**Spirits, Shamans, and Stars** David L. Browman, Ronald A. Schwarz, 2011-07-22 No detailed description available for Spirits Shamans and Stars *Knowing the Day, Knowing the World* Lesley Green, David R. Green, 2013-12-05 Based on more than a decade of research in Palikur lands known as Arukwa in the state of Amapá Brazil *Knowing the Day Knowing the World* reconsiders the dialogue between formal scholarship and Amerindian ways of knowing Beginning and ending with a public archaeology project in the region the book engages head on with Amerindian ways of thinking about space time and personhood Demonstrating that Palikur knowledges are based on movement and a careful theorization of what it means to be present in a place the book makes a sustained case for engaging with different ways of knowing It shows how this kind of research can generate rich dialogues about nature reality and the ethical production of knowledge The structure of the book reflects a gradual comprehension of Palikur ways of knowing during the course of field research The text enters into the ethnographic material from the perspective of familiar disciplines history geography astronomy geometry and philosophy and explores the junctures in which conventional disciplinary frameworks cannot adequately convey Palikur understandings Beginning with reflections on questions of personhood ethics and ethnicity the authors rethink assumptions about history and geography They learn and recount an alternative way of thinking about astronomy from the Palikur astronomical narratives and they show how topological concepts embedded in everyday Palikur speech extend to different ways of conceptualizing landscape In conclusion they reflect on the challenges of comprehending alternative cosmologies and consider the insights that come from allowing ethnographic material to pose questions of modernist frameworks **Handbook of Cannabis for**

**Clinicians: Principles and Practice** Dustin Sulak DO, 2021-06-29 The first foundational text on the clinical use of cannabis and cannabinoid therapies Despite thousands of years of medical use and an impressive record of safety versatility and efficacy Cannabis sativa has existed outside the modern pharmacopeia since the 1940s Primarily driven by popular demand this botanical has returned to health care but most clinicians lack the knowledge essential for identifying candidates for treatment guiding patients maximizing benefit and minimizing harm Dustin Sulak provides health care professionals including physicians psychologists pharmacists and nurses with an accessible and evidence based reference that empowers them to intelligently discuss cannabis with their patients and implement cannabis and cannabinoid therapies with confidence Based on over a decade of clinical experience and an extensive review of the literature this detailed and scientifically accurate guide includes the history of cannabis in medicine the foundations of endocannabinoid physiology the pharmacological effects of cannabis myriad active constituents the clinical utility of its various preparations and specific strategies and cautions for treating the most common conditions presenting to a cannabis clinician This guide is an essential resource for practitioners of any specialty field or experience level who wish to improve their patients outcomes harness the healing potential of the endocannabinoid system and wield a powerful solution to many of healthcare's challenges **The**

**Dragon and the Rainbow** Robert Blust, 2023-08-21 Modernization and conversion to world religions are threatening the survival of traditional belief systems leaving behind only mysterious traces of their existence This book based upon extensive research conducted over a period of nearly four decades brings scientific rigor to one of the questions that have always attracted human curiosity that of the origin of the dragon The author demonstrates that both dragons and rainbows are cultural universals that many of the traits that are attributed to dragons in widely separated parts of the planet are also attributed to rainbows and that the number and antiquity of such shared traits cannot be attributed to chance or common inheritance but rather to common cognitive pathways by which human psychology has responded to the natural environment in a wide array of cultures around the world      **The Secret Life of Another Indian Nationalism** Shail

Mayaram, 2022-06-16 Nationalism is among the most influential ideas that has shaped the Metamorphoses of the Political in the long twentieth century This book focuses on exclusivist Indian nationalism and identifies its distinction from inclusivist nationalism It highlights shifts in another Indian nationalism over the last two centuries as the geopolitical context has transitioned from the Pax Britannica to the Pax Americana and its war on terror The books braids the following three strands together first a majoritarian nationalist ideology called Hindutva second the making of popular history as a precolonial epic is highlighted depicting the defeat of the last Hindu Emperor by a conquering Muslim Sultan purportedly leading to eight centuries of Hindu enslavement and third the reconversion of a community by the Visva Hindu Parishad with consequences for Lived Hinduism and Indic civilisation with its complex identities      **The Dilemma Of Amazonian Development** Emilio

F Moran, 2019-05-28 This book the first to apply the combined approaches of anthropology geography ecology economics and sociology to the analysis of the Amazon River region and its imminent development explores the impact of development on Amazonian populations and the results of rural and urban growth strategies The authors use the methodologies of environmen      How the Spanish Empire Was Built Felipe Fernández-Armesto, Manuel Lucena Giraldo, 2024-05-06 A richly

researched account of the clever industrious and deeply practical men who followed in the footsteps often literally of Columbus Cort s Pizarro N ez de Balboa and others Wall Street Journal The untold story of the engineering behind the empire showing how imperial Spain built upon existing infrastructure and hierarchies of the Inca Aztec and more to further its growth Sixteenth century Spain was small poor disunited and sparsely populated Yet the Spaniards and their allies built the largest empire the world had ever seen How did they achieve this Felipe Fern ndez Armesto and Manuel Lucena Giraldo argue that Spain s engineers were critical to this venture The Spanish invested in infrastructure to the advantage of local power brokers enhancing the abilities of incumbent elites to grow wealthy on trade and widening the arc of Spanish influence Bringing to life stories of engineers prospectors soldiers and priests the authors paint a vivid portrait of Spanish America in the age of conquest This is a dazzling new history of the Spanish Empire and a new understanding of empire itself as a venture marked as much by collaboration as oppression      *New Era - New Religions* Andrew Dawson, 2016-04-29 New

Era New Religions examines new forms of religion in Brazil The largest and most vibrant country in Latin America Brazil is home to some of the world s fastest growing religious movements and has enthusiastically greeted home grown new religions and imported spiritual movements and new age organizations In Brazil and beyond these novel religious phenomena are reshaping contemporary understandings of religion and what it means to be religious To better understand the changing face of twenty first century religion New Era New Religions situates the rise of new era religiosity within the broader context of late modern society and its ongoing transformation

*Animism and the Question of Life* Istvan Praet,2013-08-15 The central purpose of this book is to help change the terms of the debate on animism a classic theme in anthropology It combines some of the finest ethnographic material currently available including firsthand research on the Chachi of Ecuador with an unusually broad geographic scope the Americas Asia and Africa Edward B Tylor originally defined animism as the first phase in the development of religion The heyday of cultural evolutionism may be over but his basic conception is commonly assumed to remain valid in at least one respect there is still a broad consensus that everything is alive within animism or at least that more things are alive than a modern scientific observer would allow for e g clouds rivers mountains It is considered self evident that animism is based on a kind of exaggeration its adherents are presumed to impute life to this that and the other in a remarkably generous manner Against the prevailing consensus this book argues that if animism has one outstanding feature it is its peculiar restrictiveness Animistic notions of life are astonishingly uniform across the globe insofar as they are restricted rather than exaggerated In the modern Western cosmology life overlaps with the animate Within animism however life is always conditional and therefore tends to be limited to one s kin one s pets and perhaps the plants in one s garden Thus it emerges that our modern biological concept of life is stranger than generally thought

*Colombia's Forgotten Frontier* Lesley Wylie,2013-10-28 The first literary geography of the Putumayo exploring its history and enduring significance through literature of and on this Colombian region by Latin American US and European writers

emergence of First Society people and the rise of early agricultural societies Presents the story of early architecture written by the coauthor of the acclaimed *A Global History of Architecture* Uses the most current research to develop a global picture of human interaction and migration Features color and black and white photos and drawings that show site conditions as well as huts houses and other buildings under construction in cultures that still exist today Highlights global relationships with color maps Analyzes topics ranging in scale from landscape and culture to building techniques Helps us come to terms with our own modern approaches to historical conditions and anthropological pasts Architecture of First Societies is ideal reading for anyone who seeks a deeper understanding of the strong relationships between geography ecology culture and architecture

**The Indians of Central and South America** James S. Olson, 1991-06-17 At a juncture in history when much interest and attention is focused on Central and South American political ecological social and environmental concerns this dictionary fills a major gap in reference materials relating to Amerindian tribes This one volume reference collects important information about the current status of the indigenous peoples of Central and South America and offers a chronology of the conquest of the Amerindian tribes a list of tribes by country and an extensive bibliography of surviving American Indian groups Historical as well as contemporary descriptions of approximately 500 existing tribes or groups of people are provided along with several bibliographic citations at the conclusion of each entry The focus of the volume is on those Indian groups that still maintain a sense of tribal identity For the vast majority of his entries James S Olson draws material from the Smithsonian Institution's seven volume *Handbook of South American Indians* as well as other classic resources of a broad general nature Much attention is also focused on the complicated question of South American languages and on the definition of what constitutes an Indian Olson's introduction cites dozens of valuable reference works relating to these topics Following the introduction this survey of surviving Amerindians is divided into sections that contain entries for each existing tribe or group an appendix listing tribes by country the Amerindian conquest chronology and a bibliographical essay This unique reference work should be an important item for most public college and university libraries It will be welcomed by reference librarians historians anthropologists and their students [Shamanism and the Eighteenth Century](#)

Gloria Flaherty, 2014-07-14 Pursuing special experiences that take them to the brink of permanent madness or death men and women in every age have returned to heal and comfort their fellow human beings and these shamans have fascinated students of society from Herodotus to Mircea Eliade Gloria Flaherty's book is about the first Western encounters with shamanic peoples and practices Flaherty makes us see the eighteenth century as an age in which explorers were fascinating all Europe with tales of shamans who accomplished a self induced cure for a self induced fit Reports from what must have seemed a forbidden world of strange rites and moral licentiousness came from botanists geographers missionaries and other travelers of the period and these accounts created such a stir that they permeated caf talk journal articles and learned debates giving rise to plays encyclopedia articles art and operas about shamanism The first part of the book describes in rich

detail how information about shamanism entered the intellectual mainstream of the eighteenth century In the second part Flaherty analyzes the artistic and critical implications of that process In so doing she offers remarkable chapters on Diderot Herder Goethe and the cult of the genius of Mozart as well as a chapter devoted to a new reading of Goethe's Faust that views Faust as the modern shaman Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

*Perspectives on Method and Theory in the Study of Religion* Armin Geertz, Russel McCutcheon, 2000-04-20 This volume collects select papers on methodology in the study of religion that were originally presented at the XVIIth Congress of the International Association for the History of Religions held in Mexico City in 1995 Granted the status of adjunct proceedings for the Congress the collection opens with the editors detailed survey of the longstanding importance of discussions on methodology within the IAHR The twenty one essays which follow examine religion and the history of the study of religion within a variety of theoretical contexts The essays are organized in terms of three general sub divisions general issues in methodology from the impact of both postmodernism and reflexive anthropology on the study of religion to the politics of religious studies as practiced in different national settings reflections on the categories commonly employed by scholars working in the field e g religion syncretism gender New Religious Movements sacred power experience etc and finally the collection ends with a review symposium on one of the more sophisticated recent treatments of the problem of defining religion Benson Saler's *Conceptualizing Religion* Brill 1993 Despite carrying out their work in a variety of settings from Denmark and Finland to Britain Switzerland Germany Canada the USA and Mexico the authors all model a similar approach to studying religion as but one instance of human culture
