The Hudson Letter:

The Hudson Letter Derek Mahon, 1995 *The Case of the Hudson's Bay Company, in a Letter to Lord Palmerston.* By A. F. Andrew FREEPORT (pseud.), 1857 **Derek Mahon: A Retrospective** Nicholas Grene, Tom Walker, 2024-09-17 Derek Mahon 1941 2020 is widely recognized as one of the most important Irish poets of his generation This collection of new critical essays offers an important retrospective assessment of the nature of his poetic achievement Bringing together many leading scholars of modern and contemporary Irish poetry including a notable number of accomplished poet critics its contributors range widely across Mahon s body of work Their essays offer fresh considerations of the biographical geographical and literary contexts that shaped his poetic voice This includes paying attention not only to more familiar influences but also to previously little considered interlocutors The stylistic and formal achievement of his voice is re evaluated in ways that range from attentive close readings to considerations of his controversial practice of self revision and his engagements with music and experiments in translation The politics of a poet often misleadingly considered apolitical are also reframed to take in the engagements of his early work through to the ecocritical commitment of his later poetry Indeed a notable aspect of this book is the consideration it gives to all the phases of Mahon s career As a whole the collection opens up many new ways of reading and understanding Mahon s important body of work **Creating the Hudson River Park** Tom Fox, 2024-04-12 The 4 mile long 550 acre Hudson River Park is nearing completion and is the largest park built in Manhattan since Central Park opened more than 150 years ago It has transformed a derelict waterfront protected the Hudson River estuary preserved commercial maritime activities created new recreational opportunities for millions of New Yorkers enhanced tourism stimulated redevelopment in adjacent neighborhoods and set a precedent for waterfront redevelopment The Park attracts seventeen million visitors annually Creating the Hudson River Park is a first person story of how this park came to be Working together over three decades community groups civic and environmental organizations labor the real estate and business community government agencies and elected officials won a historic victory for environmental preservation the use and enjoyment of the Hudson River and urban redevelopment However the park is also the embodiment of a troubling trend toward the commercialization of America s public parks After the defeat of the 2 4 billion Westway plan to fill 234 acres of the Hudson in 1985 the stage was set for the revitalization of Manhattan s West Side waterfront Between 1986 and 1998 the process focused on the basics like designing an appropriate roadway removing noncompliant municipal and commercial activities from the waterfront implementing temporary improvements developing the Park s first revenue producing commercial area at Chelsea Piers completing the public planning and environmental review processes and negotiating the 1998 Hudson River Park Act that officially created the Park From 1999 to 2009 planning and construction were funded with public money and focused on creating active and passive recreation opportunities on the Tribeca Greenwich Village Chelsea and Hell s Kitchen waterfronts However initial recommendations to secure long term financial

support for the Park from the increase in adjacent real estate values that resulted from the Park's creation were ignored. City and state politicians had other priorities and public funding for the Park dwindled. The recent phase of the project from 2010 to 2021 focused on development both in and adjacent to the Park. Changes in leadership and new challenges provide an opportunity to return to a transparent public planning process and complete the redevelopment of the waterfront for the remainder of the 21st century. Fox's first person perspective helps to document the history of the Hudson River Park, recognizes those who made it happen and those who made it difficult and provides lessons that may help private citizens and public servants expand and protect the public parks and natural systems that are so critical to urban well-being.

Shakespeare and Contemporary Irish Literature Nicholas Taylor-Collins, Stanley van der Ziel, 2018-09-18 This book shows that Shakespeare continues to influence contemporary Irish literature through postcolonial dramaturgical, epistemological and narratological means. International critics examine a range of contemporary writers including Eavan Boland, Marina Carr, Brian Friel, Seamus Heaney, John McGahern, Frank McGuinness, Derek Mahon and Paul Muldoon and explore Shakespeare's tragedies, histories and comedies as well as his sonnets. Together the chapters demonstrate that Shakespeare continues to exert a pressure on Irish writing into the twenty-first century, sometimes because of and sometimes in spite of the fact that his writing is inextricably tied to the Elizabethan and Jacobean colonization of Ireland. Contemporary Irish writers appropriate, adopt, adapt and strategize through their engagements with Shakespeare and indeed through his own engagement with the world around him four hundred years ago.

Arctic Trader--the account of twenty years with the Hudson's Bay Company Philip Henry Godsell, 2022-08-01 In *Arctic Trader: The Account of Twenty Years with the Hudson's Bay Company* Philip Henry Godsell presents a compelling narrative that intricately weaves together adventure, commerce and cultural observation in the Arctic wilderness. Godsell's literary style marries vivid descriptive prose with acute personal reflection, creating an immersive experience for the reader. Set against the backdrop of the early 20th century, this memoir chronicles Godsell's tenure with the Hudson's Bay Company, illuminating the complexities of trade, indigenous relations and the stark beauty of the Arctic landscape. Philip Henry Godsell, an Englishman by birth, was profoundly influenced by his experiences in the Canadian North, where he served as a fur trader for over two decades. His background in commerce combined with a deep curiosity for the indigenous cultures he encountered led him to document both the challenges and rewards of life in such a remote environment. Through his detailed accounts, Godsell offers a unique perspective on the intersection of European trade practices and the indigenous ways of life. For readers fascinated by Arctic exploration, trade history or cross-cultural
