Spin a Silver Dollar Alberta Hannum, 1958

SPIN, 1986-01

From the concert stage to the dressing room from the recording studio to the digital realm SPIN surveys the modern musical landscape and the culture around it with authoritative reporting provocative interviews and a discerning critical ear With dynamic photography bold graphic design and informed irreverence the pages of SPIN pulsate with the energy of today's most innovative sounds Whether covering what's new or what's next SPIN is your monthly VIP pass to all that rocks The Silent Partner Marcus Galloway, 2008 In desperate need of some cold hard cash Caleb Wayfinder agrees to protect Creek Johnson in exchange for an equal share in a gold claim only to find himself framed for murder Original *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1974 How To Randall Munroe, 2019-09-03 AN INSTANT 1 NEW YORK TIMES BESTSELLER How To will make you laugh as you learn With How To you can't help but appreciate the glorious complexity of our universe and the amazing breadth of humanity's effort to comprehend it If you want some lightweight edification you won't go wrong with How To CNET How To has science and jokes in it so 10/10 can recommend Simone Giertz The world's most entertaining and useless self-help guide from the brilliant mind behind the wildly popular webcomic xkcd the bestsellers What If and Thing Explainer and What If 2 coming September 13, 2022 For any task you might want to do there's a right way a wrong way and a way so monumentally complex excessive and inadvisable that no one would ever try it How To is a guide to the third kind of approach It's full of highly impractical advice for everything from landing a plane to digging a hole Bestselling author and cartoonist Randall Munroe explains how to predict the weather by analyzing the pixels of your Facebook photos He teaches you how to tell if you're a baby boomer or a 90's kid by measuring the radioactivity of your teeth He offers tips for taking a selfie with a telescope crossing a river by boiling it and powering your house by destroying the fabric of space time And if you want to get rid of the book once you're done with it he walks you through your options for proper disposal including dissolving it in the ocean converting it to a vapor using tectonic plates to subduct it into the Earth's mantle or launching it into the Sun By exploring the most complicated ways to do simple tasks Munroe doesn't just make things difficult for himself and his readers As he did so brilliantly in What If Munroe invites us to explore the most absurd reaches of the possible Full of clever infographics and fun illustrations How To is a delightfully mind-bending way to better understand the science and technology underlying the things we do every day
