## **Spirit Of Thomas G Masaryk 1850 1937 An Anthology:**

Spirit of T.G.Masaryk, 1850-1937 T.G. Masaryk,1990-06-18 A presentation of the work of the first President of Czechoslovakia who changed the course of history and influenced developments in Central Europe The selections of his work follow his dramatic career and show him as a philosopher and a politician who inspired practical work and thinking **The Spirit of Thomas G. Masaryk (1850-1937)** Tomáš Garrigue Masaryk,George J. Kovtun,1990 **Spirit of Thomas G. Masaryk (1850?1937)** George J. Kovtun,1990 *Recalling Masaryk's The Czech Question* ,2023-02-13 This book presents T G Masaryk s efforts to shape the identity of a small nation in late the 19th and early 20th century It features contributions from leading Czech scholars who analyse Masaryk s efforts 120 years later Masaryk is considered the most important figure in modern Czech history Drawing on the ideas of his ideological predecessors and humanists he wanted to integrate the Czech nation into the family of advanced world nations in line with international intellectual trends Masaryk was the first in world history to fulfil the Platonic ideal of a philosopher who founded a state **The United States in the First World War** Anne Cipriano Venzon,2013-12-02 First Published in 1999 Includes six maps **World War I and the Birth of a New World Order** Ioan Bolovan,Oana Mihaela Tămaş,2020-02-26 This volume will serve to enrich the reader s understanding of the impact of World War I on Eastern Europe by bringing together authors from all over Europe specialising in the history of this area It presents a retrospective approach and a re evaluation of this event the lasting effects of which still make themselves felt in some regions today Case studies memoirs journals and the printed press of the time are all examined in order to paint a vivid picture of the Great War in Eastern Europe and particularly in Romania The chapters offer fresh perspectives on topics connected to the war including the contribution of women and the emancipation opportunities for them the social changes that occurred and the propaganda in Romanian territory They also review the League of Nations and the protection of international minorities particularly in those regions where new boundaries were created and where the application of national self determination still left substantial communities outside the frontiers of the respective states

**Jan Hus** Jan Blahoslav Lášek,Angelo Shaun Franklin,2022-05-05 The Bohemian reformer Jan Hus made a substantial and critical contribution to the development of the medieval church owing especially to his views and teachings on Scripture the church faith conscience and spirituality This book offers a presentation of Hus s theological commitment centered on his understanding of truth L ek and Franklin explore Hus s preaching ministry and his long drawn out legal struggle against charges of heresy as ethical outworkings of this approach to truth Central to this exploration is a new annotated translation of Hus s Appeal to Jesus Christ as the Supreme Judge against the pope and canon law This document was not only a protest against papal power but expressed a fundamentally new legal situation in bypassing canon law it essentially represented a personal claim to freedom of conscience This unheard of principle from within the medieval legal framework preceded other related ecclesiastical and legal developments by several centuries The authors argue that Hus s appeal thus represents a

momentous event in church history and European history as a whole Due to the historical significance of his martyrdom and commemoration by many churches throughout Europe this book demonstrates that Hus remains an important figure not only for the study of European history but also for understanding contemporary values of Western civilization

**Defining the Sovereign Community** Nadya Nedelsky, 2012-02-28 Though they shared a state for most of the twentieth century when the Czechs and Slovaks split in 1993 they founded their new states on different definitions of sovereignty The Czech Constitution employs a civic model founding the state in the name of the citizens of the Czech Republic while the Slovak Constitution uses the more exclusive ethnic model and speaks in the voice of the Slovak Nation Defining the Sovereign Community asks two central questions First why did the two states define sovereignty so differently Second what impact have these choices had on individual and minority rights and participation in the two states Nadya Nedelsky examines how the Czechs and Slovaks understood nationhood over the course of a century and a half and finds that their views have been remarkably resilient over time These enduring perspectives on nationhood shaped how the two states defined sovereignty after the Velvet Revolution which in turn strongly affected the status of the Hungarian minority in Slovakia and the Roma minority in the Czech Republic Neither state has secured civic equality but the nature of the discrimination against minorities differs Using the civic definition of sovereignty offers stronger support for civil and minority rights than an ethnic model does Nedelsky's conclusions challenge much analysis of the region which tends to explain ethnic politics by focusing on postcommunist factors especially the role of opportunistic political leaders Defining the Sovereign Community instead examines the undervalued historical roots of political culture and the role of current constitutional definitions of sovereignty Looking ahead Nedelsky offers crucial evidence that nationalism may remain strong in Slovakia and the Czech Republic even in the face of democratization and EU integration and is an important threat to both

**T. G. Masaryk: Against the Current, 1882-1914** H Gordon Skilling, 1994-08-04 This study of T G Masaryk deals with his pre 1914 career as a professor and persistent dissenter For three decades he was a constant and unrelenting critic of conventional wisdom established institutions and customary practices in Bohemia and Austria Hungary At every stage he was a radical dissident in all questions of public life as well as in private matters religion the nationality problem the place of women labour and the social question parliament and government in the Monarchy its foreign affairs and foreign policy institutions education the courts and legal system the Catholic Church and clericalism the university establishment Czech politics and Czech political parties the interpretations of Czech history and anti semitism

The First World War Antonello Biagini, 2015-11-25 This volume is the result of an international conference held at Sapienza University of Rome in June 2014 which brought together scholars from different countries to re analyse and re interpret the events of the First World War one hundred years after a young Bosnian Serb student from the Mlada Bosna Gavrilo Princip lit the fuse and ignited the conflict which was to forever change the world The Great War initially on a European and then on a world scale demonstrated the fragility of the international

system of the European balance of powers and determined the dissolution of the great multinational empires and the need to redraw the map of Europe according to the principles of national sovereignty This book provides new insights into theories of this conflict and is characterized by internationality interdisciplinarity and a combination of different research methods The contributions based on archival documents from various different countries international and local historiography and on the analysis of newspaper articles postcards propaganda material memorials and school books examine the role of intellectuals and artists in the conflict the issue of minorities and nationalities the economy and international relations and politics in addition to specific case studies such as Russia and the Ottoman Empire the Caucasus and the Middle East      **Central**

**Europe** Lonnie Johnson, 1996-10-31 Throughout the Cold War era the Iron Curtain divided Central Europe into a Communist East and a democratic West and we grew accustomed to looking at this part of the world in bipolar ideological terms Yet many people living on both sides of the Iron Curtain considered themselves Central Europeans and the idea of Central Europe was one of the driving forces behind the revolutionary year of 1989 as well as the deterioration of Yugoslavia and its ensuing wars Central Europe provides a broad overview and comparative analysis of key events in a historical region that encompasses contemporary Germany Poland the Czech Republic Slovakia Austria Hungary Slovenia and Croatia Starting with the initial conversion of the pagan peoples of the region to Christianity around 1000 A D and concluding with the revolutions of 1989 and the problems of post Communist states today it illuminates the distinctive nature and peculiarities of the historical development of this region as a cohesive whole Lonnie R Johnson introduces readers to Central Europe s heritage of diversity the interplay of its cultures and the origins of its malicious ethnic and national conflicts History in Central Europe he shows has been epic and tragic Throughout the ages small nations struggled valiantly against a series of imperial powers Ottoman Turkey Habsburg Austria imperial Germany czarist Russia Nazi Germany and the Soviet Union and they lost regularly Johnson s account is present minded in the best sense in describing actual historical events he illustrates the ways they have been remembered and how they contribute to the national assumptions that still drive European politics today Indeed the constant interplay of reality and myth the processes of myth making and remembrance animates much of this history Since the fall of the Iron Curtain in 1989 the unanticipated problems of transforming post Communist states into democracies with market economies the wars in the former Yugoslavia and the challenges of European integration have all made Central Europe the most dynamic and troubled region in Europe In Central Europe Johnson combines a vivid and panoramic narrative of events a nuanced analysis of social economic and political developments and a thoughtful portrait of those myths and memories that have lives of their own and consequences for all of Europe      **A Companion to**

Krzywosz-Rynkiewicz, Anna Zalewska, Kerry J. Kennedy, 2017-08-10 Situated within the context of post soviet times this book explores young people's citizenship activities and values in three distinct environments post soviet union countries post soviet union satellites and countries that were independent of the soviet union Its purpose is to investigate the influence of these contexts on the ways young people see their citizenship in what are now emerging democracies The future of nations depends to a large extent on whether citizens will continue to support existing values and will engage in activities to support those values Using a framework designed by Kennedy 2006 and further developed by Zalewska Krzywosz Rynkiewicz 2011 the study examined the citizenship values of 3794 students aged 11 14 18 from 11 European countries The main themes of this book include exploring similarities and differences in citizenship activities within countries and across countries advancing explanations for these similarities and differences highlighting the importance of contexts that influence citizenship activities and values and assessing the extent to which democratic values are reflected in young people's citizenship activities **Forthcoming Books** Rose Army, 1990 The Hutchinson Encyclopedia Of Modern Political Biography

Górny, Vangelis Kechriotis, Balázs Trencsényi, Michal Kopeček, 2010-07-10 Nation's heart beats too slowly and its mind works too tediously We ought to open our windows to Europe to the wind of continental change and allow it to air our sultry home since as not all health comes from the inside not all disease comes from the outside Book Jacket *Czechoslovakia* John O. Crane, Sylvia Crane, 1991 This groundbreaking work presents a revisionist history of Czechoslovakia's struggle for independence from 1917 to the death of Jan Masaryk in March 1948 The authors focus on three critical events in Czechoslovak history the year of its founding in the midst of the Bolshevik Revolution in 1918 the Munich betrayal in 1938 and the Communist coup of 1948 The account is informed by John Crane's longstanding personal acquaintance with the Masaryk family and by Sylvia Crane's extensive research into previously inaccessible original archival sources The Cranes argue that throughout the period in question Czechoslovakia was victimized by the rival Great Powers as they attempted to

forge their own separate spheres of influence in Europe Among their startling new findings is their assessment that Jan Masaryk their brother in law committed suicide on March 10 1948 correcting the Cold War myth that claims he was murdered The book begins with an examination of the early years of the Czechoslovakian independence movement during World War I Among the Cranes most notable discoveries are documents until recently classified by the British Foreign Office that demonstrate how Great Britain used the Czechoslovak Legions in Bolshevik Russia to fight the Soviets contrary to President Thomas Masaryk s desires and the arrangements he had made for their withdrawal The next set of chapters addresses the events leading up to Munich 1938 and demonstrates the various roles played by the Great Powers in the ultimate betrayal of Czechoslovakia to Hitler Finally the Cranes turn their attention to the immediate post World War II period They argue that American policies based on strong anti Soviet attitudes were a major contributing factor in the defeat of democratic forces within Czechoslovakia by hardline Communists Throughout the Cranes rely on both their extensive research into primary sources and their intimate knowledge of the Masaryk family to offer the reader an unusually revealing account of the critical events in Czechoslovakia s turbulent history Must reading for Cold War historians this book will also be of significant interest to students of European politics particularly in light of the recent events in Eastern Europe
