A COSMIC BIRTH... STARTING BEFORE ZERO PSJ

(Peet) Schutte, 2013-07-12 I explain Genesis 1 v 1 the beginning or birth of the Universe in terms of the Bible using not theology but mathematics. I prove Genesis 1 verse 1 to be correct by using mathematics. The Bible says IN THE BEGINNING OF CREATION 1 when God made heaven and earth 2 the earth was without form and void 3 with darkness over the face of the abyss. Yes, this I do explain mathematically, and I manage this because I prove and explain four cosmic keys that build the Universe: namely, The Titius-Bode Law, The Lagrangian Points, The Roche limit, and the Coanda Effect. Everything in nature in the Universe applies these phenomena in how space forms. The Titius-Bode Law, The Lagrangian Points, The Roche, Coanda Effect forms the Universe in as much as forming stars in spheres and forming galaxies in circles. These principles form space and materials. This is a process that produces space, and that is how the Universe began before the Universe began in space. I take the cosmic birth back to before space came about as the Big Bang.

Quantifying Aristotle , 2022-06-08 Aristotelian philosophy is generally regarded as incompatible with the mathematical methods and principles that form the basis of modern science This book offers an entirely new perspective on this presumed incompatibility It surveys the tradition of the Oxford Calculators from its beginnings in the fourteenth century until Leibniz and the philosophy of the seventeenth century and explores how the Calculators techniques of quantification expanded the conceptual and methodological limits of Aristotelianism In the process it examines a large number of authors some of them never studied in this context Exploring the relationship between various late medieval disciplines the book sheds new light on the problem of continuity vs discontinuity between scholasticism and modern science Beyond its historiographical purpose this book also hopes to be a source of inspiration for present day philosophers of science
