Spirit Matters The Worldwide Impact Of Religion On Contemporary Politics:

Spirit Matters Richard L. Rubenstein, 1987 **Politics and Religion in the Modern World** George Moyser, 2002-11
First published in 2004 Routledge is an imprint of Taylor Francis an informa company *The Oxford Companion to Comparative Politics* Joel Krieger, 2013 The two volume Oxford Companion to Comparative Politics fills a gap in scholarship on an increasingly important field within Political Science Comparative Politics the discipline devoted to the politics of other countries or peoples has been steadily gaining prominence as a field of study allowing politics to be viewed from a wider foundation than a concentration on domestic affairs would permit Comparativists apply various theories and concepts to analyze the similarities and differences between political units using the results of their research to develop causalities and generalizations Each of these theories and outcomes are thoroughly defined in the Companion as are major resultant conclusions those comparativists who have influenced the field in significant ways and politicians whose administrations have shaped the evaluation of contrasting governments Approximately 200 revised and updated articles from the Oxford Companion to Politics of the World would serve as a foundation for the set while over 100 new entries would thoroughly examine the field in a lasting more theoretical than current event based way New entries cover such topics as failed states Grand Strategies and Soft Power important updates include such countries as China and Afghanistan and issues like Capital Punishment Gender and Politics and Totalitarianism Country entries include the most significant nations to permit a focus on non time sensitive analysis In addition 25 1 000 word interpretive essays by notable figures analyze the discipline its issues and accomplishments Collectively entries promote deeper understanding of a field that is often elusive to non specialists

Global Rebellion Mark Juergensmeyer, 2008-05-16 A new religious activism has seized the imaginations of political rebels around the world In providing a road map through this complex terrain the author bases his discussion on interviews with militant activists and case studies of rebellious movements **Ethnoreligious Conflict in the Late Twentieth Century** Jonathan Fox, 2002-01-01 Jonathan Fox's new work provides the first systematic empirical study of the role that religion plays in ethnic violence Ethnoreligious Conflict in the Late Twentieth Century critiques the existing literature on religion and ethnic conflict then presents and analyzes original quantitative data gathered from a variety of sources Fox draws upon the Minorities at Risk model of ethnic conflict to develop and test a dynamic and comprehensive theory of religion and conflict He applies this theory to resurgent conflicts between ethnic groups of different religions from the Iranian revolution and the Afghan struggle against the Soviets in the 1980s to the ongoing Middle East conflict to pinpoint the ways in which religion has become intertwined in and lent legitimacy to conflicts in the contemporary world *Religion and American Politics : From the Colonial Period to the 1980s* Mark A. Noll Professor of History Wheaton College, 1989-11-09 How do religion and politics interact in America Why is it that at certain periods in American history religious and political thought have followed a parallel course while at other times they have moved in entirely different directions To what extent

have minority perspectives challenged the majority position on the religious and political issues that impinge on each other. These are among the many important and fascinating questions examined in this book, the first thorough historical survey of the multi-layered connections between religion and politics in the United States. This unique collection presents previously unpublished essays by seventeen of America's leading historians and social scientists including John Murrin, Harry Stout, John F. Wilson, Daniel Walker Howe, Bertram Wyatt Brown, Robert Swierenga, Martin Marty, Robert Wuthnow, and George Marsden. Together, these distinguished contributors provide comprehensive coverage of the historical interaction between religion and politics in America from the colonial and Revolutionary periods with intense commitments to and disagreements over religion through the evangelical Protestant ascendancy that marked the nineteenth century to the growing pluralism and heightened antagonism between liberal and conservative factions that typify our own era. **The New Cold War?** Mark

Juergensmeyer, 2023-04-28 Will the religious confrontations with secular authorities around the world lead to a new Cold War? Mark Juergensmeyer paints a provocative picture of the new religious revolutionaries altering the political landscape in the Middle East, South Asia, Central Asia, and Eastern Europe. Impassioned Muslim leaders in Egypt, Palestine, and Algeria, political rabbis in Israel, militant Sikhs in India, and triumphant Catholic clergy in Eastern Europe are all players in Juergensmeyer's study of the explosive growth of religious movements that decisively reject Western ideas of secular nationalism.

Juergensmeyer revises our notions of religious revolutions. Instead of viewing religious nationalists as wild-eyed anti-American fanatics, he reveals them as modern activists pursuing a legitimate form of politics. He explores the positive role religion can play in the political life of modern nations, even while acknowledging some religious nationalists' proclivity to violence and disregard of Western notions of human rights. Finally, he situates the growth of religious nationalism in the context of the political malaise of the modern West. Noting that the synthesis of traditional religion and secular nationalism yields a religious version of the modern nation-state, Juergensmeyer claims that such a political entity could conceivably embrace democratic values and human rights. Will the religious confrontations with secular authorities around the world lead to a new Cold War? Mark Juergensmeyer paints a provocative picture of the new religious revolutionaries altering the political landscape in the Middle East, South Asia, Centr **Faith in Human Rights** Robert Traer, 1991-01-01 In this first

comprehensive study of the problem of a universal definition of human rights, Robert Traer argues that contemporary theological discourse contains an affirmation of faith that unites members of world religious traditions with secular humanists in a common struggle to establish human rights as the basis for human dignity. Scholars of religion, law, and comparative religious ethics, as well as human rights advocates, will find it an invaluable guide. **The Huston Smith**
