Quirk,William Schoell,2006 Documents the career and contributions of the popular film actor and director describing his breakout performance in Butch Cassidy and the Sundance Kid his activist role in support of endangered species conservation and his relationships with Hollywood contemporaries *The Taking of New York City* Andrew Rausch,2024-11-05 For a time in the 1970s New York City seemed to many to be genuinely on the cusp of collapse Plagued by rampant crime graft catastrophic finances and crumbling infrastructure it served as a symbol for the plight of

American cities after the convulsions of the 1960s This tale of urban blight was reinforced wherever one looked whether in the news media memorably captured in the infamous New York Daily News headline Ford to City Drop Dead or the countless movies that evoked the era s uniquely gritty sense of dread The Taking of New York City is a history of both New York and some of the decade s most definitive films including The French Connection 1971 the first two Godfather movies 1972 1974 Taxi Driver 1976 Serpico 1973 Dog Day Afternoon 1975 and many more It was also an era in which the city wrestled with the racial tensions still threatening the tear the nation apart never more so than in Blaxploitation classics such as Shaft 1971 and Super Fly 1972 These films depicted the city that never sleeps as a grim violent place overridden with muggers pimps and killers Projected at drive ins and inside their local movie houses rural America saw New York as a nightmare a vile dystopia where the innocent couldn t rely on the local law enforcement who were seemingly all on the take If one took Hollywood s word for it the only way a person was able to find justice in 1970s New York City was by grabbing a gun and meting it out themselves Author Andrew Rausch meticulously separates fact and fiction in this illuminating book Attentive to the ways that New York s problems were exaggerated or misrepresented it also gives an unvarnished look at just how bad things could get in the Rotten Apple and how movies told that story to the country and the world Proceedings ,1974 **Fact Sheet** ,2002

Facts as I Remember Them Rufe LeFors,2013-12-06 The rivers of the Texas Panhandle the Canadian and the forks of the Red break through the Cap Rock at the eastern edge of the Staked Plains It s rough bleak country with few trees and a great expanse of sky Storms that form on the Great Plains and in the Rocky Mountains sweep through with nothing much to slow them down And the small dusty towns that serve this vast ranchland cling to the waterways as they have for over a hundred years since their early settlement Their names aren t well known now but they were once focal points in a rugged country where buffalo hunters trail drivers outlaws and ordinary folks alike passed through Rufe LeFors was one such ordinary man With his father and older brothers he was among the first to settle this country drawn to West Texas by tales of open land and good grass His life story set down near the end of his long and adventurous life is the best sort of insider s history the chronicle of a life lived fully amid the exciting events and rough landscape of the frontier s final years Rufe LeFors recorded his story over the course of a decade finishing up in 1941 in his eighty first year His memoirs span the period from the War between the States to the early twentieth century when the Panhandle was still scarcely settled a true frontier In his time LeFors was trail driver pony express rider and rancher He traveled for a year with Arrington s Texas Rangers and he wore the badge of deputy sheriff in the wild west town of Old Mobeetie He rode a fast horse after claims in the Cherokee Strip spent time as a horse trader and finally settled in Lawton Oklahoma where after some twenty years as a deputy he was elected to the office of sheriff LeFors knew how to tell a story Whether it is an account of an outlaw s capture or the rescue of a white girl from prairie fire by a Comanche brave he weaves into his narrative all the color drama and character of the event His version of the death of Billy the Kid adds another perspective to that much celebrated episode in western history His

encounters with Temple Houston the governor's flamboyant son rancher Charles Goodnight and Ranger Captain Arrington add to our fund of knowledge about those legendary frontier figures LeFors wanted to get the facts as he remembered them straight With his sharp eye for texture and detail and keen ear for language and timing he created a narrative that wonderfully captures the flavor of his life and exciting times

Hydrothermal Processes at Seafloor Spreading Centers Peter A. Rona, Kurt Boström, Lucien Laubier, Kenneth L. Smith, 2013-11-21 During the past ten years evidence has developed to indicate that seawater convects through oceanic crust driven by heat derived from creation of lithosphere at the Earth encircling oceanic ridge rift system of seafloor spreading centers This has stimulated multiple lines of research with profound implications for the earth and life sciences The lines of research comprise the role of hydrothermal convection at seafloor spreading centers in the Earth's thermal regime by cooling of newly formed lithosphere oceanic crust and upper mantle in global geochemical cycles and mass balances of certain elements by chemical exchange between circulating seawater and basaltic rocks of oceanic crust in the concentration of metallic mineral deposits by ore forming processes and in adaptation of biological communities based on a previously unrecognized form of chemosynthesis The first workshop devoted to interdisciplinary consideration of this field was organized by a committee consisting of the co editors of this volume under the auspices of a NATO Advanced Research Institute ARI held 5-8 April 1982 at the Department of Earth Sciences of Cambridge University in England This volume is a product of that workshop The papers were written by members of a pioneering research community of marine geologists geophysicists geochemists and biologists whose work is at the stage of initial description and interpretation of hydrothermal and associated phenomena at seafloor spreading centers
