

The book cover features a surreal illustration. Two tall, dark, cylindrical towers with glowing windows stand on either side of a large, intricate spider web that spans the sky. In the foreground, a checkered floor leads towards the towers. A hot air balloon is visible on the right, and a small, dark, winged figure is perched on the web. The sky is a deep blue.

politics Hollywood and the presidency and argue that not only did Hollywood acting become an idiom for presidential style but that Hollywood early on understood its own identity through the presidency's peculiar mix of national epic and unified protagonist. Additionally, they contend that studios often made their films to sway political outcomes, that the performance of presidential personae has been constrained by the kinds of bodies for so long white and male that have occupied the office such that presidential embodiment obscures the body politic and that Hollywood and the presidency may finally be nothing more than two privileged figures of media age power. *Rebirth: Phoenix Overwhelms the World* Gong Ziji Yue, 2020-06-04

In this analysis, Christopher Hansen thoroughly examines storytelling techniques while providing a fresh theoretical framework to develop a structural model for interconnected narratives. He redefines our understanding of narrative dynamics in one of the most successful cinematic franchises of all time.
