Spirit Of The Counter Reformation:

The Spirit of the Counter-Reformation Henry Outram Evennett, 1970 Henry Outram Evennett was a university lecturer in history at Cambridge and a Fellow of Trinity College This book based on his Birkbeck Lectures of 1951 represents some twenty years work on the sources of the Counter Reformation Evennett did not live to complete his task but he has provided a remarkable synthesis of the vast European literature on this subject His method was to isolate the special and positive characteristics of the Counter Reformation and to account for them in relation to the environment in which they developed This approach is highly original it sees in the spirit of the Counter Reformation an attempt not to check but to extend and come to terms with the more individualistic and modern environment in which the Catholic Church found itself The Jesuits are treated as agents of this change Dr John Bossy has edited these lectures for publication and added a Postscript analysing some of the problems raised in the years since the lectures were delivered Professor David Knowles pays tribute to Evennett's memory in a

Ozment,2020-08-25 Celebrating the fortieth anniversary of this seminal book this new edition includes an illuminating foreword by Carlos Eire and Ronald K Rittges The seeds of the swift and sweeping religious movement that reshaped European thought in the 1500s were sown in the late Middle Ages In this book Steven Ozment traces the growth and dissemination of dissenting intellectual trends through three centuries to their explosive burgeoning in the Reformations both Protestant and Catholic of the sixteenth century He elucidates with great clarity the complex philosophical and theological issues that inspired antagonistic schools traditions and movements from Aquinas to Calvin This masterly synthesis of the intellectual and religious history of the period illuminates the impact of late medieval ideas on early modern society With a new foreword by Carlos Eire and Ronald K Rittgers this modern classic is ripe for rediscovery by a new generation of students and scholars **Masterless Mistresses** Emily Clark,2012-12-01 During French colonial rule in Louisiana nuns from the French Company of Saint Ursula came to New Orleans where they educated women and girls of European Indian and African descent enslaved and free in literacy numeracy and the Catholic faith Although religious women had gained acceptance and authority in seventeenth century France the New World was less welcoming Emily Clark explores the transformations required of the Ursulines as their distinctive female piety collided with slave society Spanish colonial rule and Protestant hostility The Ursulines gained prominence in New Orleans through the social services they provided schooling an orphanage and refuge for abused and widowed women which also allowed them a self sustaining level of corporate wealth Clark traces the conflicts the Ursulines encountered through Spanish colonial rule 1767 1803 and after the Louisiana Purchase as Protestants poured into Louisiana and were dismayed to find a powerful community of self supporting women and a church congregation dominated by African Americans The unmarried nuns contravened both the patriarchal order of the slaveholding American South and the Protestant construction of femininity that supported it By incorporating their story into the history of early America Masterless Mistresses exposes the limits of the republican model of national unity *A Century of Theological and Religious Studies in Britain, 1902-2002* Ernest Nicholson,2003 The essays in this volume give an account of how the agenda for theology and religious studies was set and reset throughout the twentieth century by rapid and at times cataclysmic changes wars followed by social and academic upheavals in the 1960s by new movements of thought by a bounty of archaeological discoveries and by unprecedented archival research Further new trends of study and fresh approaches existentialist Marxian postmodern have in more recent years generated new quests and horizons for reflection and research Theological enquiry in Great Britain was transformed in the late nineteenth century through the

gradual acceptance of the methods and results of historical criticism New agendas emerged in the various sub disciplines of theology and religious studies Some of the issues raised by biblical criticism for example Christology and the quest of the historical Jesus were to remain topics of controversy throughout the twentieth century In other important and far reaching ways however the agendas that seemed clear in the early part of the century were abandoned or transformed and replaced not only as a result of new discoveries and movements of thought but also by the unfolding events of a century that brought the appalling carnage and horror of two world wars Their aftermath brought a shattering of inherited world views including religious world views and disillusion with the optimistic trust in inevitable progress that had seemed assured in many quarters and found expression in widely influential liberal theological thought of the time The centenary of the British Academy in 2002 has provided a most welcome opportunity for reconsidering the contribution of British scholarship to theological and religious studies in the last hundred years

Patrons of the Old Faith Jaap Geraerts, 2018-09-24 *Patrons of the Old Faith* is the first full length study on the Catholic nobility in the Dutch Republic Based on a detailed prosopographical analysis and through the examination of their marriage strategies interaction with Protestants religiosity and contributions to the Holland Mission Jaap Geraerts shows how the behaviour of the Catholic nobility was highly distinctive and differed from their co religionists and Protestant peers as it was influenced by a specific set of noble and Catholic values Due to the synthesis of their noble and confessional identities the Dutch Catholic nobility in Utrecht and Guelders acted as patrons of their faith and were instrumental for the survival of Catholicism in the Dutch Republic

Spirit, Faith and Church Laurence Lux-Sterritt, Claire Sorin, 2011-10-18 Contradictions are legion when it comes to women and spirituality In Christian cultures the worth of the female sex is highly ambivalent since virginity and motherhood are construed respectively as badges of purity and fruitfulness whilst the biological processes which underlie them are considered taboo or impure Throughout history women are in turn represented as inferior defective creatures or as privileged empty vessels in their relationship with the divine This polarized conception of woman has influenced the way in which religious institutions learned writers or indeed women themselves consider the female personal and collective relationship with the supernatural with the divine and with the institutions which represent it Through eleven original essays this volume questions how women from the English speaking world have negotiated their roles in the spiritual and religious spheres From early modern Catholics and Puritan groups to twenty first century nuns Anglican ministers and Mormons how did women define their roles in male dominated institutions How did they react to the public perceptions of their bodies as either incompatible with or facilitating access to the divine The questions at the core of this book hinge upon the articulation between the female self body and soul and its experience of the preternatural of faith and of institutionalized groups Are there specific forms of female spirituality and do they lead to a feminized feminist conception of God

The Theology and Spirituality of Mary Tudor's Church William Wizeman, 2017-09-29 Few areas of early modern English history have roused such passions and

interpretations as the rule of Mary Tudor and her efforts to return the country to Catholicism following the reigns of her father and brother. In this book Dr Wizeman explores Catholic theology and spirituality according to the religious literature printed during the reign of Mary Tudor 1553-1558. As part of the strategy to renew Catholic religion in England after the reformation under Henry VIII and Edward VI, Marian theologians, authors and editors produced numerous works of catechesis, religious polemic, devotion and sermons. These writings demonstrate that the Catholicism of Marian England was not a mere insular reaction to the preceding decades of religious change nor a *via media* polity which eschewed important elements of traditional religion while embracing tenets of the Reformation. Rather, the theology and spirituality of Mary Tudor's church as well as many of its strategies for religious renewal were intimately connected to and in fact anticipated or paralleled the theology, spirituality and strategies for reform embraced by Counter Reformation Catholicism, especially after the promulgation of the decrees of the Council of Trent 1545-1563. After considering the recent historiography of Mary Tudor's reign, the book contextualises these writings through a brief history of the Marian church and a discussion of the authors and dedicatees. It then presents an analysis of the Marian writers and theologians' views on revelation, christology, soteriology, ecclesiology, sacramental theology, piety and eschatology. Finally, the study compares the Catholic belief asserted in these works to that found in texts by English theologians printed before 1553, especially John Fisher, and by contemporary theologians in Europe, particularly Bartolom Carranza, as well as the Tridentine catechism and the decrees and official texts of the English Reformation.

The Counter Reformation Arthur Geoffrey Dickens, 1969. The reform of the Catholic Church in the sixteenth century was historically as important as the contemporary Protestant Reformation. Though never committed solely to fighting Protestantism, it inevitably also became a Counter Reformation since it soon faced the threat created by Luther and his successors. The century between the career of Ignatius Loyola and that of Vincent de Paul became a classic age of Catholicism. The lives of its saints, popes and secular champions could hardly be made more fascinating by any novelist. While paying due attention to the great characters, the author also considers the broader political, social and cultural features of the Counter Reformation. A. G. Dickens is Emeritus Professor of History at the University of London.

Juan Esquivel Clive Walkley, 2010. Juan Esquivel was a cathedral choirmaster and composer active in Spain during the period c. 1580-c. 1623, in which all aspects of the arts flourished and one of the few peninsula composers of his generation to see his works published. He is known to have produced three large volumes of sacred polyphony: masses, motets, hymns, psalms, magnificats and Marian antiphons under the titles *Liber primus missarum*, *Motecta festorum* (both published 1608) and *Tomus secundus psalmodum hymnorum et missarum* (published 1613). They reveal him to be a highly skilled craftsman. This first full-length study of his life and works presents a critical assessment of the man and his music, setting him within the social and religious context of the so-called Counter Reformation. Beginning by outlining the facts of his life, the book goes on to offer an analysis and assessment of his output.

Trent and All That John W. O'Malley, 2009-06-01. Counter Reformation Catholicism: the

Baroque Age the Tridentine Age the Confessional Age why does Catholicism in the early modern era go by so many names And what political situations what religious and cultural prejudices in the nineteenth and twentieth centuries gave rise to this confusion Taking up these questions John O Malley works out a remarkable guide to the intellectual and historical developments behind the concepts of Catholic reform the Counter Reformation and in his felicitous term Early Modern Catholicism The result is the single best overview of scholarship on Catholicism in early modern Europe delivered in a pithy lucid and entertaining style Although its subject is fundamental to virtually all other issues relating to sixteenth and seventeenth century Europe there is no other book like this in any language More than a historiographical review Trent and All That makes a compelling case for subsuming the present confusion of terminology under the concept of Early Modern Catholicism The term indicates clearly what this book so eloquently demonstrates that Early Modern Catholicism was an aspect of early modern history which it strongly influenced and by which it was itself in large measure determined As a reviewer commented O Malley s discussion of terminology opens up a different way of conceiving of the whole history of Catholicism between the Reformation and the French Revolution
