

THE SPIRIT OF BRITISH POLICY

AND THE MYTH
OF THE ENCIRCLEMENT OF GERMANY

BY
HERMANN KANTOROWICZ

Professor of Law at the University of Kiel

WITH A PREFACE BY
GILBERT MURRAY

ENGLISH EDITION REVISED BY THE AUTHOR
AND TRANSLATED BY

W. H. JOHNSTON

"The purpose of this remarkable book," as the *Times Literary Supplement* observed in a long review of the German edition, is "to do justice to England and especially to clear English policy of the charge of 'encircling' Germany." The author himself originally shared the prevailing German belief in the "encirclement" idea, but he is now convinced that the British Government followed no such policy—which would, indeed, have been incompatible with the British character. It is one of the most appreciative books ever written by a foreigner about England, and at the same time an extraordinarily interesting psychological study of national characters.

Spirit Of British Policy The Myth Of T:

Political Myth-making, Nationalist Resistance and Populist Performance Mark Nartey, 2022-11-30 Using the socio political discourse of Kwame Nkrumah a pioneering Pan Africanist and Ghana's independence leader Nartey investigates the notion of political myth making in a context underexplored in the literature He examines Nkrumah's construction of a myth described in the book as the Unite or Perish myth i.e the idea of a United States of Africa being a prerequisite for the survival of Africa in the post independence period exploring the rhetorical resources he deployed categorizing and analyzing key tropes and metaphors and setting out the myth's basic components This book focuses on three areas an investigation of political myth making as a social and discursive practice in order to identify particular semiotic practices and linguistic patterns deployed in the construction of mythic discourse the unpacking of the discursive manifestation representation features and functions of political mythic themes and finally to propose and implement an integrated discourse analytical framework to account for the complexities of mythic discourse and political narratives in general It analyzes how Nkrumah deployed his discourse to concurrently construct heroes and villains protagonists and antagonists as part of an ideological mechanism aimed at galvanizing support for and instigating action on the part of the masses towards his lifelong African dream Nartey's book steps out from the conventional domain of critical discourse studies to focus on myth as a form of populist performance It will be of interest to postgraduate students and academics in critical discourse studies rhetorical discourse analysis African and Diaspora studies and African history as well as non academics such as journalists political commentators and people who consider themselves to be Nkrumaists and Pan Africanists

Escaping the Deadly Embrace Andrea Bartoletti, 2022-11-15 Encirclement Andrea Bartoletti argues is an essential strategic possibility of the international system and a key trigger of major war Using historical case studies Escaping the Deadly Embrace examines how great powers try to escape the two front war problem and seek to preserve their security Encirclement is a geographic variable that occurs in the presence of one or two great powers on two different borders of the surrounded great power The surrounding great powers may not have the capacity to initiate a joint invasion Yet their threatening presence triggers a double security dilemma for the encircled great power which has to disperse its army to secure its borders When the

surrounding great powers become capable of launching a two front attack the encircled great power initiates war This situation disastrous in itself can also lead to war contagion when other great powers intervene in the new conflict owing to the rival based network of alliances Combining archival work and historiographical analysis Escaping the Deadly Embrace demonstrates the efficacy of this by assessing three major wars the Italian Wars the Thirty Years War and World War I These findings Bartoletti shows have important implications for future major wars Challenging the current focus on the US China rivalry he argues that the most concerning strategic scenario is the encirclement of China by India and Russia
