resources for additional research The glossary American Religious History A Z lists crucial people movements groups concepts and historical events enhanced by extensive statistical data Ehyeh Asher Ehyeh David Birnbaum, Martin S. Cohen, The beating heart of all religious enterprise undertaken in the spirit of intellectual integrity is a riddle how can a God who exists beyond the ken of human beings and outside of the spatial and temporal coordinates that are the most basic of all factors that we bring to bear in our perception and evaluation of the world how can such a God be known at all let alone worshiped meaningfully Classical Jewish sources approach the matter in different ways The Bible for example takes a two pronged approach describing in some passages a God whom none can survive the experience of seeing directly Exodus 33 20 and with whom too close contact can physically disfigure Exodus 34 29 maim Genesis 32 32 or even kill Leviticus 10 2 yet in others describing a God who appears to individuals in a way that is neither terrifying nor inherently dangerous How to reconcile these contradictory approaches feels like a serious desideratum yet one left unaddressed by any biblical author or text But perhaps there is another way to approach the issue could the contradiction be its own lesson one intended to suggest the difficulty or even the near impossibility that inheres in any effort at all to know God or even to know of God And indeed that lesson has an interesting concrete parallel in the description of the Holy of Holies the inmost sanctum of the desert sanctuary in 2 Martin S Cohen which rested the Ark of the Covenant that held the tablets Moses brought down from Sinai Deuteronomy 10 5 cf 1 Kings 8 9 That space was understood to be more intensely suffused with the presence of the Almighty than any place on earth but was also depicted as a chamber without illumination of any sort other than the dim glow of the censer carried into it by the High Priest one single day of the year Could the resultant paradox that the light of God's presence in the world is imagined to exist most palpably in a room devoid of light be intended to suggest the challenge that inheres in the deep human desire to know a God who cannot logically be known In a certain sense this very conundrum hides behind the oracular nature of the Bible itself every single book of Scripture has the stamp of prophecy imprinted on its text either explicitly or implicitly And this is so despite the inherent impossibility of imagining how if God exists outside the limits of human perceptive consciousness anything about God at all let alone God's own words could ever successfully be transmitted in any language rooted in human experience Yet the Bible fully realized in human language exists And then there are the names of God themselves The God of Israel appears throughout Scripture under many different names which themselves also suggest this paradox of divine knowability and unknowability Some of these names are widely known while others are obscure Some appear to be built on Hebrew roots while others resist being analyzed linguistically Some seem related to some specific kind of communion with the Divine while others seem more aligned with how people use their names to distinguish themselves from other people but without anyone supposing that the etymological root of any individual's name is a reliable indicator of that person's character or personality In the end the full collection of divine names both illuminates and obscures each one saying something of the God it names but usually leaving more unstated than revealed 3 Preface The title of this

volume Ehyeh Asher Ehyeh is presented in Scripture as a name of God. It appears in Scripture only once at Exodus 3:14 where it has a mysterious feel that resists easy explication even though the words are not at all obscure linguistically and indeed can be taken as a straightforward sentence in relatively simple Hebrew. Adding to the mystery it also has a shorter form to which Scripture alludes in the same verse simply Ehyeh but it is not obvious if the long form is to be taken as an elaboration of the basic shorter name or if the shorter name is merely an abbreviated version of the longer one. Nor is it clear how the narrative context of the passage sheds light on the meaning of the name if it does. The Ehyeh name is one of many things revealed by God to Moses at the burning bush but it is not clear to what extent that name is tied to that specific one of the prophet's encounters with the Divine. And it also seems noteworthy that both forms of the Ehyeh name, the longer and the shorter one, appear only one time in all of Scripture; we never read of Moses obeying God's direct command and actually using that specific name when speaking to the people, a detail that seems important yet is neither resolved nor even noticed within the narrative. Furthermore, there is something deeply suggestive of the divine I in the Ehyeh name, a detail that is lost in translation from the original. Taken as a simple Hebrew verb, ehyeh is the imperfect first person singular form of a common verbal root that generally denotes existence or being. Outside this specific context, the word ehyeh appears dozens of times in Scripture with the simple meaning of I am or I shall be. It therefore feels as though the Ehyeh name should suggest a deep level of intimacy with the Divine, the level on which the relationship between Creator and created takes on something of the intimacy Buber described with his I and Thou terminology. But there are no biblical passages, even those describing God as deeply involved in the lives of human beings in which the Ehyeh name is used to hint at a special level of closeness with the Divine. That too sounds as though it must be deeply meaningful, but what Scripture means by revealing a name suggestive of divine intimacy and then never using it is again a riddle. Readers should note that in this volume the Hebrew expression ehyeh asher ehyeh is printed in italicized lower case letters while the divine names Ehyeh and Ehyeh Asher Ehyeh are printed in Roman type and with upper case initial letters. The authors of the essays in this volume have taken on the challenge of explaining this unique Hebrew phrase. They are a diverse lot who bring to their work training and backgrounds in many different fields. But what they have in common is a singular devotion to the written word as a powerful vehicle for the sharing of spiritual ideas. Our authors have strong opinions but no effort has been made to bring those opinions in line with each other or to harmonize them within this volume. I feel sure that most, perhaps even all, our authors are in agreement about many things, but the mission of the Mesorah Matrix series is to demonstrate how rich an experience it can be to read a whole book of essays written by thoughtful, intelligent, scholarly and deeply spiritual people seeking to grow personally through the act of writing essays such as these and willing to invite others into that growth experience by making their work available to the reading public. Unless otherwise indicated, all translations here are the authors' own work. Biblical citations of NJPS refer to the complete translation of Scripture published under the title Tanakh: The Holy Scriptures.

by the Jewish Publication Society in Philadelphia in 1985 I would like to take this opportunity to acknowledge the other senior editors of the Mesorah Matrix series David Birnbaum and Benjamin Blech as well as Saul J Berman our associate editor 5
