mere mortal excellence when you could be living like a goddess Divinely illustrated by Georgia Perry You Goddess will help you conquer today s world Shaman or Sherlock? Gina Macdonald, Andrew F. Macdonald, 2001-11-30 Fictional depictions of Native American concepts of justice crime and the investigation of crime are explored in this original work Shaman or Sherlock explores depictions created by Native American authors themselves as well as those created by outsiders with mainstream agendas The most successful of these writers fuse authentic Native American culture with standard genre conventions thus providing an appealing empathetic view of little understood or underappreciated groups as well as insight into issues of cross cultural communication Dealing with such significant concepts as acculturation regional diversity and assimilation this unique study evaluates over 200 detective stories Though the crime novel began in Europe as a manifestation of Enlightenment rationality and scientific methodology the Native American detective story moves into the realm of the spiritual and intuitive often incorporating depictions of non material phenomena Shaman or Sherlock explores how geographical and tribal differences degrees of assimilation and the evolution of age old cultural patterns shape the Native American detective story **"Catch if you can your country's moment"** William S. Waddell, 2009-05-05 The eight essays in this collection explore the work of Adrienne Rich one of America s most significant living writers and a poet and a public intellectual with a substantial audience both inside and outside the academy Taken together the essays argue for a shift in the perceived center of gravity of Rich s career from the passionate and eloquent poems of a largely personal feminist awakening from the mid 60s to the early 80s to the equally if differently passionate and eloquent poems of a more broadly public re imagination of our country and its history beginning with her work of the mid 1980s Rich has remained committed to the reconstruction of poetry s place in public as well as private life nationally and globally From varied perspectives accessible to the common reader as well as the specialist the collection addresses Rich s negotiation of the boundary between these public and private spheres and the potential of poetry as a revolutionary medium and alternate epistemology a means as the title expresses it of recovery and regeneration Rich has aimed always as the last lines of her poem Planetarium 1968 have it at the relief of the body and the reconstruction of the mind and this collection works to describe her effort to extend the reach of that healing motive across a continent and a culture In these eight keenly executed essays edited by William Waddell we see Rich finally removing those asbestos gloves once used to handle sizzling political topics Critics in this volume show Adrienne Rich struggling barehanded with changing poetic strategies complex new subject positions and the relations of power and cultural practice in the constitution of history Transformative cartographer of words and perceptions Rich as Waddell argues outlines a method for redefining American space remapping North American culture for the marginalized the repressed and the resistant Waddell s collection celebrates the polyphony of politics and aesthetics in Rich s work shaping for the reader an ethical discourse intensively visible for the first time in volumes such as An Atlas of the Difficult World Poems 1988 1991 but equally present throughout Rich s prose and poetry Mary Lynn Broe Caroline Werner
