meant someone was sacrificing for them to attend school Completing their education was a culmination of hard work and determination Teachers were respected and highly regarded by the public All that combined produced good teachers who were extremely proud to stand before children and be the planters of knowledge As a child to be like any one of them was my burning desire Never losing sight of my goal I progressed through the grades I may not have been the most academic kid on the block but I was responsible Teachers entrusted me with duties jobs and tutoring In twelfth grade I was put in charge of a study hall Upon graduation I was one step closer to being a teacher I finished college early and finally was a teacher From the beginning of my days in the classroom I wrote down funny things kids would say and do because I just didnt want to forget them As I moved from pre school to kindergarten then middle or high school I had quite a treasure trove After retiring I reflected upon my time in the classroom and decided maybe my friends were right in telling me I should write a book I knew it would be fun to share my stories and experiences From time to time I would get out my old brown tattered notebook and write And as I got older and older I decided if I am going to ever write a book I need to get moving I knew Id rather write it myself than to die and have someone run across my notebook and try to write my story Thus a book was born I delight in telling my story Some pages will make you cry Others will make you laugh I dont begin to pretend I was the perfect teacher This book does not allude to that It paints a portrait of the inner workings of a classroom in todays world It conveys the fact that when teaching children with special needs subject matter sometimes takes a back seat They came to us with such baggage When I stop and think about the troubles those children carried on their shoulders I marvel at how they managed to rise in the mornings and get to school As teachers we had to look beyond the language and behavior in order to help these people Our role as teachers extended way beyond our training These were not the children of yesteryear Most of them were products of drug ridden homes and streets absentee parents video games violence on television and movies and absolute poverty These influences rode on the bus with them and traveled right into the classroom where we were expected to teach counsel and police That may not have been the teaching of my childhood dreams but somehow I saw the need to know what my priorities had to be each and every day Given all the things I saw heard and dealt with I dont believe I could ever have returned to a regular classroom It woul

**I Choose To Stay** Salome Thomas-EL,Cecil Murphey,2004-01-01 The challenges of working in an urban school are not for every teacher Some get burnt out fast Some lose sight of why they started teaching in the first place Some find their calling in other neighborhoods with other kids But not Salome Thomas El A Teacher at Roberts Vaux Middle School in Philadelphia s inner city he chose to stay Gripping poignant and homest this is his blistering real life tale of mentoring and making a difference and how the reformation of America s educational system can start with just one school Praise for I Choose To Stay An intensely moving story of loyalty and courage and a deeply pewrsonal tribute to the great potential of our

Jonathan Kozol This book is about courage It is a story about determination about compassion love and the ultimate fight This is the fight against the odds against the system and years of cultural social and economic factors that would have allowed this group of inner city kids to become nothing more than a set of statistics But Salome Thomas El would not let that happen He would not give up He saw the potential in them and he fought for them he used a board game as a weapon in this fight From the forward by Arnold Schwarzenegger A powerful story about what an inspirational teacher can do to open new horizons for economically disadvantaged young people William H Gray III President United Negro College Fund This book shows how one dedicated educator who believes in the potential of all our kids can make a huge difference and how under the proper circumstances urban education can work Edward G Rendell former mayor of Philadelphia Chairman of the Democratic National Convention An eloquent example of how commitment and innovation can better the lives of inner city children
