*Spirits of the Deep* Seth Leacock, 1975      **Spirit of the deep: a study of Afro-Brazilian cult** Seth Leacock, Ruth Leacock,      **Spirit Possession and Spirit Mediumship in Africa and Afro-America** Irving Zaretsky, Cynthia Shambaugh, 2019-06-19 Originally published in 1978 *Spirit Possession and Spirit Mediumship in Africa and Afro America* is an incredibly diverse and comprehensive bibliography on published works containing ethnographic data on and analysis of spirit possession and spirit mediumship in North and Sub Saharan Africa and in some Afro American communities in the Western Hemisphere The sources on Western Afro American communities were chosen to shed light on the African continent and the Americas The bibliography while not exhaustive provides extensive research on the area of research in spiritualism in Africa and Afro America The bibliography also provides unique sources on spirit cults ritual or ethnic groups and will be of especial interest to researchers Although published in the late 70s this book will still provide an incredibly useful research tool for academics in the area of religion with a focus on spiritualism and non western religions      **Ritual in Its Own Right** Don Handelmann, Galina Lindquist, 2005 First published in 2004 by Berghahn Books Social analysis volume 48 issue 2 summer 2004 T p verso      [The Illusion of Conscious Will, New Edition](#) Daniel M. Wegner, 2017-12-22 A new edition of Wegner's classic and controversial work arguing that conscious will simply reminds of us the authorship of our actions Do we consciously cause our actions or do they happen to us Philosophers psychologists neuroscientists theologians and lawyers have long debated the existence of free will versus determinism With the publication of *The Illusion of Conscious Will* in 2002 Daniel Wegner proposed an innovative and provocative answer the feeling of conscious will is created by the mind and brain it helps us to appreciate and remember our authorship of the things our minds and bodies do Yes we feel that we consciously will our actions Wegner says but at the same time our actions happen to us Although conscious will is an illusion the most compelling illusion it serves as a guide to understanding ourselves and to developing a sense of responsibility and morality Wegner was unable to undertake a second edition of the book before his death in 2013 this new edition adds a foreword by Wegner's friend the prominent psychologist Daniel Gilbert and an introduction by Wegner's colleague Thalia Wheatley Approaching conscious will as a topic of psychological study Wegner examines cases both when people feel that they are willing an act that they are not doing and when they are not willing an act that they in fact are doing in such phenomena as hypnosis Ouija board spelling and dissociative identity disorder Wegner's argument was immediately controversial called unwarranted impertinence by one scholar but also compelling Engagingly written with wit and clarity *The Illusion of Conscious Will* was as Daniel Gilbert writes in the foreword to this edition Wegner's magnum opus      **Envisioning Brazil** Marshall C. **Making Black Los Angeles** Marne L. Campbell, 2016-09-27. Black Los Angeles started small. The first census of the newly formed Los Angeles County in 1850 recorded only twelve Americans of African descent alongside a population of more than 3,500 Anglo Americans. Over the following seventy years, however, the African American founding families of Los Angeles forged a vibrant community within the increasingly segregated and stratified city. In this book, historian Marne L. Campbell examines the intersections of race, class, and gender to produce a social history of community formation and cultural expression in Los Angeles. Expanding on the traditional narrative of middle class uplift, Campbell demonstrates that the black working class, largely through the efforts of women, fought to secure their own economic and social freedom by forging communal bonds with black elites and other communities of color. This women led black working class agency and cross racial community building, Campbell argues, was markedly more successful in Los Angeles than in any other region in the country. Drawing from an extensive database of all African American households between 1850 and 1910, Campbell vividly tells the story of how middle class African Americans were able to live, work, and establish a community of their own in the growing city of Los Angeles.

[Mysterious Minds](#) Stanley Krippner, Harris L. Friedman, 2009-11-12. An introduction to the scientific study of psychics and mediums: those who are frauds, those who are psychotic, and those whose claims seem to defy easy dismissal. Welcome to the world of Mysterious Minds. The Neurobiology of Psychics, Mediums, and Other Extraordinary People. Here, experts in the emerging field of neurobiological study make the case that while many claims of psychic ability are easily proven false, there may well be claimants who can obtain information in ways not easily explained by mainstream science, and there might be scientific tools and approaches available to confirm those experiences. Written by an expert team of distinguished investigators from a half dozen countries around the world, Mysterious Minds introduces readers to the current state of research into parapsychological experiences, emphasizing the neurobiological data obtained by those who claim to be psychics or mediums. It offers specific examples of paranormal claims of extraordinary people, claims scrutinized through the use of high tech brain imaging, clinical neurological examinations, and psychotropic drugs. The book concludes by proposing a series of models based on fundamental neurobiology, psychology, and quantum physics that could help us unravel these mental mysteries.
