Sachar,2013-07-31 First published in 1976 Howard M Sachar s A History of Israel From the Rise of Zionism to Our Time was regarded one of the most valuable works available detailing the history of this still relatively young country Decades later readers can again be immersed in this monumental work The second edition of this volume covers topics such as the first of the Aliyahs in the 1880s the rise of Jewish nationalism the beginning of the political Zionist movement and later how the movement changed after Theodor Herzl the Balfour Declaration the factors that led to the Arab Jewish confrontation Palestine and its role both during the Second World War and after the war of independence and the many wars that followed it over the next few decades and the development of the Israeli republic and the many challenges it faced both domestic and foreign and still faces today This is a truly enriching and exhaustive history of a nation that holds claim to one of the most complicated and controversial histories in the world     **The Rise of Israel** Jonathan Adelman,2008-03-25 This book provides a general history of the rise of Israel since the early Zionist efforts at state building In particular it seeks to show how unlikely Israel s creation was and that it should best be understood as a series of revolutions     **The Intelligence Revolution** Steven E. the defence offered by the Obama administration but that this same type of targeting could be used by the military due to differing standards mechanisms of responsibility assignment in these organisations The book thus provides a way of investigating contemporary wars where the conduct of war lacks the traditional hallmarks of conventional warfare Furthermore by drawing attention to differing normative concepts that underpin competing interpretations of law and morality it provides a way of analysing contemporary political violence in an interdisciplinary fashion without seeking to displace single disciplinary study This book will be of much interest to students of military studies ethics of war foreign policy international security and IR
