Reinaldo L. Román, 2009-11-30 Freedom of religion did not come easily to Cuba or Puerto Rico Only after the arrival of American troops during the Spanish American War were non Catholics permitted to practice their religions openly and to proselytize When government efforts to ensure freedom of worship began reformers on both islands rejoiced believing that an era of regeneration and modernization was upon them But as new laws went into effect critics voiced their dismay at the rise of popular religions Reinaldo L Roman explores the changing relationship between regulators and practitioners in neocolonial Cuba and Puerto Rico Spiritism Santería and other African derived traditions were typically characterized in sensational fashion by the popular press as a plague of superstition Examining seven episodes between 1898 and the Cuban Revolution when the public demanded official actions against misbelief Roman finds that when outbreaks of superstition were debated matters of citizenship were usually at stake He links the circulation of spectacular charges of witchcraft and miracle making to anxieties surrounding newly expanded citizenries that included people of color **Governing Spirits** also contributes to the understanding of vernacular religions by moving beyond questions of national or traditional origins to illuminate how boundaries among hybrid practices evolved in a process of historical contingencies **The Cuban**

Making Spirits Diana Espirito Santo,Nico Tassi,2013-07-15 The analysis of religion has often placed an emphasis on beliefs and ideologies prioritizing these elements over those of the material world Through the ethnographic analysis of a variety of contemporary religious practices *Making Spirits* questions the presumed separation of spirit and matter and sheds light on the dynamics between spiritual and material domains By examining the cultural contexts in which material culture is central to the creation and experience of religion and belief this volume analyses the different ways in which the concepts of the material and spiritual worlds intersect interact and inform each other in the reproduction of religious rites Using examples such as spirit mediums fetishes and ritual objects across a variety of cultures such as Latin America Japan and Central Africa Nico Tassi and Diana Espirito Santo offer insights that challenge accepted categories in the study of religion making this book important for scholars of comparative religion anthropology and sociology
