed in a Homburg breeches and riding boots appears. Peering under the stranger's hat he discovers Miss Charlotte the Master's daughter. And so begins a friendship between the children bound by a deep love of horses but divided by rigid social boundaries boundaries that become increasingly difficult to navigate as they approach adolescence.

The Pattern Under the Plough George Ewart Evans,2012-11-15 Following his two classics *Ask the Fellows Who Cut the Hay* and *The Horse in the Furrow* renowned oral historian George Ewart Evans continues his study of the vanishing customs working habits and rich language of the farming communities of East Anglia with *The Pattern Under the Plough* Faber 1966. Although based on East Anglia this book was and remains of wider interest for as the author pointed out at the time similar changes were occurring in North America and also happening with remarkable speed in Africa. In chronicling the old culture George Ewart Evans has taken its two chief aspects the home and the farm. He describes the house with its fascinating constructional details the magic invoked for its protection the mystique of the hearth the link of the bees with the people of the house and some of their fears and pre occupations. Among the chapters on the farm is one of Evans's most original pieces of research the description of the secret horse societies. Beautifully illustrated by David Gentleman this book is important not only for the material it reveals about the past but for the implications for present day society. As real and as valuable as the evidence unearthed by the spadework of archaeology. Observer

The Horseman's Promise Cathryn Hein,2017-06-19 **The Horseman's Secret** Jeannie Watt,2007-09-01 Life was supposed to be less complicated here. But it's not working out that way for Regan Flynn. Her new job at the high school came with a difficult boss and an even more difficult twelve year old student. And then there's the girl's charming cowboy father the local horsetrainer with a penchant for rescuing damaged creatures. Will Bishop is doing his best to raise Kylie on his own. But protecting her from the truth just got a lot more difficult with the arrival of the beautiful new teacher. Any future Will and Regan might have together would be burdened by the secret he can't afford to reveal to anyone.

Holy Horror Steve A. Wiggins,2018-12-03 What exactly makes us afraid? Is it monsters gore the unknown? Perhaps it's a biblical sense of malice lurking unnoticed in the corners of horror films. *Holy Writ* attempts to ward off aliens ghosts witches psychopaths and demons yet it often becomes a source of evil itself. Looking first at *Psycho* 1960 and continuing through 2017 this book analyzes the starring and supporting roles of the Good Book in horror films monster movies and thrillers to discover why it incites such fear. In a culture with high

biblical awareness and low biblical literacy horrific portrayals can greatly influence an audience's canonical beliefs A *Game Ranger's Note Book* Arthur Blayney Percival, 1927 Hatfield's Herbal Gabrielle Hatfield, 2009-03-05 Hatfield's Herbal is the story of how people all over Britain have used its wild plants throughout history for reasons magical mystical and medicinal Gabrielle Hatfield has drawn on a lifetime's knowledge to describe the properties of over 150 native plants and the customs that surround them from predicting the weather with seaweed to using deadly nightshade to make ladies pupils dilate appealingly and from ensuring a husband's faithfulness with butterbur to warding off witches by planting a rowan tree Filled with stories folklore and remedies both strange and practical this is a memorable and eye opening guide to the richness of Britain's heritage **The Notebooks of Leonardo Da Vinci** Leonardo (da Vinci.), 2023-10-01 The Notebooks of Leonardo Da Vinci by Leonardo Da Vinci This classic volume collects a wide range of Leonardo Da Vinci's notes and musings offering a glimpse into the mind of one of history's greatest artists and inventors With its rich insights into art science and the human experience The Notebooks of Leonardo Da Vinci is a must read for fans of intellectual history and biography Key Aspects of the Book The Notebooks of Leonardo Da Vinci Insights into Art and Science The book offers rich insights into the worlds of art and science highlighting the complex and interrelated nature of these two fields Musings and Reflections The book features a wide range of notes and musings showcasing Da Vinci's playful and curious spirit and his unending quest for knowledge Historical Biography The book provides a rich biography of Da Vinci offering insights into his life and times and his enduring legacy in art and science Leonardo Da Vinci was an Italian Renaissance artist and inventor who lived from 1452 to 1519 He was a leading figure in the worlds of art and science known for his insights into human anatomy his groundbreaking work in engineering and design and his stunning masterpieces of painting and sculpture The Notebooks of Leonardo Da Vinci is a testament to his enduring impact on human culture and history **The Notebooks of Leonardo Da Vinci (Complete)** Leonardo da Vinci, 2020-09-28 A singular fatality has ruled the destiny of nearly all the most famous of Leonardo da Vinci's works Two of the three most important were never completed obstacles having arisen during his life time which obliged him to leave them unfinished namely the Sforza Monument and the Wall painting of the Battle of Anghiari while the third the picture of the Last Supper at Milan has suffered irremediable injury from decay and the repeated restorations to which it was recklessly subjected during the XVIIth and XVIIIth centuries Nevertheless no other picture of the Renaissance has become so wellknown and popular through copies of every description Vasari says and rightly in his Life of Leonardo that he laboured much more by his word than in fact or by deed and the biographer evidently had in his mind the numerous works in Manuscript which have been preserved to this day To us now it seems almost inexplicable that these valuable and interesting original texts should have remained so long unpublished and indeed forgotten It is certain that during the XVIth and XVIIth centuries their exceptional value was highly appreciated This is proved not merely by the prices which they commanded but also by the exceptional interest which has been attached to the change of ownership of merely a

few pages of Manuscript That notwithstanding this eagerness to possess the Manuscripts their contents remained a mystery can only be accounted for by the many and great difficulties attending the task of deciphering them The handwriting is so peculiar that it requires considerable practice to read even a few detached phrases much more to solve with any certainty the numerous difficulties of alternative readings and to master the sense as a connected whole Vasari observes with reference to Leonardos writing he wrote backwards in rude characters and with the left hand so that any one who is not practised in reading them cannot understand them The aid of a mirror in reading reversed handwriting appears to me available only for a first experimental reading Speaking from my own experience the persistent use of it is too fatiguing and inconvenient to be practically advisable considering the enormous mass of Manuscripts to be deciphered And as after all Leonardo s handwriting runs backwards just as all Oriental character runs backwards that is to say from right to left the difficulty of reading direct from the writing is not insuperable This obvious peculiarity in the writing is not however by any means the only obstacle in the way of mastering the text Leonardo made use of an orthography peculiar to himself he had a fashion of amalgamating several short words into one long one or again he would quite arbitrarily divide a long word into two separate halves added to this there is no punctuation whatever to regulate the division and construction of the sentences nor are there any accents and the reader may imagine that such difficulties were almost sufficient to make the task seem a desperate one to a beginner It is therefore not surprising that the good intentions of some of Leonardo s most reverent admirers should have failed

The Notebooks of Leonardo Davinci Leonardo Davinci,2017-05-16 The Notebooks of Leonardo Davinci Widely considered to be one of the greatest painters of all time and perhaps the most diversely talented person ever to have lived Leonardo Davinci was an Italian polymath whose areas of interest included invention painting sculpting architecture science music mathematics engineering literature anatomy geology astronomy botany writing history poetry and cartography He has been variously called the father of paleontology ichnology and architecture Sometimes credited with the inventions of the parachute helicopter and tank his genius epitomized the Renaissance humanist ideal Complete works of his notes does not include photos drawings or illustrations of his work

The Horseman's Song Ben Pastor, 2019-02-20 Spain summer 1937 The civil war between Spanish nationalists and republicans rages On the bloody sierras of Aragon among Generalissimo Franco's volunteers is Martin Bora the twenty something German officer and detective whose future adventures will be told in Lumen Liar Moon The Road to Ithaca and others in the Bora series Presently a lieutenant in the Spanish Foreign Legion Bora lives the tragedy around him as an intoxicating epic between idealism and youthful recklessness The first doubts however rise in Bora's mind when he happens on the body of Federico Garcia Lorca a brilliant poet progressive and homosexual Who murdered him Why The official version does not convince Bora who begins a perilous investigation His inquiry paradoxically proceeds alongside that which is being carried out by an enemy Philip Walton an American member of the International Brigades Soon enough the German and the New Englander will join forces and their cooperation will not only culminate in a thrilling chase after a murderer but also in a very human existential face to face between two adversaries forever changed by their crime solving encounter

Notebooks of Leonardo Da Vinci Leonardo Da Vinci, Murat Ugray, Jean Paul Richter, 2023-12-13 This new Great collection of his art and notes from Cheapest Books Put together all notes and drawings of Da Vinci as found not need reordered A singular fatality has ruled the destiny of nearly all the MOST FAMOUS OF LEONARDO DA VINCI'S WORKS Two of the three most important were never completed obstacles having arisen during his life time which obliged him to leave them unfinished namely the Sforza Monument and the Wall painting of the Battle of Anghiari while the third the picture of the Last

Supper at Milan has suffered irremediable injury from decay and the repeated restorations to which it was recklessly subjected during the XVIIth and XVIIIth centuries Nevertheless no other picture of the Renaissance has become so wellknown and popular through copies of every description Vasari says and rightly in his Life of Leonardo that he laboured much more by his word than in fact or by deed and the biographer evidently had in his mind the numerous works in Manuscript which have been preserved to this day To us now it seems almost inexplicable that these valuable and interesting original texts should have remained so long unpublished and indeed forgotten It is certain that during the XVIth and XVIIth centuries their exceptional value was highly appreciated This is proved not merely by the prices which they commanded but also by the exceptional interest which has been attached to the change of ownership of merely a few pages of Manuscript Leonardos literary labours in various departments both of Art and of Science were those essentially of an enquirer hence the analytical method is that which he employs in arguing out his investigations and dissertations The vast structure of his scientific theories is consequently built up of numerous separate researches and it is much to be lamented that he should never have collated and arranged them His love for detailed research as it seems to me was the reason that in almost all the Manuscripts the different paragraphs appear to us to be in utter confusion on one and the same page observations on the most dissimilar subjects follow each other without any connection A page for instance will begin with some principles of astronomy or the motion of the earth then come the laws of sound and finally some precepts as to colour Another page will begin with his investigations on the structure of the intestines and end with philosophical remarks as to the relations of poetry to painting and so forth Leonardo himself lamented this confusion and for that reason I do not think that the publication of the texts in the order in which they occur in the originals would at all fulfil his intentions No reader could find his way through such a labyrinth Leonardo himself could not have done it Added to this more than half of the five thousand manuscript pages which now remain to us are written on loose leaves and at present arranged in a manner which has no justification beyond the fancy of the collector who first brought them together to make volumes of more or less extent Nay even in the volumes the pages of which were numbered by Leonardo himself their order so far as the connection of the texts was concerned was obviously a matter of indifference to him The only point he seems to have kept in view when first writing down his notes was that each observation should be complete to the end on the page on which it was begun
